

**Allianz-dit Energiefonds
(the "Fund")**

Notice to Unitholders

Date: 31 December 2008
Our Ref.: Allianz-dit Energiefonds
Change of Fund Name and Changes to the German Investment Act

IMPORTANT: This notice is important and requires your immediate attention. If you have any questions about the content of this document, you should seek independent professional advice. All terms used in this document have the same meanings as in the prospectus of the Fund.

Dear Unitholders,

On behalf of Allianz Global Investors Kapitalanlagegesellschaft mbH, the Management Company of the Fund, we are writing to notify you the following changes affecting the Fund:

1. Change of Fund Name

With effect from 1 February 2009, the name of the Fund will be changed from Allianz-dit Energiefonds to Allianz RCM Energy.

2. Changes in relation to the new Investment Act (Investmentgesetz)

The Investment Amendment Act has led to changes in the Investment Act (Investmentgesetz, InvG) which is relevant for the UCITS-compliant funds managed by us. As a result, the "General" and "Special Fund Rules" of our investment funds have to be adjusted to the new legal situation.

2.1 Changes to the General Fund Rules

The following general changes to the InvG will apply to the Fund with effect from 1 February 2009:

1. Adaptation of the range of possible investments to the provisions of the EU Directive 2007/16/EC, which was translated into national law by the new wording of the InvG. The following changes are particularly important in this respect:

- So far, securities were only permitted if they were traded at a permitted European exchange or at an exchange or organised market outside Europe which was included in a list attached to the relevant Fund Rules. The list of permitted exchanges and markets will no longer be attached to

the Fund Rules. Instead, there is a reference to a list maintained by BaFin (Bundesanstalt für Finanzdienstleistungsaufsicht, the Federal Financial Supervisory Authority) and published on the internet (www.bafin.de).

- The maximum permissible remaining maturity of money-market instruments is increased from 12 months to 397 calendar days.
- Under the 35% limit for government bonds or borrower's notes issued by one and the same issuer now includes money-market instruments by these issuers. The range of permissible issuers is expanded to include not only the Federal government, the Federal States and members of the EU, the EEA and the OECD, but also all third countries and all international organisations of which at least one EU Member State is a member.
- The investment limits for securities (5%/10%/40%) will in the future apply also to money-market instruments issued by companies which are neither credit institutions nor listed on a stock exchange, but only have a minimum equity capital of EUR 10 m; the earlier, more restrictive limits of 5% or 2% of the fund's value are abolished.

2. Shorter deadlines for amendments to the Fund Rules, mergers and terminations of funds

- Amendments to the provisions concerning expenses or fees to be paid to the Company, the Custodian or third parties may enter into force six months (so far: 13 months) after their publication in the electronic version of the Federal Gazette and in an economic or daily newspaper with sufficient circulation or in the electronic medium mentioned in the Prospectus at the earliest, provided that no earlier date is set with the approval of BaFin.
- Amendments to the investment principles of a fund can enter into force 6 months (so far: 13 months) after their publication.
- Other amendments to the Fund Rules can enter into force on the day after the publication (so far: three months).
- The transfer of all assets of a fund to another fund (merger) can take place three months after the publication at the earliest (so far: no rule).
- A termination of the fund management by the company can take effect after six months at the earliest (so far: 13 months).

3. Changes concerning annual and semi-annual reports

In the future, annual reports must be published four months after the end of the financial year at the latest (if the financial year ends ahead of 01.01.09: three months). Moreover, the obligation to publish annual and semi-annual reports in an economic or daily newspaper with sufficient circulation or in the electronic media listed in the Prospectus will lapse. Instead, the Prospectus will announce how and where the reports are accessible.

4. Unit classes

So far, provisions for the creation of different unit classes were included in the Fund Rules. For practical reasons the unit classes will be described in the Prospectus in the future.

The General Fund Rules for UCITS compliant funds as amended under the new Investment Act have already been released in the publication of the intended adaptation of the fund VR Bank KT EuroProtect Allianz (which we manage, too) to the new Investment Act. This publication took place in July 2008 in the electronic version of the Federal Gazette and on our website www.allianzglobalinvestors.de.

