If the Bank inadvertently accepts or executes any Instruction without the relevant Securities being available to the Customer, the Bank may at its absolute discretion cancel the Transaction or (at the Customer's cost) obtain the Securities from the market or otherwise for delivery. The Customer shall indemnify the Bank on demand from any loss, liability, claim, damages, costs and expenses that the Bank may suffer or incur as a result of the Customer's short selling Instruction.

The Bank shall recover from the Customer any Losses suffered or incurred by the Bank as a result of any action taken by the Bank pursuant to this clause B13, without prejudice to any other right which the Bank may have against the Customer. Any profit or gain made shall be forfeited to the Bank and the Customer shall have no claim in respect thereof.
- 13.2 With regard to any Transaction affecting monies in the Account, the Bank is authorised to debit the Account with the relevant amount (converted, if necessary, at such exchange rate as shall be determined by the Bank). The Customer shall pay any shortfall immediately on demand, together with all charges and interest.

14. Margin

- 14.1 Before any margin trading facility is made available to the Customer, the Bank shall notify the Customer of the following details: (a) margin requirements; (b) interest charges; and (c) margin calls and the circumstances under which the Customer's positions may be closed without the Customer's consent (to the extent applicable). If the Bank agrees to effect a Transaction on a margin basis, the Customer shall deposit margin in the form of Assets acceptable to the Bank and of sufficient value (duly discounted by the Bank from time to time in accordance with the Bank's prevailing practice) before any Transaction is effected and any time thereafter in order to maintain the open position or contingent liability. The Bank will determine the value of margin to be provided and no previous levels shall bind the Bank in relation thereto.

Such margin will be subject to the rules or regulations of the Relevant Authority and the terms and conditions of the counterparty. Such Relevant Authority or counterparty may be outside Hong Kong and the legal and regulatory regime may be different in the event of their default. The Customer understands and acknowledges that the Relevant Authority or counterparty will, from time to time, call for margin to be deposited to cover the open positions. If the Customer fails to meet the call, the Bank may transfer such Assets and deposit the same with the Relevant Authority or counterparty without further notice or consent from the Customer and/or close-out any open position at such price as the Bank thinks fit and recover any Losses suffered or incurred by the Bank in so doing without prejudice to any other right which the Bank may have against the Customer. If the Customer is asked to put up collateral for an open position, the Bank is authorised to pledge, charge or make other security arrangements over such collateral in favour of the Relevant Authority or counterparty and it is not necessary for the Relevant Authority or counterparty to register the collateral in the Customer's name or in the name of the Bank or Nominee.

4. Trading of ChiNext Shares

- 4.1 Subject to clause E4.2 below, the Bank will not accept any orders to buy or sell ChiNext Shares through the China Connect Service from the Customer.
- 4.2 Where, as a result of any distribution of rights (including the right to subscribe for rights issues or open offers) or entitlements, conversion, takeover, other corporate actions or special circumstances arising from China Connect Securities, the Customer receives any ChiNext Shares and such ChiNext Shares are accepted or designated by the SEHK as China Connect Securities or Special China Connect Securities, the Bank may, at its sole discretion, accept sale orders from the Customer to sell such ChiNext Shares through the China Connect Service.

5. Compliance with China Connect Laws and China Connect Rules

- 5.1 Trading in China Connect Securities will be subject to all China Connect Laws and China Connect Rules.
- 5.2 These China Connect Terms highlight certain key features of China Connect as of the date hereof. The Bank is not liable for any inaccuracies or misstatements in the information set out in these China Connect Terms. These China Connect Terms do not purport to cover all China Connect Laws and China Connect Rules. The Customer understands that the Customer shall be fully responsible for understanding and complying with all China Connect Laws and China Connect Rules and for any consequences of Northbound trading. The Bank does not, and does not intend to, advise the Customer on any China Connect Laws or China Connect Rules.
- 5.3 The Bank shall have the right to apply any procedures or requirements in respect of any trading of China Connect Securities which it determines in its absolute discretion to be necessary or desirable for the purpose of any China Connect Laws, China Connect Rules or market practice. The Bank shall have no liability for any losses or risks which may result directly or indirectly from such procedures or requirements.
- 5.4 The Bank may, in its absolute discretion, refuse to execute any instruction provided by the Customer if such instruction is not or if the Bank reasonably believes may not be compliant with any China Connect Laws or China Connect Rules. The Bank shall have no liability for any losses or risks which may result directly or indirectly from such refusal.
- 5.5 Without limitation to the foregoing, the Bank may, in its absolute discretion, suspend, terminate or limit the Customer's ability to access China Connect through the Bank without advance notice to the Customer, including, but not limited to, where requested or directed by a China Connect Authority.

6. Risk Disclosures and Acknowledgement

- 6.1 By instructing the Bank in respect of any transaction relating to China Connect Securities, the Customer acknowledges:
 - (a) that it:
 - (i) has read and understood the risk disclosures and other information set out in Part B hereof;
 - (ii) understands that there is a risk of prohibition of trading China Connect Securities; and
 - (iii) understands its obligations set out in Part B hereof, including the consequences of a breach of China Connect Laws;
 - (b) that the Bank shall not be liable for any loss, liability or third party claim or demand that it may suffer directly or indirectly as a result of any action or inaction by the Bank in connection with the provision of Services in respect of China Connect Securities to the Customer by the Bank including, without limitation, the materialisation of any of the risks described in Part B hereof;
 - (c) that SEHK has the power not to extend the China Connect Service to the Customer if it is found that the Customer has or may have committed any abnormal trading conduct set out in the SSE Rules and/or the SZSE Rules (as the case may be);
 - (d) that if the SSE Rules and/or the SZSE Rules (as the case may be) are breached, or the disclosure and other obligations referred to in any China Connect Laws or China Connect Rules are breached, the relevant China Connect Market has the power to carry out an investigation, and may, through SEHK (or any other governmental or regulatory body), require the Bank to:
 - (i) provide relevant information and materials relating to it including, without limitation, its identity and trading activity; and
 - (ii) to assist in a China Connect Authority's investigation in relation to it and/or its trading activity;
 - (e) that where a China Connect Authority considers that there is a serious breach of the SSE Rules and/or the SZSE Rules (as the case may be), the Bank may be required by a China Connect Authority to:
 - (i) issue warning statements (verbally or in writing) to it; and
 - (ii) cease providing it with any service relating to trading China Connect Securities through China Connect;
 - (f) and agrees that prior to the Bank informing the Customer that a Northbound buy order made by the Customer has been settled, it shall not make a Northbound sell order in respect of the China Connect Securities which are the subject of such Northbound buy order;
 - (g) and consents to the Bank providing information relating to its profile, the type and value of Northbound buy and sell orders and transactions executed on its behalf to a China Connect Authority at such intervals and in such form as such China Connect Authority may specify from time to time;
 - (h) and accepts responsibility for paying all fees, charges, levies and Taxes and shall comply with any filing or registration obligations as may be required under any China Connect Laws or China Connect Rules relating to any China Connect Securities and any dividends or entitlements in respect of such China Connect Securities;
 - (i) that SEHK may, upon the request of the relevant China Connect Market, require the Bank to reject its order; and
 - (j) that none of the China Connect Authorities or their respective directors, employees or agents shall be responsible or held liable for any loss or damage that it may suffer, whether directly or indirectly in connection with the trading of China Connect Securities or the operation of the CSC in respect of China Connect Securities.

