What is this product and how does it work?

- This SIP is a structured investment product involving buying a Double No Touch currency option on the exchange rate of the Linked Currency Pair.
- The Customer will, on the Interest Payment Date, receive an Interest Amount calculated by reference to:
 - (a) the Higher Interest Rate if a Barrier Event has not occurred; or
 - (b) the Lower Interest Rate if a Barrier Event has occurred.
- The Customer will receive the 100% of Principal Amount in Investment Currency on the Maturity Date only if the Customer holds the SIP up to the Maturity Date, except that in the case of a SIP that has CNY(offshore) as the Investment Currency and/or the Settlement Currency and/or a SIP that references CNY(offshore) in the Linked Currency Pair, such SIP is subject to Alternate Currency Event Designation by the Bank and in the case of that happening, the Customer may receive less than 100% of the Principal Amount.

What are the key risks?

- **Not a traditional deposit / time deposit** – The SIP is a form of structured product that carries risks not normally associated with ordinary bank deposits. This SIP is NOT equivalent to a time deposit. The Customer should therefore not treat the SIP as a substitute for ordinary savings or time deposits. The SIP is NOT a protected deposit and is NOT protected by the Deposit Protection Scheme in Hong Kong.
- **Derivatives risk** – The product is embedded with currency options. Option transactions involve risks. The Interest Amount is variable and subject to the movement of the Spot Rate of the Linked Currency Pair.

- **Return is Capped / Limited potential gain** – The maximum potential gain rate is limited to the Higher Interest Rate as specified in writing on the SIP Order Form and the SIP Confirmation.
- **Not the same as buying the Linked Currency Pair**– Investing in the SIP is not the same as buying Linked Currency Pair directly.
- **Principal Amount received upon redemption** –The Customer will receive 100% of the Principal Amount in Investment Currency on the Maturity Date only if the Customer holds the SIP up to the Maturity Date, except that in the case of a SIP that has CNY(offshore) as the Investment Currency and/or the Settlement Currency and/or a SIP that references CNY(offshore) in the Linked Currency Pair, such SIP is subject to Alternate Currency Event Designation by the Bank and in the case of that happening, the Customer may receive less than 100% of the Principal Amount.
- **Market risk** – The return of the SIP is linked to the exchange rate of the Linked Currency Pair. Movements in exchange rates can be unpredictable, sudden and drastic, and affected by complex political and economic factors.
- **Currency risk** – Where the Customer has converted amounts from another currency into the Investment Currency in order to make the investment in the SIP, the Customer should bear in mind the risk of exchange rate fluctuations that may cause a loss on conversion of the Investment Currency back into such other currency. The Customer should note that such potential loss from the product could offset (or even exceed) the potential gain if the Investment Currency depreciates against the currency the Customer converted from (including the Customer's home currency).
- **Liquidity risk** – The SIP is a commitment by the Customer for the tenor as stated under the caption "Tenor" in the SIP Order Form and SIP Confirmation. No early uplift, early withdrawal or early termination by the Customer is permitted. The Customer has to maintain the SIP with the Bank up to the Maturity Date.
- **Credit risk** – The SIP is not secured by any collateral. The customer is taking on the credit risk of the Bank with respect to all payments due under the SIP. In the worst case scenario, where the Bank is insolvent or defaults on its payment obligations under the SIP, the Customer will receive no interest payment and lose his original investment amount.
- **Determination of the Exchange Rate** – The Spot Rate will be determined by the Calculation Agent. Customer must therefore be comfortable with the Bank's role as the Calculation Agent in the determination of the exchange rates. All determinations made by the Calculation Agent in good faith shall be conclusive and binding on the Customer.
- **In respect of a SIP that has CNY(offshore) as the Investment Currency and/or the Settlement Currency and/or a SIP that references CNY(offshore) in the Linked Currency Pair, the following additional risks apply:**

CNY Currency risk – CNY may not be freely convertible through banks in Hong Kong. Due to exchange controls and/or restrictions imposed on the convertibility or utilization of CNY (if any) which in turn is affected by, amongst other things, the People's Republic of China ("PRC") government's control, there is no guarantee that disruption in the transferability, convertibility or liquidity of CNY will not occur. In the case of a SIP that has CNY (offshore) as the Investment Currency or the Settlement Currency, there is thus a likelihood that the Customer may not be able to convert the CNY(offshore) received into other freely convertible currencies.

While this product may offer higher potential return to Customer compared with time deposits, Customer should note that he/she may be exposed to the risk of exchange rate fluctuation such that the potential loss from the product could offset (or even exceed) the potential gain of the SIP if CNY(offshore) depreciates against the investor's home currency. There is no guarantee whether CNY(offshore) will appreciate, remain stable or depreciate. Customer should bear in mind the risk of exchange rate fluctuations, and in the case of a SIP that has CNY(offshore) as the Investment Currency or the Settlement Currency, such exchange rate fluctuations may cause a loss on conversion of CNY(offshore) back into investor's home currency.