2.2 Changes to the Special Fund Rules

With effect from 1 August 2009, the provision concerning the reimbursement of expenses set out in section 7 sub-section 4 of the Special Fund Rules shall include a new letter h): "costs (if any) for having the success of the investment analysed by third parties".

The Special Fund Rules in the version effective from 1 February 2009 is attached as Schedule 1.

The revised section 7 of the Special Fund Rules to be effective from 1 August 2009 is attached as Schedule 2.

The Fund's Prospectus is accessible or available free of charge from us.

If you have any questions about the content of this notice or your investment, please consult your financial advisor or you may contact us at 21st Floor, Cheung Kong Center, 2 Queen's Road Central, Hong Kong (telephone: +852 2238 8000 and fax: +852 2877 2566).

Yours sincerely,

Allianz Global Investors Hong Kong Limited

Schedule 1

Special Fund Rules

to regulate the legal relationship between the unitholders and **Allianz Global Investors Kapitalanlagegesellschaft mbH, Frankfurt am Main**, (hereinafter, "Company") with regard to the UCITS-compliant fund launched by the Company

Allianz RCM Energy.

These "Special Fund Rules" are only applicable in conjunction with the "General Fund Rules" set out by the Company for UCITS-compliant funds.

Investment Principles and Investment Restrictions

Section 1 Assets

The Company may acquire the following assets for the fund:

1. Securities as specified in section 47 of the Investment Act (Investmentgesetz - InvG), albeit only those of the following classes:
 - a) equities, equity equivalent securities and participation certificates, if, according to the last annual report, the issuer (or, in the case of instruments representing equities, the corporation) generates the majority of its sales or profit from the following activities:
 - (1) Exploration, production, processing, transportation or distribution of crude oil, natural gas or coal,
 - (2) Provision of services, such as the collection and processing of geological data or the construction, supply or operation of drilling rigs, for companies active in the areas named under (1),
 - (3) Extraction, processing, transportation or distribution of alternative sources of energy,
 - (4) Plant engineering, provided that the company is predominantly engaged in the construction or operating of plants or equipment for generating or saving energy, or for the exploration, production, processing, transportation or distribution of crude oil, natural gas or coal. This includes the construction of power stations or plants for alternative sources of energy. The Company shall select the securities for the fund irrespective of the domicile or the size of the

company and irrespective of whether or not the stocks are value or growth stocks. This means that the fund can either opt for a focused investment strategy, investing in companies domiciled in one or several countries, in companies of a certain size or in companies belonging to a particular category, or for a diversified approach.

- b) Equities, equity equivalent securities and participation certificates of other companies.*
- c) Index certificates and share certificates with a risk profile correlating with the assets listed under a) and b) or with the investment markets to which these assets are attributable.*
- d) Convertible bonds and warrant bonds relating to the assets set out in a) and b).*

- 2. Money market instruments as specified in section 48 InvG, if these are denominated in the currency of an OECD member state.*
- 3. Bank deposits as specified in section 49 InvG, if these are denominated in the currency of an OECD member state.*
- 4. Investment units as specified in section 50 InvG, albeit only units in investment funds with a risk profile that typically correlates with the investment markets to which the assets set out in nos. 1 to 3 are attributable. These funds can be either domestic or foreign investment funds in accordance with section 50 InvG. Depending on its assessment of the market situation, the Company can opt to focus on one or several investment funds. These may include investment funds which pursue an investment policy focused on a single investment market, or investment funds which take a diversified investment approach.*

As a general rule, the Company shall only purchase units in investment funds managed directly or indirectly by the Company itself or by other companies with which the Company is affiliated either by way of a significant direct or indirect holding. Units in other investment funds shall be purchased only in exceptional cases where none of the investment funds set out in sentence 4 follow the investment policy which the Company deems to be necessary in that particular case, or if the units in question are units in an investment fund which replicates a securities index and are admitted to trading on one of the exchanges or organised markets set out in section 5 a) and b) of the General Fund Rules.

