

THIS DOCUMENT IS IMPORTANT, PLEASE READ

**Enhanced Security for Automatic Teller Machine
("ATM") Transactions**

To comply with the requirements of the Hong Kong Monetary Authority, **from 1 March 2013** (the "Effective Date"), the overseas ATM transaction function of all credit cards will need to be activated before you (no matter a Principal Cardholder or a Supplementary Cardholder) can withdraw cash from ATMs outside Hong Kong*.

To ensure you can continue to use ATMs overseas with credit card on or after the Effective Date, **from 15 January 2013**, you can activate the overseas ATM transaction function, set the activation period and adjust the overseas daily withdrawal limit[^] through any DBS or other JETCO ATMs in Hong Kong[#] which bear this signage  via JETCO's network. You can also download the "Credit Card/Cashline Card ATM Transaction Function Set Up Form" from our website (www.dbs.com/hk), complete Section C of the form and return it to any of our branches to activate the function.

Should you require any clarification, please contact our 24-hour Customer Services Hotline at 2290 8888.

DBS Bank (Hong Kong) Limited

November 2012

Remarks:

* Except withdrawals through JETCO network at JETCO ATMs in Macau and Mainland China

[^] The maximum daily withdrawal limit is HK\$15,000

[#] Include JETCO ATMs bearing the above signage in Macau and Mainland China