The Customer should understand the SIP will be settled in CNY(offshore) deliverable in Hong Kong, which is different from that of CNY deliverable in the PRC (excluding the Hong Kong and the Macau Special Administrative Regions, and Taiwan).

If the Customer does not have a CNY(offshore) account outside the PRC (excluding the Hong Kong and the Macau Special Administrative Regions, and Taiwan), he/she will be required to open such account with the Bank, in order to receive payment in CNY(offshore).

Alternate Currency Event Designation by the Bank / Maximum Potential Loss – Upon Alternate Currency Event Designation by the Bank, the Bank will pay the Mandatory Redemption Amount in an alternate currency selected by the Bank in its sole discretion to the Customer on the Mandatory Redemption Date. The Mandatory Redemption Amount is likely to be substantially less than the Principal Amount and in the worst case scenario, the Mandatory Redemption Amount could be zero.

Upon Alternate Currency Event Designation by the Bank on or prior to the Maturity Date, no Interest Amount shall be payable to the Customer.

The above are the key risk factors associated with the SIP but are not, and are not intended to be, a complete list of all risks and considerations relevant to the SIP or your decision to invest in the SIP. Prospective investors should also see the section

headed “**RISKS ASSOCIATED WITH THE SIP**” in the Term Sheet, together with all other information in the Offering Documents before making any investment decision.

What are the key features?

1. Currency Linked Structured Investment Product

- This SIP is a currency-linked SIP denominated in the Investment Currency.

2. Tenor

- The “Tenor” of the SIP is stated under the caption “Tenor” in the SIP Order Form and the SIP Confirmation.

3. Return

- The return on the SIP is dependent on the performance of the Linked Currency Pair exchange rate during Monitoring Period.
- The Customer will, on the Interest Payment Date, receive an Interest Amount calculated by reference to:
 - the Higher Interest Rate if a Barrier Event has not occurred; or
 - the Lower Interest Rate if a Barrier Event has occurred.
- A Barrier Event shall occur if, at any time during the Monitoring Period, the Spot Rate is:
 - at or above the Upper Barrier Rate; or
 - at or below the Lower Barrier Rate.

4. Principal Amount received upon redemption

- The Customer will receive 100% of the Principal Amount in Investment Currency on the Maturity Date only if the Customer holds the SIP up to the Maturity Date, except that in the case of a SIP with CNY(offshore) as the Investment Currency and/or the Settlement Currency and/or a SIP that references CNY(offshore) in the Linked Currency Pair, such SIP is subject to Alternate Currency Event Designation by the Bank and in the case of that happening, the Customer may receive less than 100% of the Principal Amount.

5. Alternate Currency Event Designation by the Bank

- In the case of a SIP that has CNY(offshore) as the Investment Currency and/or the Settlement Currency and/or a SIP that references CNY(offshore) in the Linked Currency Pair, then such SIP is subject to Alternate Currency Event Designation by the Bank if there is disruption in the transferability, convertibility or liquidity of Chinese Renminbi. Upon Alternate Currency Event Designation by the Bank, the Bank will pay the Mandatory Redemption Amount to the Customer on the Mandatory Redemption Date. The Mandatory Redemption Amount is likely to be substantially less than the Principal Amount and in the worst case scenario, the Mandatory Redemption Amount could be zero. No interest amount shall be payable to the Customer.

PAYOUT ILLUSTRATIONS

All figures below are hypothetical and are for illustration purposes only. The illustrative examples do not reflect a complete analysis of all possible potential return or loss scenarios. They are not indicative of the actual or future performance of any Spot Rate. You should not rely on these illustrative examples when making an investment decision.

Assumptions:

Tenor: 180 days
 Principal Amount and Investment Currency / Settlement Currency: CNY (offshore) 100,000
 Linked Currency Pair: AUD/USD
 Actual number of days in Interest Period: 180

Upper Barrier Rate	Lower Barrier Rate	Higher Interest Rate (p.a)	Lower Interest Rate (p.a)
0.7600	0.6400	5.00%	0.50%

Scenario 1 – Best Case Scenario

The Barrier Event has not occurred – AUD/USD has never been traded at or above the Upper Barrier Rate AND has never been traded at or below the Lower Barrier Rate at any time during the Monitoring Period

Assumptions:

Barrier Event has not occurred;
No Alternate Currency Event Designation by the Bank