- 5. Derivatives as specified in section 51 InvG.*
- 6. Other investment instruments as specified in section 52 InvG, albeit only equities, equity equivalent securities or participation certificates.*

Section 2 Investment restrictions

- (1) The total proportion of equities and equity equivalent securities within the meaning of section 1 no. 1a) may not fall below 51 % of the fund's assets.*
- (2) The total proportion of equities and other assets within the meaning of section 1 no. 1a) may not fall below 70% of the fund's assets, subject to the conditions set out in sub-section 8.*
- (3) The total proportion of equities and other assets within the meaning of section 1 no. 1b) may not exceed 20 % of the fund's assets, subject to the conditions set out in sub-section 8.*
- (4) The total proportion of money market instruments within the meaning of section 1 no. 2 and of bank deposits within the meaning of section 1 no. 3 may not exceed 15% of the fund's assets, subject to the conditions set out in sub-section 8.*
- (5) The total proportion of investment units within the meaning of section 1 no. 4 may not exceed 10% of the fund's assets. Investment units with a risk profile that correlates with the assets set out in sub-sections 3 or 4 shall be included in the calculation for the respective limit.*
- (6) Securities and money market instruments purchased under agreements to resell shall be included in calculations for the issuer limits set out in section 60 sub-sections 1 and 2 InvG, while investment units purchased under agreements to resell shall be included in the investment limits set out in sections 61 and 64 sub-section 3 InvG. The amounts which have been paid by the Company in its capacity as repo lender shall be included in calculations for the limit set out in sub-section 4.*
- (7) The limits set out in sub-sections 1 through 5 may be exceeded/undershot if this occurs due to changes in the value of the assets in the fund, as a result of the exercise of conversion, subscription and option rights, or due to a change in the value of the entire fund, e.g. where unit certificates are issued or redeemed. In such cases, the Company's foremost objective shall be to revert to compliance with the aforementioned restrictions while protecting the interests of the investors.*
- (8) The limits set out in sub-sections 2 through 4 may be exceeded/undershot, with due regard to the limits set out in sub-section 1, as a result of the purchase/sale of the assets in question if derivatives are used at the same time in order to ensure that the market risk potential is kept within the limits on the whole. Derivatives used for this purpose are applied at the delta-weighted value of the respective underlying in keeping with the respective arithmetic sign. Short transactions in derivatives are applied as risk-reducing factors even if their underlyings do not correspond fully to the assets in the fund.*

Section 3 Derivatives

The Company may use the derivatives and financial instruments with a derivative element set out section 9 sub-section 1 of the "General Fund Rules" for the following purposes:

- hedging the fund against losses incurred by assets in the fund,
- carrying out efficient portfolio management, in particular:
- complying with the investment restrictions and principles by using derivatives or financial instruments with a derivative element as a substitute for direct securities investments, for example
- increasing or minimising the potential market risk of one, several or all permissible assets within the fund;
- achieving additional returns by assuming additional risks, and
- increasing the market risk potential of the fund above the market risk potential of a fund fully invested in securities ("leveraging").

In doing this, the Company may also employ short transactions in derivatives or financial instruments with a derivative element which can lead to gains in the fund if the prices of certain securities, investment markets or currencies fall, or to losses in the fund if their prices rise.

Unit classes

Section 4 Unit classes

- (1) Unit classes within the meaning of section 16 sub-section 2 of the "General Fund Rules" can be created for the fund, which may differ in terms of profit allocation, front-end load, exit charges, the currency of the unit value including the use of currency hedging transactions, the management fee, or any combination of the features mentioned. Unit classes may be created at any time at the discretion of the Company.*
- (2) It is permitted to enter into currency hedging transactions in favour of one currency unit class only. For a currency unit class with a currency hedge in favour of this unit class's currency (reference currency) the Company may, independent of section 9 of the "General Fund Rules" and section 3, use derivatives on exchange rates and currencies within the meaning of section 51 sub-section 1 InvG with the aim of avoiding losses in unit value resulting from exchange-rate-related losses in fund assets which are not denominated in the unit class's reference currency. Equities and equity equivalent securities are deemed to be subject to an exchange rate risk if the currency of the country in which the issuer (or corporation as far as instruments representing equities are concerned) is domiciled is different from the reference currency of the unit class. Other assets are deemed to be subject to a currency risk if they are denominated in a currency other than the reference currency of the unit class. For currency hedged unit classes, the value of the fund assets which are subject to a currency risk and are not hedged must not exceed 10% of the unit class value. The use of derivatives in keeping with the provisions of this sub-section may not have any effect on unit classes which are not currency hedged, or which are hedged against another currency.*
- (3) The unit value shall be calculated separately for each unit class, with any expenses related to the issue of new unit classes, any distributions (including any taxes to be paid from the fund's assets), any*

