## PRODUCT DESCRIPTION

1. **Fixed Rate Currency-Linked SIP denominated in Settlement Currency**
  - The SIP is a fixed rate structured product denominated in Settlement Currency involving a Linked Currency denominated investment.
2. **Tenor**
  - The tenor of the SIP is stated under the caption “**Tenor**” in the SIP Order Form.
3. **Redemption**
  - The Bank will pay 100% of the Principal Amount to the Customer on the Maturity Date in the Settlement Currency, provided that the SIP is maintained by the Customer with the Bank up to the Maturity Date.
4. **Interest**
  - Interest on the SIP is paid on the Maturity Date.
  - The Customer will receive a fixed per annum interest rate of the Principal Amount for the entire tenor of the SIP (as stated under the caption “**Interest Rate (p.a.)**” in the SIP Order Form) and such interest amount is calculated by reference to the relevant Spot Rate and Forward Rate and is fixed upfront.

## KEY RISK FACTORS

**Please be reminded of the following key risks of investing in the SIP and refer to the section of “Risks Associated with the SIP” in this Term Sheet for details:**

- **Not a traditional deposit / time deposit** – The SIP is a form of structured product that carries risks not normally associated with ordinary bank deposits. The SIP is NOT equivalent to a time deposit. The Customer should therefore not treat the SIP as a substitute for ordinary savings or time deposits. The SIP is NOT a protected deposit and is NOT protected by the Deposit Protection Scheme in Hong Kong.
- **Derivatives risk** – The SIP is embedded with a currency swap. Generally, any swap transaction is subject to market risk, credit risk, liquidity risk, legal risk and settlement risk.
- **Return on the SIP / Limited Potential Gain** – The maximum potential gain is limited to the Interest Amount which is calculated by reference to the relevant Spot Rate and Forward Rate and is fixed upfront.
- **Principal amount received upon redemption** – The Customer will receive 100% of the Principal Amount on the Maturity Date only if the Customer holds the SIP up to the Maturity Date.
- **Not the same as buying the Linked Currency** – Investing in the SIP is not the same as buying the Linked Currency directly. In particular, the return on the SIP is dependent on the Spot Rate and the Forward Rate which are fixed upfront. Any appreciation or depreciation of the Linked Currency on or before the Maturity Date will not increase or decrease the return of the SIP.
- **Currency risk** – Where the Customer has converted amounts from another currency (including your home currency) into the Settlement Currency in order to make the investment in the SIP, the Customer should bear in mind the risk of exchange rate fluctuations that may cause a loss on conversion of the Settlement Currency (that is the currency the Bank pays you at maturity). You should note that such potential loss from the product could offset (or even exceed) the potential gain if the Settlement Currency depreciates against the currency you converted from (including your home currency).
- **Liquidity risk** – The SIP is a commitment by the Customer for the tenor as stated under the caption “Tenor” in the SIP Order Form. No early uplift, early withdrawal or early termination by the Customer is permitted. The Customer has to maintain the SIP with the Bank up to the Maturity Date.
- **Credit risk** – The Customer is taking on the credit risk of the Bank. The SIP is not secured by any collateral. In the worst case scenario, where DBS Bank (Hong Kong) Limited (星展銀行 (香港) 有限公司) defaults on its payment obligations under the SIP, the Customer will receive no interest payment and lose his original investment amount.

**Governing Law:** The laws of Hong Kong.

**No Gross-Up for Withholding Tax:** All amounts (including the Final Redemption Amount) to be paid by the Bank to the Customer shall be paid net of any applicable withholding tax (including any U.S. federal withholding tax imposed or collected pursuant to Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986, as amended (the **“Code”**), any current or future regulations or official interpretations thereof, any agreement entered into pursuant to Section 1471(b) of the Code, or any fiscal or regulatory legislation, rules or practices adopted pursuant to any intergovernmental agreement entered into in connection with the implementation of such Sections of the Code (a **“FATCA Withholding Tax”**)). - (b) you should note that the Bank and/or our affiliates may play a variety of roles in offering these products, which may result in potential and actual conflicts of interests arising from these different roles. In particular, please note the Bank is offering an in-house product hence no external quotes will be available; and

(c) we are NOT an independent intermediary because:

(i) we receive fees, commissions, or other monetary benefits from other parties (which may include product issuers) in relation to our distribution of investment products to you. (ii) and/or we receive non-monetary benefits from other parties, or have close links or other legal or economic relationships with issuers of products that we may distribute to you.