Customer receives 100% Principal Amount and Interest Amount with Higher Interest Rate of 5.00% p.a. in CNY(offshore) on the Maturity Date

= CNY(offshore) 100,000 + (CNY(offshore) 100,000 x 5.00% x 180 / 360)

= CNY(offshore) 102,500.00

Scenario 2 – Gain Scenario

The Barrier Event has occurred – AUD/USD has been traded at or above the Upper Barrier Rate OR has been traded at or below the Lower Barrier Rate at any time during the Monitoring Period

Assumptions:

Barrier Event has occurred
No Alternate Currency Event Designation by the Bank

Customer receives 100% Principal Amount and Interest Amount with Lower Interest Rate of 0.50% p.a. in CNY(offshore) on the Maturity Date

= CNY(offshore) 100,000 + (CNY(offshore) 100,000 x 0.50% x 180 / 360)

= CNY(offshore) 100,250.00

Scenario 3 – Worst Case Scenario

Alternate Currency Event Designation by the Bank

Upon Alternate Currency Event Designation by the Bank, the Bank will pay the Mandatory Redemption Amount in an alternate currency to the Customer on the Mandatory Redemption Date. The Mandatory Redemption Amount is likely to be substantially less than the Principal Amount and in the worst case scenario, the Mandatory Redemption Amount is Zero.

Scenario 4 - The Bank becomes insolvent or defaults on its obligations

Assuming that the Bank becomes insolvent during the Tenor of the SIP or defaults on its obligations under the SIP, the Customer can only claim as its unsecured creditor. The Customer may get nothing back and suffer a total loss of his Principal Amount.

How can you buy this product?

- Please contact the Bank to enquire about the SIP. You can visit any of our branches, call our Customer Service Hotline on 2290 8888 (press 3 after language selection) to inquire about the SIP.
- To place an order for the SIP, you must complete the SIP Order Form for the Bank (by submitting a completed SIP Order Form to the Bank or completing the SIP Order Form over the phone with the Bank). The amount you wish to place in the SIP must be deposited with the Bank on or before the submission of the SIP Order Form.

Fees and charges

No subscription fees or other upfront charges - The Bank's fees are shown on the Bank Charges Schedule available at branches of the Bank. Although there are no explicit charges, any fees and charges incurred by the Bank, whether to enter into underlying investments or hedging arrangements or for operational or administrative purposes and profit margins, if any, are already inherently contained in and subsumed into the calculation of the interest rate and other variables under the SIP.

Pre-Investment Cooling-off Period for retail customers

Pre-Investment Cooling-off Period (PICOP) is applicable to each particular dealing of this product if you are one of the following retail customer types:

- 1) An elderly customer aged 65 or above, and you are a first-time buyer of the SIP, AND
 - a) Your asset concentration is 20% or above; or
 - b) your asset concentration is below 20% AND you do not choose to opt out from the PICOP arrangement; or
- 2) A non-elderly customer who is a first-time buyer of the SIP AND your asset concentration is 20% or above.

For the purpose of determining whether PICOP is applicable, asset concentration refers to the percentage of total net worth (excluding real estate properties) to be invested in this product.

Can the Bank adjust the terms or early terminate this product?

Under the Applicable Account Terms and Conditions (as defined below), the Bank may, in certain circumstances, amend, suspend or terminate the SIP. Such circumstances include, without limitation, the occurrence of force majeure events, illegality, the occurrence of an event of default committed by the Customer, or upon any insolvency or bankruptcy proceedings being commenced against the Customer. For details, please refer to the Applicable Account Terms and Conditions.

Offering Documents for this product

The following documents for the SIP ("**Offering Documents**") contain detailed information about the terms of the SIP. You should read and understand all of the Offering Documents before deciding whether to invest in the SIP.

This **Important Facts Statement** which highlights the key features and key risks of the SIP.

The "**Term Sheet**" means the Term Sheet of the SIP setting out the principal terms and conditions of the SIP.

The "**Applicable Account Terms and Conditions**" means the Investment Products Consolidated Terms and Conditions or Terms and Conditions for Accounts under Wealth Management Investment Portfolio (Wealth Management Accounts) (as appropriate, depending on through which account the Customer trades the SIP), a copy of which has been provided to the Customer before or when the Customer opened the SIP account with the Bank

You should note that the SIP will be governed by the SIP Documents. In the event of any inconsistency, the inconsistency will be resolved in favour of the document ranking higher in the following order of priority: (a) the SIP Confirmation, (b) the SIP Order Form, (c) the Term Sheet, (d) the Applicable Account Terms and Conditions and (e) this Important Facts Statement.

Terms used in this Important Facts Statement but not otherwise defined herein shall have the meaning provided to it in the other Offering Documents.