7. Representations and Undertakings

- 7.1 The Customer makes the representations set out in this clause E7.1 to the Bank on a continuing basis (including, without limitation, on the first day that these China Connect Terms are accepted by the Customer and on each date that it places an order or gives an instruction in respect of China Connect Securities) and such representations shall apply to each transaction conducted under the China Connect Terms:
- (a) it is aware of and shall comply with all China Connect Laws and China Connect Rules to which it may be subject;
 - (b) the execution of any instruction it gives to the Bank shall not result in any breach of any China Connect Laws or China Connect Rules;
 - (c) it understands and has assessed the risks relating to China Connect and is willing to undertake such risks;
 - (d) it is not an insider as defined or interpreted under Mainland Chinese laws and it is not in possession of inside information when trading China Connect Securities or procuring others to do so;
 - (e) it does not hold more than 5% of the shares of any Mainland China-incorporated company which is listed and traded on any stock exchange in Mainland China; and
 - (f) in purchasing China Connect Securities, it has no intention to manipulate the market.
- 7.2 The Customer makes the following representations to the Bank on each date it places an order to sell China Connect Securities:
- (a) it does not know of any fact that might impair the validity of such China Connect Securities and it has full authority to receive, deal with and give instructions, authorisations or declarations in respect of the same;
 - (b) there is no adverse claim to such China Connect Securities; and
 - (c) there is no restriction on the transfer of such ChinaConnect Securities other than those expressly provided for under the SEHK China Connect Rules or CCASS China Connect Rules.
- 7.3 The Customer undertakes to the Bank to inform it immediately inwriting (and in any event no later than one Business Day after the relevant event) of anything that may potentially render any of the representations in these ChinaConnect Terms inaccurate or misleading.

8. Compliance with Pre-Trade Checking Requirements

- 8.1 The Customer undertakes to:
- (a) comply with any requirements relating to Pre-Trade Checking mandated by the China Connect Authorities, the China Connect Entities or as notified to the Customer by the Bank; an
 - (b) ensure there are sufficient available China Connect Securities in its account by the applicable cut-off time on the applicable day (as notified to it (orally or through email or other means of communication as agreed between the Bank and the Customer) by the Bank from time to time) to cover any proposed sell order given on that Trading Day.
- 8.2 The Customer understands that if the Bank considers that it does not, for whatever reason, have sufficient available China Connect Securities in its account to settle a sell order by the applicable cut-off time (as notified to the Customer by the Bank from time to time), the Bank may in its absolute discretion:
- (a) reject its sell order; or
 - (b) perform any other act which the Bank considers necessary or desirable to comply with Pre-Trade Checking and/or relevant China Connect Laws or China Connect Rules and to cover the shortfall (including, but not limited to, applying any other China Connect Securities available to the Bank from other sources).
- 8.3 In respect of any instruction to make a Northbound buy order, if the Bank determines, in its absolute discretion, that the Customer does not have sufficient funds to settle the payment obligation in respect of such order on the settlement day, the Bank may, in its absolute discretion, reject the buy order.
- 8.4 Any risk, loss or cost resulting from non-compliance or potential non-compliance with Pre-Trade Checking and/or the relevant China Connect Laws or China Connect Rules shall be borne by the Customer. The Customer shall reimburse the Bank for any costs, losses or expenses which the Bank incurs as a result of its failure to deliver in respect of its sell order on such terms and price (including any associated fees and expenses) and at such time as the Bank shall determine in its absolute discretion.

9. Settlement and Currency Conversion

- 9.1 As all Northbound trading is effected and settled in Renminbi, if the Bank does not receive sufficient Renminbi before settlement of a Northbound buy order to settle such purchase of China Connect Securities, settlement may be delayed and/or fail and the Customer may not acquire title to sell or transfer the relevant China Connect Securities. Where the Bank holds any funds on the Customer's behalf, if there are insufficient Renminbi funds to settle any Northbound buy order or other payment obligation in connection with China Connect, the Customer authorises the Bank to convert any funds in another currency which the Bank holds on its behalf into Renminbi at the prevailing exchange rate of the Bank for the purposes of settlement thereof.
- 9.2 Notwithstanding any other provisions in the Terms, where it is necessary to convert one currency to another pursuant to these China Connect Terms and if the Bank chooses to do so at its absolute discretion, such conversion may be carried out automatically by the Bank in a commercially reasonable manner without prior notice to the Customer. Any risk, loss or cost resulting from any conversion of one currency into another currency pursuant to these ChinaConnect Terms shall be borne by the Customer. For avoidance of doubt, the Customer understands and acknowledges that the Bank does not have any obligation to make any such conversion.
- 9.3 The Customer agrees that if it fails to settle any payment obligation in relation to an instruction to purchase China Connect Securities in a timely manner, the Bank has the right to immediately and without prior notice to the Customer take such action as the Bank considers appropriate to reduce or eliminate any loss or liability that the Bank suffers or may suffer (including but not limited to taking any steps to sell, realize, dispose of or otherwise deal with the relevant China Connect Securities) and the Customer shall indemnify and hold the Bank harmless for any liabilities, expenses or other losses the Bank may incur in exercising the foregoing right. The Customer further agrees that the Bank shall have no liability to it for any loss, diminution in value or other damages whatsoever for any action or inaction of the Bank or its agents pursuant to this clause.
- 9.4 Notwithstanding any other provisions in the Terms, where the Bank determines that there is insufficient liquidity in RMB to settle any buy orders, the Bank may, in its sole and absolute discretion, reject such buy order.

10. Sale, Transfer and Disgorgement

- 10.1 Where, under the terms of the China Connect Rules, the Bank receives notice (a **"Forced-sale Notice"**) from a China Connect Authority requiring the Bank to sell and liquidate a specified number of China Connect Securities, the Bank shall be entitled to issue a corresponding notice (a **"Client Forced-sale Notice"**) to the Customer requesting the Customer to sell and liquidate any number of such China Connect Securities that the Customer holds in its account with the Bank (as determined by the Bank in its sole discretion) within the time period specified by the relevant China Connect Authority, and the Customer undertakes to comply with any such Client Forced-sale Notice.
- 10.2 In relation to any Forced-sale Notice, the Customer authorises the Bank to sell or arrange for the sale of such China Connect Securities on its behalf at such price and on such terms as the Bank may determine, in its absolute discretion, if it fails to comply with a Client Forced-sale Notice in a timely manner, to the extent necessary to comply with all China Connect Laws and China Connect Rules.
- 10.3 Where China Connect Securities owned by the Customer that are the subject of a Client Forced-sale Notice have been transferred from the Clearing Participant that settled the relevant Northbound buy order (the **"Original CP"**) to another Clearing Participant or custodian (the **"Recipient Agent"**), the Customer authorises the Bank to provide instructions to the Recipient Agent on its behalf to return the relevant China Connect Securities to the Original CP for sale and liquidation in accordance with all China Connect Laws and China Connect Rules. The Customer also undertakes to inform the Recipient Agent of such authorisation and, where required, the Customer undertakes to instruct the Recipient Agent to act accordingly.
- 10.4 The Customer authorises the Bank to sell or arrange for the sale of any quantity of China Connect Securities owned by the Customer if the Bank receives notice from any China Connect Authority requiring it to disgorge any profits as a result of the "short swing profit rule", as more fully described under paragraph 21 (Short Swing Profit Rule) of Part B of these China Connect Terms.
- 10.5 In addition to the above, the Customer authorises the Bank to sell, transfer or carry out any other action in relation to China Connect Securities owned by the Customer if the Bank is instructed to do so by any China Connect Authority or if the Bank otherwise determines, in its absolute discretion, that it is necessary or desirable to do so in order to comply with any China Connect Laws or China Connect Rules.
- 10.6 The Bank shall have no liability for any losses or risks which may result to the Customer directly or indirectly from any actions taken by the Bank under this clause.