management fees and any results of exchange-rate hedgings attributable to a certain unit class (including any income equalisation) being attributed exclusively to this unit class.

- (4) *The existing unit classes shall be listed in the extended prospectus and in the annual and semi-annual reports. The characteristics of the unit classes (income appropriation, front-end load, exit charge, currency of the unit value including the use of currency hedging transactions, management fee, minimum investment amount or any combination of these features) will be described in detail in the extended prospectus and in the annual and semi-annual reports. Moreover, the Company may determine in the extended prospectus and in the annual and semi-annual reports that a special agreement on the management fee between the investor and the Company is a precondition for the acquisition of certain unit classes.*

Co-ownership, issue price, redemption price, unit redemption and charges

Section 5 Co-ownership

- (1) *As co-owners, the investors hold an interest in the assets of the fund proportionate to the number of units held and in accordance with the unit classes launched.*
- (2) *The rights of unitholders vested in unit certificates with the original names "dit-Energiefonds" and "Allianz-dit Energiefonds" shall remain unaffected. These units remain valid.*

Section 6 Issue and redemption prices

- (1) *The front-end load for all unit classes for which no minimum investment is required either in the extended prospectus or in the annual or semi-annual reports is 6 % of the unit value. The Company may, however, charge a lower front-end load for one or more of these unit classes. No front-end load is levied on the other unit classes.*
- (2) *An exit charge shall not be levied.*
- (3) *In derogation of section 18 sub-section 3 of the General Fund Rules the settlement date for unit subscriptions and redemption orders shall be at the latest the second valuation date following the receipt of the unit subscription or redemption order.*

Section 7 Charges

- (1) *For all unit classes for which no minimum investment is required either in the extended prospectus or in the annual or semi-annual reports the daily fee for the management of the fund shall amount to 2.0% p.a. of the pro rata value of the fund. This is calculated on the basis of the net asset value, which is determined every trading day. For the remaining unit classes the daily fee for the management of*

the fund is 1.0 % p.a. of the pro rata value of the fund, calculated on the basis of the net asset value, which is determined every trading day. The Company may, however, charge a lower fee for one or more unit classes. In the case of the unit classes for which the extended prospectus and the annual and semi-annual reports require a special agreement between the investor and the Company as a precondition for the acquisition the management fee is not charged to the fund but directly to the investors.

(2) The daily fee paid to the Custodian shall amount to 0.2 % p.a. of the value of the fund's assets. This is calculated on the basis of the net asset value, which is determined every trading day. The Custodian may, however, charge a lower fee.

(3) The fees set out in sub-sections 1 and 2 can be deducted from the fund at any time.

(4) In addition to the charges stipulated above, the following expenses shall be chargeable to the fund:

a) costs that arise in connection with the acquisition and sale of assets (including any associated research and analysis services in line with market practices) and with the use of securities lending programmes in line with current banking practice,

b) custodian fees in line with current banking practice, including any fees charged in line with current banking practices for the custody of foreign securities abroad;

c) costs for the printing and dispatch of annual and semi-annual reports intended for the investors;

d) costs for the publication of the annual and semi-annual reports, the liquidation report, the issue and redemption prices, and distributions or reinvested income;

e) costs for having the fund audited by the Company's auditors, including the costs for a certificate stating that all tax data complies with the regulations of German tax law;

f) taxes which may be incurred in connection with the costs of management and custody;

g) costs for the assertion and enforcement of claims attributable to the fund which are deemed to be justified, as well as for defence against unjustified claims brought against the fund,

(5) If units in other investment funds are acquired, the company managing the other fund may not charge front-end loads or redemption fees for acquisition or redemption. The Company must disclose, in the annual and semi-annual report, the fee charged to the fund by the company managing the other fund as a management fee for the units held in the fund.