## APPLICATION PROCEDURES

1. To place an order for the SIP (the “**SIP Order**”), the Customer must complete the SIP Order Form for the Bank (by submitting a completed SIP Order Form to the Bank or completing the SIP Order Form over the phone with the Bank). The parties intend and agree that the SIP Documents will be conclusive and binding on the Customer upon expiry of the Cancellation Period as defined in the SIP Order Form and (if applicable) upon the Customer’s confirmation of placement of that order after completion of the Pre-Investment Cooling-off Period but is subject to final execution and acceptance by the Bank and provided that the SIP Documents may be terminated by the Bank as herein provided.
2. The amount which the Customer wishes to place in the SIP (the “**Offer Amount**”) must be deposited with the Bank on or before the submission of the SIP Order Form. The deposited funds will be held in the relevant account until the Investment Value Date. If the deposited funds are held in an interest-bearing account, the relevant account will be credited with any interest accrued between the date on which the Offer Amount is deposited with the Bank and the Investment Value Date.
3. On the Investment Value Date, if the SIP Order is accepted by the Bank (whether in whole or in part), the Offer Amount (or the relevant part thereof) will be invested in the SIP on the terms set out in this Term Sheet.
4. A SIP Confirmation will normally be issued to the Customer within two Business Days from the Investment Value Date if the SIP Order is accepted by the Bank, but any failure or delay in doing so will not prejudice the binding nature of the SIP upon the Customer.
5. The Bank has the discretion not to execute or accept any SIP Order (or any part thereof) notwithstanding the SIP Order has been received by the Bank.
6. Without prejudice to the Bank’s discretion as aforesaid, the Bank will not execute and will not accept SIP Orders unless the aggregate of all SIP Orders received by the Bank on or before the Closing Date of Offer is not less than the Minimum Offer Size. Further, if the market is affected by significant exchange rate, interest rate and/or other price movements and/or other unusual conditions before the Closing Date of Offer, the Bank may shorten the SIP offer period and stop receiving new SIP Orders. If a SIP Order has not yet been confirmed by the Bank as being accepted by the Bank in a SIP Confirmation and the SIP Order is not declined by the Bank (the “**Pending Orders**”), the Bank will use its reasonable efforts to execute such Pending Orders, but the Bank will otherwise have no obligation with respect to the Pending Orders.
7. In addition, even if a SIP Order has been received by the Bank, the Bank will have the right to cancel the SIP Order received if a SIP Cancellation Event occurs on or after the Closing Date of Offer and on or before the Investment Value Date.
8. If a SIP Order is not accepted or is cancelled after acceptance as provided for above, the Bank will notify the Customer of any such non-acceptance or cancellation and the termination of the SIP Documents with respect to the SIP without any liability, and then release the Offer Amount deposited (if any) to the Customer (without any interest other than as provided for in paragraph 2 above) as soon as practicable thereafter.

**SIP Cancellation Event:**

Any of the following:

- (a) any event beyond the control of the Bank which, in the Bank’s opinion, will make it impracticable, illegal or impossible for the Bank to perform its obligations under the SIP or to effectively hedge its obligations under the SIP; or
- (b) notwithstanding that the Minimum Offer Size has been reached, in the Bank’s opinion, changes in market conditions have made it impracticable for the Bank to effectively hedge its obligations under the SIP given the total amount of SIP Orders.

## COMPARISON WITH STANDARD TIME DEPOSIT

The Customer will receive 100% of the Principal Amount and Interest Amount on the Maturity Date. If you wish to compare the return on the SIP with a standard time deposit, please refer to the Bank's per annum interest rate for a standard time deposit with the same tenor and same principal amount as the SIP.