11. Fees and Taxation

- 11.1 The Bank shall be entitled in its absolute discretion, without further notice or demand, forthwith to satisfy any obligation of the Bank or the Customer to pay or account for any amounts in respect of any Taxes by selling, realising or otherwise dealing with, in such manner as the Bank, in its absolute discretion, may determine, all or part of any of the Customer's property held by the Bank for any purpose in any of its accounts, and to apply the proceeds in reduction of all or part of its liability to any tax authority or the Bank.
- 11.2 The Customer is responsible for paying all fees, charges, levies and Taxes, and the Customer undertakes that it will comply with any filing or registration obligations, in each case as may be required under any China Connect Laws or China Connect Rules relating to any China Connect Securities and any dividends or entitlements in respect of such China Connect Securities.
- 11.3 Notwithstanding any other provision in these China Connect Terms, the Bank shall not be responsible for and shall have no liability to the Customer for any damage, liability or loss (including loss of profit) which may result directly or indirectly from any actions taken by the Bank under this clause unless such damage, liability or loss is a direct result of the Bank's fraud, wilful default or negligence.

12. Indemnity

In addition and without prejudice to any of the Bank's rights under the Terms or under any other provisions of these China Connect Terms, including without limitation clause E9.3 above, the Customer will indemnify the Bank on a full indemnity basis against any claims, demands, actions, proceedings, damages, costs, expenses, losses and all other liabilities whatsoever arising directly or indirectly from the Bank providing any services to the Customer in respect of its trading or investment in China Connect Securities, including, without limitation, to (a) any Taxes resulting from any trading of China Connect Securities pursuant to China Connect; (b) the materialisation of any risk referred to in Part B hereof; (c) any legal costs which the Bank may incur in connection with any instruction given by the Customer; or (d) any costs incurred in connection with clause E10 (Sale, Transfer and Disgorgement) above, in each case, other than those claims, demands, actions, proceedings, damages, costs, expenses, losses and liabilities which are a direct result of the Bank's fraud, wilful default or negligence.

13. Payments in respect of China Connect Securities

- 13.1 All sums payable by the Customer under the Terms shall be paid or accounted for free and clear of any Taxes of any nature now or hereafter imposed, withheld or assessed by any taxing or other authority. If the Customer is required by any Law or Regulation to make any deduction or withholding on account of any Taxes from any such sums payable by it, the Customer shall, together with such sums, immediately pay or account for such additional amount as will ensure that the Bank receives or is credited (free and clear of the Taxes) the full amount which the Bank would have received or been credited if no such deduction or withholding had been required.
- 13.2 Upon the Bank's request, the Customer will promptly forward to the Bank copies of official receipts or other evidence showing that the full amount of any such deduction or withholding has been paid over to the relevant taxing or other authority.

14. Miscellaneous

- 14.1 The Customer will provide to the Bank all information (including translations into Chinese, if required) which the Bank requests if such information is requested by an Exchange, regulatory authority or an organisation (whether within or outside Hong Kong) with which HKEx or SEHK has entered into an information sharing arrangement or agreement. The Customer acknowledges that, the Customer's failure to comply with this provision may, among other things, result in the suspension of China Connect Service to it.

- 14.2 The Customer will execute any further documents and provide any materials and/or information as the Bank may reasonably request to enable the Bank to perform its duties and obligations under these China Connect Terms which may become necessary as and when the China Connect Rules are amended from time to time.
- 14.3 The Bank reserves the right, at its discretion, to review, add to, alter, vary or modify all or any of these China Connect Terms at any time without giving any reason. When any of such changes affect the liabilities and obligations of the Customer, the Bank shall give at least 30 days' notice to the Customer unless such changes are not within the Bank's control. In other cases, reasonable notice shall be given. Such notice may be given by such means as the Bank at its discretion sees fit. Any Customer who does not close the relevant account prior to the effective date of any changes is deemed to have agreed to such changes

15. Governing Law and Jurisdiction

- 15.1 The parties agree that the governing law and jurisdiction clauses in the Terms shall also apply to these China Connect Terms.

Part B: Risk Disclosures and Other Information

This Part B describes some of the key risk factors and other information concerning China Connect. This Part B does not disclose all the risks and other significant aspects of Northbound trading through China Connect. I acknowledge that I understand the nature and risks of China Connect and Northbound trading and I have considered carefully (and consulted my own advisers where necessary) whether trading in China Connect Securities is suitable for me in light of my circumstances.

The decision to trade in China Connect Securities is mine, and I have fully understood and am willing to assume the risks associated with China Connect and am able to comply with all relevant China Connect Laws and China Connect Rules. I acknowledge the risks and agree to the terms set out in these China Connect Terms.

I understand the Bank does not represent that the information set out in this Part B is up to date or comprehensive and does not undertake to update the information set out in this Part B. I am responsible for monitoring changes in the China Connect Laws and China Connect Rules and complying with any new requirements.

"I" or "me" means the Customer including the Customer's Authorised Signatory(ies) and "the Bank" means DBS Bank (Hong Kong) Limited.

THIS IS NOT AN EXHAUSTIVE LIST OF ALL THE RISKS AND OTHER SIGNIFICANT ASPECTS OF ANY TRANSACTION. THE BANK RECOMMENDS ME TO OBTAIN ALL RELATED TERMS AND CONDITIONS AND CAREFULLY STUDY AND EVALUATE THE SAME AND CONSULT MY OWN LEGAL, TAX AND FINANCIAL ADVISORS OR OTHER PROFESSIONAL ADVISORS AS APPROPRIATE.

Home Market Rules

1. Home Market Rules

As Mainland China is the home market of China Connect Securities, the SSE Rules and/or SZSE Rules (as the case may be) and other Mainland China securities laws and regulations shall apply to me. If such rules and regulations are breached, the relevant China Connect Market has the power to carry out an investigation.

Nevertheless, certain Hong Kong legal and regulatory requirements will also continue to apply to Northbound trading.

Trading and Settlement Restrictions

2. Pre-Trade Checking

SEHK is required to check that, in respect of any Northbound sell orders given by an Exchange Participant, the relevant Exchange Participant holds sufficient available China Connect Securities to be able to fill such Northbound sell orders by the commencement of trading on the Trading Day I wish to execute. Otherwise, I may be unable to execute Northbound sell orders due to Pre-Trade Checking related requirements.

I shall bear any risk, loss, cost or expenses resulting from non-compliance or potential non-compliance with Pre-Trade Checking and/or the relevant China Connect Laws or China Connect Rules and/or the above actions taken by the Bank.

3. Settlement

Northbound trades will follow the A Shares settlement cycle. For settlement of China Connect Securities trades, ChinaClear will debit or credit the securities accounts of its participants (including HKSCC as clearing participant) on T day free of payment and settlement of funds relating to such trading will be effected on T+1. Title to China Connect Securities will not be released until the receipt of confirmation of payment. Accordingly, for purposes of contract notes, the settlement date would be T+1 day when both the securities and the cash are settled. I understand that, until the Bank has enhanced its trading system, stock and money settlements of China Connect Securities may only be reflected in my account on T+1 (as opposed to T day for stock and T+1 for money settlements respectively). This system issue, however, will not affect the time at which title to China Connect Securities will be transferred to me on T+1.