Profit allocation and financial year

Section 8 Distribution

- (1) For distributing unit classes the Company shall, as a general rule, make a pro rata distribution of the interest, dividends and income from investment units, as well as considerations from loans and repurchase agreements, which have accrued for account of the fund during the financial year and which have not been required to defray expenses, subject to the requisite equalisation of income. Disposal gains and other income – after allowing for income equalisation – may also be distributed on a pro rata basis.*
- (2) Pro rata income available for distribution under sub-section 1 above may be carried over to future financial years for distribution purposes, provided that the total income carried over does not exceed 15% of the value of the fund's assets by the end of the financial year. Income from abridged financial years may be carried forward in full.*
- (3) In the interest of maintaining the fund's assets, pro rata income may be partially or, in special cases, completely reinvested in the fund.*
- (4) Distribution shall be effected annually within three months after the end of each financial year.*
- (5) Interim distributions are permissible in exceptional circumstances where, in accordance with section 40 InvG, the fund is to be merged with another fund, or where another fund is to be merged with the fund in question.*

Section 9 Reinvestment

- (1) For reinvesting unit classes the Company shall reinvest into the fund, on a pro rata basis, the dividends, interest and income from investment units, as well as considerations from loans and repurchase agreements, other income and capital gains which have accrued for account of the fund during the financial year and which have not been required to defray expenses, subject to the requisite equalisation of income.*
- (2) Interim distributions are permissible in exceptional circumstances where, in accordance with section 40 InvG, the fund is to be merged with another fund, or where another fund is to be merged with the fund in question.*

Section 10 Financial year

The financial year of the fund shall be the calendar year.

Schedule 2

Section 7 of the Special Fund Rules in the version effective from 1 August 2009 is included below.

Section 7 Charges

- (1) For all unit classes for which no minimum investment is required either in the extended prospectus or in the annual or semi-annual reports the daily fee for the management of the fund shall amount to 2.0% p.a. of the pro rata value of the fund. This is calculated on the basis of the net asset value, which is determined every trading day. For the remaining unit classes the daily fee for the management of the fund is 1.0 % p.a. of the pro rata value of the fund, calculated on the basis of the net asset value, which is determined every trading day. The Company may, however, charge a lower fee for one or more unit classes. In the case of the unit classes for which the extended prospectus and the annual and semi-annual reports require a special agreement between the investor and the Company as a precondition for the acquisition the management fee is not charged to the fund but directly to the investors.*
- (2) The daily fee paid to the Custodian shall amount to 0.2 % p.a. of the value of the fund's assets. This is calculated on the basis of the net asset value, which is determined every trading day. The Custodian may, however, charge a lower fee.*
- (3) The fees set out in sub-sections 1 and 2 can be deducted from the fund at any time.*
- (4) In addition to the charges stipulated above, the following expenses shall be chargeable to the fund:*
 - a) costs that arise in connection with the acquisition and sale of assets (including any associated research and analysis services in line with market practices) and with the use of securities lending programmes in line with current banking practice,*
 - b) custodian fees in line with current banking practice, including any fees charged in line with current banking practices for the custody of foreign securities abroad;*
 - c) costs for the printing and dispatch of annual and semi-annual reports intended for the investors;*
 - d) costs for the publication of the annual and semi-annual reports, the liquidation report, the issue and redemption prices, and distributions or reinvested income;*
 - e) costs for having the fund audited by the Company's auditors, including the costs for a certificate stating that all tax data complies with the regulations of German tax law;*
 - f) taxes which may be incurred in connection with the costs of management and custody;*

g) - costs for the assertion and enforcement of claims attributable to the fund which are deemed to be justified, as well as for defence against unjustified claims brought against the fund,

h) costs (if any) for having the success of the investment analysed by third parties.

(5) If units in other investment funds are acquired, the company managing the other fund may not charge front-end loads or redemption fees for acquisition or redemption. The Company must disclose, in the annual and semi-annual report, the fee charged to the fund by the company managing the other fund as a management fee for the units held in the fund.