## RISKS ASSOCIATED WITH THE SIP

### Not a traditional deposit/ time deposit

- **The SIP is a form of structured product that carries risks not normally associated with ordinary bank deposits. The SIP is NOT equivalent to a time deposit. The Customer should therefore not treat the SIP as a substitute for ordinary savings or time deposits.**
- **The SIP is NOT a protected deposit and is NOT protected by the Deposit Protection Scheme in Hong Kong.**

### Suitability and concentration

- The Customer should ensure that he understands the characteristics of the SIP and the nature of the risks associated with his investment. The Customer should consider the suitability of the SIP as an investment in light of his own circumstances and financial condition.
- In particular, the Customer should note that the tenor of the SIP is stated under the caption "Tenor" in the SIP Order Form and should not form a substantial portion of his investment portfolio.

### Summary Information Only

- This document contains summary information only. It does not contain all of the terms and conditions (material or otherwise) of the SIP and the Customer is advised to review all of the documents referred to under the section headed "Documentation and Inconsistencies". If the Customer requires further information in relation to the SIP, please contact the Bank.

### Derivatives risk

- **The SIP is embedded with a currency swap. Generally, any swap transaction is subject to market risk, credit risk, liquidity risk, legal risk and settlement risk.**

### Return on SIP / Limited Potential Gain

- **The maximum potential gain is limited to the Interest Amount which is calculated by reference to the relevant Spot Rate and Forward Rate and is fixed upfront.**

### Principal Amount will be received upon redemption on the Maturity Date

- **The Customer will receive 100% of the Principal Amount on the Maturity Date only if the Customer holds the SIP up to the Maturity Date.**

### SIP terms and return

- Certain parameters in respect of the SIP (e.g. Closing Time and Date of Offer) may be affected by a number of market factors, including changes in the value and volatility of the underlying asset(s), changes in foreign exchange rates and economic, financial and political events that are difficult to predict, and thus may be subject to appropriate adjustments by the Bank.
- The total payout the Customer receives for the tenor of the SIP may be less than the return or interest the Customer may otherwise have received from other investments.
- The SIP has investment risks. The Customer will only receive a return determined in the manner set out in this Term Sheet and the other SIP Documents. The Customer should fully understand the investment risks before making any investment in the SIP.
- The Customer's attention is drawn to the following (which is not exhaustive):  
The interest on the SIP depends on the levels of the Spot Rate and the Forward Rate. These rates are fixed upfront and the Interest Amount will be determined at the outset.

### Not the same as buying the Linked Currency

- Investing in the SIP is not the same as buying the Linked Currency directly. In particular, the return on the SIP is dependent on the Spot Rate and the Forward Rate which are fixed upfront. Any appreciation or depreciation of the Linked Currency on or before the Maturity Date will not increase or decrease the return of the SIP.

### Liquidity risk

- The SIP is a commitment by the Customer for the tenor as stated under the caption “Tenor” in the SIP Order Form. No early uplift, early withdrawal or early termination by the Customer is permitted. The Customer has to maintain the SIP with the Bank up to the Maturity Date.

### Currency risk

Where the Customer has converted amounts from another currency (including your home currency) into the Settlement Currency in order to make the investment in the SIP, the Customer should bear in mind the risk of exchange rate fluctuations that may cause a loss on conversion of the Settlement Currency (that is the currency the Bank pays you at maturity). You should note that such potential loss from the product could offset (or even exceed) the potential gain if the Settlement Currency depreciates against the currency you converted from (including your home currency).

### There are potential conflicts of interest

- The Bank and its affiliates play a variety of roles in connection with the SIP, including acting as counterparty and calculation agent and hedging its obligations under the SIP. The Bank and/or its affiliates may also enter into, adjust and unwind transactions relating to the relevant assets or currencies, whether for its or its affiliates' proprietary accounts or for accounts under management or to facilitate transactions on behalf of Customers or otherwise. In carrying out these roles, the Bank's economic interests and those of its affiliates are potentially adverse to the Customer's interests as counterparty in the SIP.