4. Quota Restrictions

Purchases of China Connect Securities are subject to daily quota controls. As a result, there is no assurance that a buy order can be successfully placed through China Connect. Any instruction to buy that has been submitted but not yet executed may be restricted or rejected.

SEHK and the relevant China Connect Market may also set pricing and other restrictions on buy orders in order to prevent the artificial use or filling of the applicable quotas

5. Restriction on Day Trading

Day (turnaround) trading is not permitted on the Mainland China A Shares market.

6. No Off-Exchange Trading and Transfers

Unless otherwise provided by the CSRC, I understand that the Bank shall not, with certain limited exceptions, trade or provide services to facilitate trading of any China Connect Securities through any venue other than through the China Connect Market System, and the Bank shall not match, execute or arrange the execution of any sale and purchase instructions or any transfer instructions from me in respect of any China Connect Securities in any manner otherwise than through China Connect in accordance with the China Connect Rules.

7. Placing Orders

Only limit orders with a specified price are allowed pursuant to China Connect Laws and China Connect Rules, where buy orders must not be lower than the current best price and sell orders may be executed at or higher than the specified price. Market orders will not be accepted.

8. China Connect Market Price Limits

China Connect Securities are subject to a general price limit of a range of percentages based on the previous trading day's closing price. The price limit may be changed from time to time. All orders in respect of China Connect Securities must be within the price limit and any orders with a price beyond the price limit will be rejected by the relevant China Connect Market.

9. Restrictions on Selling China Connect Securities

I am prohibited from using China Connect Securities purchased through China Connect to settle any sell orders placed through channels other than China Connect. Accordingly, there may be a limited market and/or lower liquidity for China Connect Securities purchased through China Connect (as compared to the same shares purchased through other channels). In addition, scrip entitlements received by me in respect of China Connect Securities may not be eligible for trading through China Connect. Accordingly, there is a risk of low/no liquidity for such shares received by way of scrip entitlement.

10. Delisting of Companies Listed on a China Connect Market

According to the SSE Listing Rules and the SZSE Listing Rules, if any SSE-listed company or SZSE-listed company (as the case may be) is in the delisting process, or its operation is unstable due to financial or other reasons such that there is a risk of being delisted or exposing my interest to undue damage, the SSE-listed company or SZSE-listed company (as the case may be) will be earmarked and traded on the "risk alert board". Any change to the risk alert board may occur without prior notice. I understand that I will only be allowed to sell such shares and are restricted from further buying.

11. Account Information of Beneficial Owner

I understand that my identity as the beneficial owner of China Connect Securities which are the subject of a sell order may need to be disclosed to HKSCC and/or relevant Mainland China authorities.

12. Scripless Securities

China Connect Securities are traded in scripless form and accordingly, China Connect Securities may not be physically deposited into and/or withdrawn from CCASS.

13. Short Selling

Covered short selling of China Connect Securities may be available provided such covered short selling satisfies the requirements specified by the relevant China Connect Authorities. However naked short selling of China Connect Securities is prohibited. I am fully responsible for understanding and complying with short selling requirements as amended from time to time and for any consequences of non-compliance.

14. Amendment of Orders and Loss of Priority

Consistent with the current practice in Mainland China, if I wish to amend an order, I must first cancel the original order and then input a new one. Accordingly, order priority will be lost and, subject to the daily quota restrictions, the subsequent order may not be filled on the same Trading Day.

15. Warning Statements

I understand that SEHK may require the Bank: (a) to issue warning statements to me; and/or (b) to cease to extend the China Connect Service to me.

16. Special China Connect Securities

I understand that SEHK will accept or designate securities which cease to meet the eligibility criteria for China Connect Securities as Special China Connect Securities (provided that they remain listed on the relevant China Connect Market). In addition, any securities or options (which are not already accepted as China Connect Securities) received by me as a result of any distribution of rights or entitlements, conversion, takeover, other corporate actions or abnormal trading activities will be accepted or designated by SEHK as Special China Connect Securities. I understand that I will only be able to sell, but not buy, any Special China Connect Securities.

17. Margin Trading

Subject to certain conditions prescribed by the China Connect Authorities, I may only conduct margin trading in certain China Connect Securities as determined by the relevant China Connect Authorities to be eligible for margin trading from time to time. A China Connect Market may suspend margin trading activities in any specific China Connect Security where the volume of margin trading activities in such China Connect Security exceeds certain thresholds and may resume margin trading activities when the volume drops below a prescribed threshold. The Bank shall not have any obligation to update me in respect of the list of eligible margin trading securities or any restrictions or suspensions in respect of margin trading from time to time.

18. Rights Issuances

Where I receive as entitlements shares or other types of securities from the issuer of a China Connect Security, whether I can buy and/or sell the entitlement security through China Connect will depend on a number of factors including whether the entitlement security is a China Connect Security, whether or not it is traded in RMB and whether or not HKSCC has put in place arrangements enabling me to do so.

19. Odd Lot Trading

Odd lot trading in China Connect Securities is available only for sell orders and all odd lots must be sold in one single order. A board lot order may be matched with different odd lot sell orders, resulting in odd lot trades. Board lot and odd lot orders are matched on the same platform on China Connect and subject to the same share price. The maximum order size is 1 million shares and the tick size is uniformly set at RMB0.01.

Mainland China and Hong Kong Legal Issues

20. Disclosure of Interests

If I hold or control shares on an aggregate basis in a Mainland China Listco above a certain threshold, I may have to disclose such interest within the period specified by the relevant China Connect Authority, and I must not buy or sell any such shares within a specified period. I may also have to disclose any substantial change in my holdings.

At the same time, I may have to comply with disclosure obligations under Part XV of the SFO.

21. Short Swing Profit Rule

Under Mainland China laws, rules and regulations, the “short swing profit rule” requires me to return any profits made from purchases and sales in respect of China Connect Securities of a Mainland China Listco if: (a) my shareholding in the Mainland China Listco exceeds the threshold prescribed by the relevant China Connect Authority from time to time; and (b) the corresponding sale transaction occurs within the six months after a purchase transaction, or vice versa. I will comply with the “short swing profit rule”.

22. Foreign Ownership Limits

Mainland China foreign ownership limits on the number of shares a foreign investor is permitted to hold in a single Mainland China Listco, and on the maximum combined holdings of all foreign investors in a single Mainland China Listco, may have an adverse effect on the liquidity and performance of an investment in China Connect Securities. As a result, I may suffer losses in China Connect Securities.

I understand that if the Bank becomes aware that I have breached (or reasonably believes that I may breach upon execution of further Northbound buy orders) any foreign ownership limits, or if the Bank is so required by any China Connect Authority, including, without limitation to, any Forced-sale Notice issued by the relevant China Connect Market, the Bank will sell any China Connect Securities pursuant to clause E10 (Sale, Transfer and Disgorgement) in Part A of these China Connect Terms if I fail to comply with the corresponding Client Forced-sale Notice in order to ensure compliance with all China Connect Laws and China Connect Rules. In such case, no China Connect Securities buy orders for the relevant China Connect Securities will be accepted until the relevant China Connect Market informs the corresponding SEHK Subsidiary or SEHK that the aggregate foreign shareholding has fallen below a certain percentage. SEHK may determine in its absolute discretion which Exchange Participants and what quantity of China Connect Securities should be subject to a Forced-sale Notice (this will generally be on a “last-in, first-out” basis), and SEHK’s (or the relevant SEHK Subsidiary’s) own records shall be final and conclusive.

