Life Insurance Plan is an insurance product and is neither a bank deposit nor a bank saving plan. The following risk disclosures and important notes are made to you by the Bank:

1. For life insurance plans with a savings element, part of the premium pays for the insurance and related costs. The savings element is reflected in the surrender value of your policy and may not be guaranteed. The product is aimed at customers who can pay the premiums for the whole of the premium payment period. As a result, you are advised to save enough money to cover the premiums in the future. You should be prepared to hold the product for the long term to achieve the savings target. However, under certain circumstances the surrender value could still be less than the total premiums you have paid, even though you hold the policy over a long period.

2. For life insurance plans without a savings element, there is no cash value for the product. The premium pays for the insurance and related costs. The product is aimed at customers who want an insurance product of the nature as described in the product leaflet and can pay the premiums as long as they want the protection. As a result, you are advised to save enough money to cover the premiums in the future.
3. If you are not happy with your policy, you have a right to cancel it within the cooling-off period and get a refund of any premiums and any levy paid. To do this, you must give Manulife, within the cooling-off period, your written notice signed by you at Individual Financial Products, Manulife (International) Limited, 22/F, Tower A, Manulife Financial Centre, 223-231 Wai Yip Street, Kwun Tong, Kowloon, Hong Kong. In other words, your written notice to cancel your policy must reach Manulife directly at the relevant address within a period of 21 calendar days immediately following the day Manulife delivers to you or your nominated representative the policy or a notice telling you about the availability of the policy and the expiry date of the cooling-off period, whichever is the earlier. After the expiration of the cooling-off period, if you cancel the policy before the end of the term, the projected total cash value (only applicable for life insurance plans with cash value) that you will receive may be considerably less than the total premium you have paid.
4. Credit Risk - Any premiums you paid would become part of Manulife's assets and so you will be exposed to Manulife's credit risk. Manulife's financial strength may affect its ability to meet the ongoing obligations under the insurance policy.
5. Risk from cashing in (surrender) early (Only applicable for life insurance plans with cash value) - If you cash in the policy, the amount Manulife will pay is the surrender value worked out at the time you cash in the policy, less any amount you owe Manulife. Depending on when you cash in your policy (whether in full or part), this may be considerably less than the total premiums you have paid. You should refer to the proposal for the illustrations of the surrender value Manulife projects.
6. You are reminded to refer to the product leaflet/product guide for details of product risks.
7. The Bank, being registered with the Insurance Authority as a licensed insurance agency, is appointed as an insurance agency of Manulife for the distribution of life insurance products in the Hong Kong Special Administrative Region.
8. The Bank distributes the product for Manulife and the product is a product of Manulife but not the Bank.
9. In respect of an eligible dispute (as defined in the Terms of Reference for the Financial Dispute Resolution Centre in relation to the Financial Dispute Resolution Scheme) arising between the Bank and the customer out of the selling process or processing of the related transaction, the Bank will enter into a Financial Dispute Resolution Scheme process with the customer.