### The Customer must rely on his own evaluation of the merits of the SIP

- In the ordinary course of their businesses, the Bank and/or its affiliates may from time to time express views on expected movements in the exchange rates and/or the interest rates of the relevant currencies or other currencies. These views are sometimes communicated to clients and which are subject to change due to changes in worldwide economic, political and other developments over differing time horizons. In connection with the SIP, the Customer must make his own evaluation of the merits of the SIP and the Customer must not rely on any views which may be expressed by the Bank and/or its affiliates in the ordinary course of their businesses with respect to future price movements in the relevant currencies or other currencies.

### Historical information about the exchange rates and/or the interest rates for the relevant currencies may not be indicative of future values

- Historical information on the exchange rates and/or interest rates which may be provided to the Customer is for information only, and the Customer should not regard the information as indicative of the range of, or trends in, or future fluctuations in the exchange rates and/or interest rates or the future performance of the SIP.

### The Customer is taking on the credit risk of the Bank

- The SIP is not secured by any collateral. The Customer is taking on the credit risk of the Bank with respect to all payments due under this SIP. For more information on the Bank, including its financial conditions, you may go to [www.dbs.com/hk](http://www.dbs.com/hk) where you can obtain its latest annual statutory accounts. A printed copy of such statutory accounts is also available upon request.
- In the worst case scenario, where DBS Bank (Hong Kong) Limited (星展銀行 (香港) 有限公司) defaults on its payment obligations under the SIP, the Customer will receive no interest payment and lose his original investment amount.

### Compounding of Risks

- An investment in the SIP involves risks and should only be made after assessing, for example, the direction, timing and magnitude of potential future changes in interest rates, exchange rates and the terms and conditions of the SIP. More than one risk factor may have simultaneous effects with regard to the SIP such that the effect of a particular risk factor may not be predictable. In addition, more than one risk factor may have a compounding effect, which may not be predictable. No assurance can be given as to the effect that any combination of risk factors may have on the value of the SIP.

**PAYOUT ILLUSTRATIONS**

**(Note: All figures below are hypothetical and merely serve as illustrations for reference only. They are not indicative of the future or likely performance of the SIP.)**

**Assumptions:**

**Investment Value Date:** 24 Jun 2024  
**Maturity Date:** 24 Dec 2024  
**Settlement Currency:** USD  
**Linked Currency:** HKD

Principal Amount (USD)	Currency Pair	Spot Rate	Forward Rate	Linked Rate (p.a.)	Actual number of days in the Interest Period
100,000	USD/HKD	7.805450	7.8052371710	4.05%	183

As the Settlement Currency is Currency 1 of the Currency Pair,

Linked Amount = Principal Amount x Spot Rate  
 = 100,000 x 7.805450  
 = 780,545.00 (rounded to the nearest cent)

Linked Final Amount = Linked Amount x (Linked Rate x Day Count Fraction of Linked Currency +1)  
 = 780,545.00 x (4.05% x (183/365) +1)  
 = 796,394.34 (rounded to the nearest cent)

Interest Amount = Linked Final Amount / Forward Rate - Principal Amount  
 = 796,394.34 / 7.8052371710 - 100,000  
 = 2,033.33 (rounded to the nearest cent)

Interest Rate = Interest Amount ÷ Principal Amount ÷ Day Count Fraction of Settlement Currency  
 = 2,033.33 / 100,000 / (183/360)  
 = 4% p.a.

**Scenario 1: Best Case Scenario**

**On the Maturity Date, Customer will receive:**

- a) USD 100,000, which is 100% of the Principal Amount; and
- b) USD 2,033.33, which is the Interest Amount

Thus, Customer will receive a total payout of USD102,033.33, which is equivalent to a return of 4% p.a. of the Principal Amount.

**Scenario 2: Worst Case Scenario / The Bank becomes insolvent or defaults on its obligations**

Assuming that the Bank becomes insolvent during the tenor of this product or defaults on its obligations under this product, you can only claim as its unsecured creditor. You may get nothing back and suffer a total loss of your investment amount.