Moreover, under Mainland China laws, where foreign investors hold in aggregate more than a specified percentage of the issued shares of a single Mainland China Listco, upon notification by the relevant China Connect Market to the corresponding SEHK Subsidiary, SEHK and the relevant SEHK Subsidiary are required as soon as practicable thereafter to suspend accepting China Connect Securities buy orders in respect of the relevant China Connect Securities. In such circumstances, the Bank may reject my buy orders until the aggregate shareholding of foreign investors is reduced to below the specified percentage as advised by the relevant China Connect Market.

23. Taxation

I will be fully responsible for any Taxes in respect of China Connect Securities including, without limitation, any other Mainland China Taxes, and will indemnify the Bank from and against all Taxes which the Bank may incur arising in connection with any China Connect Securities which I hold, trade or otherwise deal in.

I understand and agree that the Bank assumes no responsibility for advising on or handling any tax issues, liabilities and/or obligations in connection with China Connect, nor will the Bank provide any service or assistance in this regard. Prior to investing in China Connect Securities, I understand that I should consult my own tax advisers and counsel with respect to the possible tax consequences to me of such investment since such tax consequences may differ in respect of different investors.

24. Insider Dealing, Market Manipulation and Other Market Conduct Rules

Northbound trading through the China Connect will be subject to Mainland China laws and regulations prohibiting activities that constitute market manipulation, insider dealing and related offences. The scope of these restrictions may not be the same as equivalent requirements under Hong Kong laws. In particular, defences applicable under Hong Kong market misconduct rules may not be applicable under Mainland China laws and regulations. I understand that I should seek specialist advice before engaging in trading through China Connect.

25. Client Securities Rules and Client Identity Rules

I understand that as the China Connect Securities traded through China Connect are not listed or traded on SEHK, I will not have protection either under the Client Securities Rules nor under the Client Identity Rules.

26. Investor Compensation Fund

I understand that, in trading China Connect Securities, I will not enjoy the protection afforded by the investor compensation fund established under the SFO.

27. Ownership of China Connect Securities

I acknowledge that: (a) I should conduct my own review of the materials published by HKEx on China Connect in relation to the ownership of China Connect Securities and the applicable China Connect Rules as they may be amended and supplemented from time to time; and (b) I should also consult my own legal advisers to make my own assessment of my rights as a Northbound investor in China Connect Securities.

Under the rules of CCASS, HKSCC is prepared to provide assistance to the beneficial owners of China Connect Securities where necessary. HKEx notes that any beneficial owner who decides to take legal action is responsible for seeking its own independent legal advice to satisfy itself and HKSCC that a cause of action exists and the beneficial owner should be prepared to conduct the action and take up all costs in relation to the action, including providing HKSCC with indemnities and legal representation in proceedings. Further details are set out in the HKEx published materials.

28. Stock Lending and Borrowing

Stock borrowing and lending of China Connect Securities will be permitted only in certain circumstances. Restrictions on the duration of stock loans and record keeping requirements may apply.

Clearinghouse Risk

29. Risk of ChinaClear Default

If ChinaClear defaults, HKSCC may, but has no obligation to, take any legal action or court proceedings to seek recovery of outstanding China Connect Securities and monies from ChinaClear. If it does so, HKSCC will distribute the China Connect Securities and/or monies recovered to clearing participants on a pro-rata basis as prescribed by the relevant China Connect Authorities. The Bank in turn will only be distributing the China Connect Securities and/or monies to the extent recovered directly or indirectly from HKSCC. Although the likelihood of a default by ChinaClear is considered to be remote, I understand that I should be aware of this arrangement and of this potential exposure before engaging in Northbound trading.

30. Risk of HKSCC Default

The Bank's provision of services pursuant to these China Connect Terms also depends upon the performance by HKSCC of its obligations. Any action or inaction of the HKSCC or a failure or delay by the HKSCC in the performance of its obligations may result in a failure of settlement of China Connect Securities and/or monies in connection with it and I may suffer losses as a result. The Bank shall have no responsibility or liability for any such losses.

Other Operational Issues

31. Company Announcements on Corporate Actions

I understand that I should refer to the website of the relevant China Connect Market and the relevant newspapers for the latest listed company announcements or, alternatively, the HKEx website's page entitled "China Stock Markets Web" (or such other replacement or successor page from time to time) for corporate actions in respect of China Connect Securities. I understand that SSE-listed and/or SZSE-listed issuers (as the case may be) publish corporate documents in Chinese only, and English translations will not be available.

In addition, HKSCC will endeavour to collect and distribute cash dividends relating to China Connect Securities to Clearing Participants participating in China Connect in a timely manner.

Unlike the current practice in Hong Kong in respect of SEHK-listed shares, I understand that I may not be able to attend meetings by proxy or in person.

I understand the Bank does not and cannot ensure the accuracy, reliability or timeliness of any company announcements of corporate actions and accepts no liability (whether in tort or contract or otherwise) for any loss or damage arising from any errors, inaccuracies, delays or omissions or any actions taken in reliance thereon. I understand the Bank has expressly disclaimed all warranties, expressed or implied, as to the accuracy of any company announcement or as to the fitness of the information for any purpose.

32. Disclosure of Information and Publication of Trade Information

I understand that SEHK may require the Bank to provide information on my identity, profile, and the type and value of my orders in relation to Northbound trading of China Connect Securities and the trades which the Bank executed for me at such intervals and in such form as SEHK may specify from time to time for purposes of their publication, dissemination or public distribution of aggregated information in respect of China Connect Securities trades under China Connect, trading volumes, investor profiles and other related data. SEHK may forward such information to the relevant China Connect Market for surveillance and investigation purposes.

33. Client Error

I understand that the Bank will not be liable for any loss, damage or expense or consequential loss, damage or expense suffered by me as a result of any trading based on my Instructions. The Bank will not be able to unwind any trade, and I should also take note of the settlement arrangements in respect of China Connect Securities under China Connect, including but not limited to quota restrictions which may affect my ability to mitigate the consequences of any error trades. The Bank shall have no liability for any losses which may result directly or indirectly from such error trades.

The Bank shall have absolute discretion to determine whether to conduct any transfer to rectify any error trade and shall have no obligation to do so. The Bank shall have no liability for any losses which may result directly or indirectly from such error trades or any refusal to conduct a transfer to correct an error trade.

34. Retention of Information

I acknowledge and accept that the Bank will be required under the China Connect Rules to keep records in relation to Northbound trading for a period of not less than 20 years.

35. China Connect Market System

The China Connect Market System is a platform for trading of China Connect Securities under China Connect. The Bank is not responsible for any delay or failure caused by any China Connect Market System and I accept all risks arising from trading China Connect Securities through any China Connect Market System. I understand that the Bank shall not be responsible or held liable for any loss or damage directly or indirectly suffered by me arising from or in connection with the China Connect Service or the CSC through Northbound trading including, without limitation, the following:

- (a) a suspension, restriction or cessation of the China Connect Service or the CSC, or any inability to access or use the CSC or the China Connect Service;
- (b) any special arrangement put in place or any action, step or measure taken or not taken to deal with an emergency, including but not limited to the cancellation of any or all China Connect orders input by Exchange Participants;
- (c) any suspension, delay, interruption or cessation of trading of any China Connect Securities;
- (d) any delay, suspension, interruption of trading or of any order cancellation in respect of China Connect Securities as a result of the hoisting of a Typhoon Signal No. 8 or above or the issuance of the Black Rainstorm Warning in Hong Kong;
- (e) any delay or failure to route any China Connect orders, any delay or failure to send any order cancellation requests or to provide the China Connect Service due to any system, communication or connection failure, power outage, software or hardware malfunction or events beyond the control of the Bank or SEHK;
- (f) in the event that a China Connect order which a China Connect Exchange Participant has requested to be cancelled is not cancelled for any reason whatsoever;

- (g) in the event that SEHK or the relevant China Connect Market requires that the Bank reject any order for China Connect Services;
- (h) any delay, failure or error of any China Connect Market System or any system upon which the relevant SEHK Subsidiary is reliant in providing the China Connect Service; and
- (i) any delay or failure to execute, or any error in matching or executing any, China Connect order due to reasons beyond the control of the Bank, SEHK, HKEx or the relevant SEHK Subsidiary including, but not limited to, any action or decision taken or made, or not taken or made, by a China Connect Market, any China Connect Authority or a relevant governmental or regulatory body.

If there is any delay or failure to send any order cancellation requests in the circumstances described in paragraph (e) above, I shall, in the event that the order is matched and executed, remain responsible to the Bank for any settlement obligations in respect of such order.

36. Operational Hours

SEHK has absolute discretion to determine from time to time the operational hours of the China Connect Service, and will have absolute discretion to change the operational hours and arrangements of the China Connect Service, whether on a temporary basis or otherwise, at any time and without advance notice.

37. RMB Conversion and RMB Risks

If I belong to certain counterparty types (such as an individual) in certain jurisdictions that are subject to currency conversion restrictions, (as required by the Relevant Authority from time to time) any conversion of any currency into RMB pursuant to clause E9 is subject to any applicable daily maximum conversion limit. Settlement of a Northbound buy order may be delayed and/or fail if there is a delay in converting the relevant currency into RMB. Any risk, loss or cost resulting from any such delay or failure of settlement shall be borne by me.

There are also significant restrictions on the remittance of RMB into and out of Mainland China. If the issuer of the RMB securities is not able to remit RMB to Hong Kong or make distributions in RMB due to exchange controls or other restrictions, the issuer may make distributions (including dividends and other payments) in other currencies. I may therefore be exposed to additional foreign exchange risk and liquidity exposures.

The liquidity and trading price of China Connect Securities may be adversely affected by the limited availability of RMB outside Mainland China and the restrictions on the conversion of RMB. These factors may affect the amount of liquidity in RMB and accordingly adversely affect the market demand for China Connect Securities.

38. Other Risks Associated with Investing in China Connect Securities

ChiNext Shares

ChiNext Shares involve a high investment risk. In particular, profitability and other financial requirements for listing on the ChiNext Board are less stringent than the Main Board and the SME Board of the SZSE.

Companies listed on the ChiNext Board may include enterprises in the innovation and technology sector, as well as other start-up and/or growth enterprises with smaller operating scale and share capital. Stock prices may also be more susceptible to manipulation due to fewer circulating shares. Accordingly, the ChiNext Shares may be very volatile and illiquid. In addition, current information on such companies may be limited and may not be widely available.

It may be more common and easier for companies listed on the ChiNext Board to be delisted. The ChiNext Shares may become very illiquid after delisting. I acknowledge that I may suffer a total loss of my investment in the event of a delisting.

I acknowledge that I should seek independent professional advice if I am uncertain of or have not understood any aspect of this Part B or the nature and risks involved in holding or disposal of ChiNext Shares.

General Mainland China Related Risk

Mainland China is an emerging market that possesses one or more of the following characteristics: a certain degree of political instability, relatively unpredictable financial markets and economic growth patterns, a financial market that is still at the development stage or a weak economy. Emerging markets investments usually result in higher risks such as event risk, political risk, economic risk, credit risk, currency rate risk, market risk, liquidity/gapping risk, regulatory/legal risk, trade settlement, processing and clearing risks and bondholder/shareholder risk.

Equity Risk

Investing in China Connect Securities may offer a higher rate of return than investing in short term and longer term debt securities. However, I understand that the risks associated with investments in China Connect Securities may also be higher, because the investment performance of China Connect Securities depends upon factors which are difficult to predict. Such factors include the possibility of sudden or prolonged market declines and risks associated with individual companies. The fundamental risk associated with any equity portfolio is the risk that the value of the investments it holds might suddenly and substantially decrease.

General Legal and Regulatory risk

I will comply with all China Connect Laws and China Connect Rules. Furthermore, I understand that any change in any China Connect Laws or China Connect Rules may have an impact on the market sentiment which may in turn affect the performance of China Connect Securities. I understand that it is impossible to predict whether such an impact caused by any such change will be positive or negative for China Connect Securities. I understand that, in the worst case scenario, I may lose a material part of my investments in China Connect Securities.

F. RISK DISCLOSURE STATEMENT

In this Risk Disclosure Statement, “**you**” means the person(s) who open(s) an account or establish(es) a relationship with the Bank, including any Authorised Signatory(ies), “**we**” or “**the bank**” means DBS Bank (Hong Kong) Limited and “**your**”, “**our**” and “**us**” shall be construed accordingly.

The intention of this Risk Disclosure Statement is to inform you of the risks that may arise as a result of trading securities and other investments. Before considering any transaction involving financial products and services, you must carefully consider whether the transaction is appropriate in the light of your experience, objectives for engaging in the transaction, financial condition and other relevant circumstances. You should not deal in or utilise such products and services unless you have satisfied yourself of the foregoing.

THIS RISK DISCLOSURE STATEMENT IS NOT AN EXHAUSTIVE LIST OF ALL THE RISKS AND OTHER SIGNIFICANT ASPECTS OF ANY TRANSACTION OR USE OF ANY LEVERAGE. WE RECOMMEND THAT YOU OBTAIN ALL RELATED TERMS AND CONDITIONS AND PRODUCT SPECIFIC DOCUMENTATION AND CAREFULLY STUDY AND EVALUATE THE SAME AND CONSULT YOUR OWN LEGAL, TAX AND FINANCIAL ADVISORS OR OTHER PROFESSIONAL ADVISORS AS APPROPRIATE.

This Risk Disclosure Statement comprises seven parts:

Part 1: Relates to Most Transactions Generally

Part 2: Derivatives

Part 3: Structured Products

Part 4: Non-Traditional Funds and Private Equities

Part 5: Exchange Traded Funds

Part 6: Renminbi Products

Part 7: Fixed Income Investments

Part 1 – Relates to Most Transactions Generally

1. Investment Risks

Any investment is subject to price fluctuations which provide both opportunities and risks. You may sustain substantial losses if market conditions move against your position. You may find it difficult or impossible to close-out or liquidate your investment. Your position may be closed-out or liquidated at a loss and you will be liable for any resulting deficit. There may be adjustments to your investments due to events such as market disruption, insolvency and changes in any applicable laws, such adjustments may result in a total loss of, or reduce, any amount receivable by you.

The performance of any investment, particularly off-exchange may be influenced by complex and interrelated political, economic, financial and other factors. Further, past performance is not indicative of future results

You will be exposed to many different risks, including, without limitation, credit and insolvency risks of the issuer, interest rate, market or foreign exchange risk.

Some investments, in particular structured products and non-traditional funds and private equities, have long maturity periods or lock up periods. Heavy penalties or charges may be payable for the early termination or surrender and you may incur significant loss of your principal or the proceeds that you may receive may be substantially lower than your invested amount should you redeem before maturity date or during the lock-up period.

2. Risk of Securities Trading

The prices of securities fluctuate, sometimes dramatically. The price of a security may move up or down, and may become valueless. It is as likely that losses will be incurred rather than profits made as a result of buying and selling securities. Under certain market conditions, you may find it difficult to liquidate a position. Placing buy or sell orders will not necessarily limit your losses to the intended amounts, since market conditions may make it impossible to execute such orders at the designated price.

In respect of listed securities, investor protection and securities regulations vary with different exchanges. Some may expose you to high investment risk. For example, certain exchanges allow companies to list with neither a track record of profitability nor any obligation to forecast future profitability. Such listed securities may be volatile and illiquid and suitable for trading by professional and sophisticated investors only.

In respect of “penny shares” or shares you buy in smaller companies, there may be a bigger risk of losses and they are only suitable for investors with high risk tolerance. There is often a large difference between the buying and selling price

3. Risk of Trading Alternative Stock Market Stocks

Alternative stock markets (such as the Growth Enterprise Market (“**GEM**”) in Hong Kong) stocks involve a high investment risk. In particular, companies may list on such stock markets with neither a track record of profitability nor any obligation to forecast future profitability. Such stocks may be very volatile and illiquid

You should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of such stock markets mean that it is a market more suited to professional and other sophisticated investors.

Current information on such stocks may only be found on the internet website such as that operated by The Stock Exchange of Hong Kong Limited in the case of GEM stocks. The companies are usually not required to issue paid announcements in gazetted newspapers.

You should seek independent professional advice if you are uncertain of or have not understood any aspect of this Risk Disclosure Statement or the nature and risks involved in trading of such stocks.

4. Risk of Trading NASDAQ-AMEX Securities at The Stock Exchange of Hong Kong Limited

The securities under the NASDAQ-AMEX Pilot Program (“**PP**”) are aimed at sophisticated investors. You should consult us and become familiarised with the PP before trading in the PP securities. You should be aware that the PP securities are not regulated as a primary or secondary listing on the Main Board or the GEM of the Stock Exchange of Hong Kong Limited.

5. Currency Risk

Changes in exchange rates may be unpredictable, sudden and large, and may have an unfavourable, as well as a favourable effect. The profit or loss on transactions in foreign currency denominated contracts (whether they are traded in your own or another jurisdiction) will be affected by fluctuations in currency rates where there is a need to convert from the currency denomination of the contract to another currency. Similarly, where liabilities in one currency are matched by an asset in a different currency or where assets are denominated in a currency other than your reference currency.

6. Risk of Providing an Authority to Repledge your Securities Collateral etc.

There is risk if you provide us with an authority that allows us to apply your securities or securities collateral pursuant to a securities borrowing and lending agreement, repledge your securities collateral for financial accommodation or deposit your securities collateral as collateral for the discharge and satisfaction of our settlement obligations and liabilities.

If your securities or securities collateral are received or held by us in Hong Kong, the above arrangement is allowed only if you consent in writing. Moreover, unless you are a professional investor, your authority must specify the period for which it is current and be limited to not more than 12 months. If you are a professional investor, these restrictions do not apply.

Additionally, your authority may be deemed to be renewed (i.e. without your written consent) if we issue you a reminder at least 14 days prior to the expiry of the authority, and you do not object to such deemed renewal before the expiry date of your then existing authority.

You are not required by any Law to sign these authorities. But an authority may be required by us, for example, to facilitate margin lending to you or to allow your securities or securities collateral to be lent to or deposited as collateral with third parties. We will explain to you the purposes for which one of these authorities is to be used.

If you sign one of these authorities and your securities or securities collateral are lent to or deposited with third parties, those third parties will have a lien or charge on your securities or securities collateral. Although we are responsible to you for securities or securities collateral lent or deposited under your authority, a default by it could result in the loss of your securities or securities collateral.

If you do not require margin facilities or do not wish your securities or securities collateral to be lent or pledged, do not sign the above authorities and ask to open this type of cash account.

7. Risk of Margin Trading/Leveraged Transactions

The risk of loss in financing a transaction without full payment can be substantial. You may sustain losses in excess of your cash and any other assets deposited as collateral with us.

The amount of initial margin is small relative to the value of the transaction so that the transaction is highly “leveraged” or “geared”. A relatively small market movement may have a disproportionately larger impact on the margin deposited or will have to deposit. The margin cover may fall below the amount required from time to time due to various reasons such as book losses arising from mark-to-market valuation or losses arising from closed-out contracts or fall in value of the assets deposited as margin.

Market conditions may make it impossible to execute contingent orders, such as “stop-loss” or “stop-limit” orders. You may be called upon at short notice to make additional margin deposits or interest payments. If the required margin deposits or interest payments are not made within the prescribed time, your collateral may be liquidated without your consent. Moreover, you will remain liable for any resulting deficit in your account and interest charged on your account.

You should also see “Risk-Reducing Orders or Strategies”.

You should therefore carefully consider whether such trading is suitable in light of your own financial position and investment objectives.

8. Risk of Trading in Leveraged Foreign Exchange Contracts, Futures and Options

The risk of loss in leveraged foreign exchange trading, futures or options can be substantial. You may sustain losses in excess of your initial margin funds. You may be called upon at short notice to deposit additional margin funds. If the required funds are not provided within the prescribed time, your position may be liquidated. You will remain liable for any resulting deficit in your account. You should therefore carefully consider whether such trading is suitable in light of your own financial position and investment objectives.

You should also see “Risk-Reducing Orders or Strategies”.

9. Risk-Reducing Orders or Strategies

Placing contingent orders, such as “stop-loss” or “stop-limit” orders, which are intended to limit losses to certain amounts may not be effective. Market conditions may make it difficult or impossible to execute such orders. Strategies using combinations of positions, such as “spread” or “straddle” positions may be as risky as taking simple “long” or “short” positions.

The Bank does not accept liability for the non-execution of a “stop-loss” or “stop-limit” order and execution of such orders are strictly on the basis that you release us from any liabilities and authorise us, in such circumstances, to execute such order at such rate and in such manner as we may deem appropriate.

10. Liquidity Risks

Certain instruments, in particular structured notes or bonds, may not be readily realisable or marketable. There may be no or a limited secondary market and there is no certainty that market traders will be prepared to deal with such instruments. Even when a market exists, there may be a substantial difference between the prevailing price of the secondary market and the purchase price paid by the investors. You may need to hold such instruments for an indefinite period.

Liquidity risks decrease for near term investments and increase for investments with longer maturity periods or investments that are linked to emerging markets or with lower credit ratings. Unexpected and sudden erosion of liquidity can also arise from sharp price movements and volatile market conditions. At certain times or under certain market conditions, it may be difficult or impossible to liquidate a position, to assess value or to determine a fair price.

11. Risks of Trading Facilities and Electronic Trading

Most open-outcry and electronic trading facilities are supported by computer-based component systems for the order-routing, execution, matching, registration or clearing of trades. As with all facilities and systems, they are vulnerable to temporary disruption or failure. Your ability to recover certain losses may be subject to limits on liability imposed by the system provider, the market, the Clearing House and/or participant firms and such limits on liability may vary or there may be no recovery at all.

Trading on an electronic trading system may differ from trading on other electronic trading systems. If you undertake transactions on an electronic trading system, you will be exposed to risks associated with the system, including the failure of hardware and software. The result of any system failure may be that your order is either not executed according to your instructions or is not executed at all.

12. Counterparty and Issuer Risk

Settlement of transactions that we enter into for you will depend on the relevant counterparty and broker performing their obligations. The insolvency or default of such counterparty or broker may lead to your position being liquidated or closed-out without your consent.

If you purchase a debt instrument, such as a note or bond, you will be exposed to the credit risk of the issuer of the debt instrument, as well as the issuer of the underlying that the debt instruments invest in and of the derivative instruments that the debt instruments are exposed to. Any ability to repay may be subject to any intervening circumstances such as government action or legal inhibitions placed on the issuer or currency in which the instrument is denominated. Credit ratings assigned by credit rating agencies do not guarantee the creditworthiness of the issuer.

13. Suspension or Restriction of Trading

Market conditions (e.g. illiquidity) and/or the operation of the rules of certain markets (e.g. the suspension of trading because of price limits or "circuit breakers") may increase the risk of loss by making it difficult or impossible to effect transactions or liquidate/offset positions. If you have sold options, this may increase the risk of loss.

14. Risks of Client Assets Received or Held Outside Hong Kong

Your assets received or held outside Hong Kong are subject to the applicable laws and regulations of the relevant overseas jurisdiction which may be different from the Securities and Futures Ordinance (Cap. 571 of the Laws of Hong Kong) and the rules made thereunder. Consequently, such assets may not enjoy the same protection as that conferred on assets received or held in Hong Kong.

15. Commission and Other Charges

Before entering into any transaction, you should obtain details of all commissions and other charges for which you will be liable. If any charges are not expressed in money terms (but, for example, as a percentage of contract value), you should obtain a clear written explanation, including appropriate examples, to establish what such charges are likely to mean in specific money terms. You should familiarise yourself with all relevant commissions, fees and other charges and tax implications for which you will be liable as it will affect your net profit (if any) or increase your loss.

16. Transactions in Other Jurisdictions

Transactions on markets in other jurisdictions outside Hong Kong, including markets formally linked to a domestic market, may expose you to additional risk. Such markets may be subject to laws and regulations which may offer different or diminished investor protection as that conferred in Hong Kong. Before you trade, you should enquire about any rules relevant to your particular transactions. The regulatory authority in Hong Kong will be unable to compel the enforcement of the rules of regulatory authorities or markets in other jurisdictions where your transactions have been effected. You should understand the types of redress available before you start to trade. You should take into account the applicable tax and exchange controls, including repatriation of funds. There may be restrictions on foreigners entering into transactions, repatriation of capital investments and profits and there may be withholding or additional forms of Taxes.

17. Deposited Cash and Property

You should familiarise yourself with the protections given to money or other property you deposit for domestic and foreign transactions, particularly in the event of a firm insolvency or bankruptcy. The extent to which you may recover your money or property may be governed by specific legislation or local rules. In some jurisdictions, property which had been specifically identifiable as your own may be distributed among other creditors on a pro-rata basis in the event of a shortfall.

18. Off-Exchange Transactions

It may not always be apparent whether or not a particular transaction is on or off-exchange.

In some jurisdictions, and only then in restricted circumstances, firms are permitted to effect off-exchange transactions. The firm with which you deal may be acting as your counterparty to the transaction. It may be difficult or impossible to close-out or liquidate an existing position, to assess the value, to determine a fair price or to assess the exposure to risk. For these reasons, these transactions may involve increased risks. Off-exchange transactions may be less regulated or subject to a separate regulatory regime and, as such, the risks are correspondingly greater. Before you undertake such transactions, you should familiarise yourself with applicable rules and attendant risks.

19. Risk of Providing an Authority to Hold Mail or to Direct Mail to Third Parties

If you provide us with an authority to hold mail or to direct mail to third parties, it is important for you to promptly collect in person all contract notes and statements of account and review them in detail to ensure that any anomalies or mistakes can be detected in a timely fashion.

If you are a hold mail client, you have authorised us to hold mail in our custody for collection by you and as a result you will not be receiving mail regularly. Consequently, it is more likely that you will not be fully aware of all your positions and will not be able to react as quickly in dealing with changes in market conditions. In this respect, there is an increased risk of losses occurring.

20. Emerging Markets

Investments in emerging market instruments may yield large gains but can also be highly risky as the markets are unpredictable and may have inadequate regulations and safeguards available to investors. Government intervention, perhaps in the form of exchange control laws or restrictions on the repatriation of profits, which have a minor or limited effect in more mature markets, could affect emerging markets profoundly

21. Interest Rate Risks

Interest rate fluctuations may have an adverse impact on the value of investments, in particular, debt instruments such as bonds or money market instruments. The degree of interest rate sensitivity depends on the maturity, coupon and call provisions.

Part 2 – Derivatives

1. Pricing Relationships

The normal pricing relationships between a derivative and its underlying interest may not exist in certain circumstances. The absence of an underlying reference price may make it difficult to assess the “fair value” of a derivative position. Consequently, price indications may not reflect the actual price at which the position may be terminated or unwound

2. Terms and Conditions

You should familiarise yourself with the terms and conditions of the specific derivative contracts and associated obligations (e.g. the circumstances under which you may become obliged to make or take delivery of the underlying interest, expiration dates and restrictions on the time of exercise). Under certain circumstances, the specifications of outstanding contracts (including the exercise price of an option) may be modified by the counterparty due to changes effected by the Exchange or Clearing House on the underlying.

3. Futures and Options

Transactions in futures and options carry a high degree of risk. You should familiarise yourself with the type of futures and options (i.e. put or call) which you contemplate trading and the associated risks. You should calculate the extent to which the value of futures and the options must increase for your position to become profitable, taking into account the premium and all transaction costs. Some futures and option contracts may provide only a limited period of time for the exercise of the futures contract and the option, or that the futures contract and option can only be exercised on a specified date. You should ensure that you are aware of the procedures and your rights and obligations upon exercise or expiry.

Transactions in futures carry a high degree of risk. The amount of initial margin is small relative to the value of the futures contract so that transactions are “leveraged” or “geared”. A relatively small market movement will have a proportionately larger impact on the funds you have deposited or will have to deposit: this may work against you, as well as for you.

The purchaser of options may offset or exercise the options or allow the options to expire. The exercise of an option results either in a cash settlement or in the purchaser acquiring or delivering the underlying interest. If the purchased options expire worthless, you will suffer a total loss of your investment which will consist of the option premium plus transaction costs. If you are contemplating purchasing deep-out-of-the-money options, you should be aware that the chance of such options becoming profitable ordinarily is remote

Certain exchanges in some jurisdictions permit deferred payment of the option premium, exposing the purchaser to liability for margin payments not exceeding the amount of the premium. The purchaser is still subject to the risk of losing the premium and transaction costs. When the option is exercised or expires, the purchaser is responsible for any unpaid premium outstanding at that time.

Selling (“writing” or “granting”) an option generally entails considerably greater risk than purchasing options. Although the premium received by the seller is fixed, the seller may sustain a loss well in excess of that amount. The seller will be liable for additional margin to maintain the position if the market moves unfavourably. The seller will also be exposed to the risk of the purchaser exercising the option and the seller will be obliged to either settle the option in cash or to acquire or deliver the underlying interest. If the option is “covered” by the seller holding a corresponding position in the underlying interest or another option, the risk may be reduced. If the option is not covered, the risk of loss can be unlimited.

The seller of a covered call option sells the call option for an underlying which he/she already owns. If the option is exercised by the purchaser, the seller will only receive the premium paid by the purchaser and not profit from the price growth of the underlying in excess of the exercise price. If the option is not exercised by the purchaser, the seller bears the full risk of the underlying.

The seller of an uncovered call option sells the call option without owning the underlying. If the option is exercised by the purchaser, the seller will have to deliver the underlying. The seller of an uncovered call option is required to deposit a margin. If the price of the underlying rises, the margin to be provided increases. Where the required margin is not paid, the position may be closed-out or liquidated without notice to you.

ONLY EXPERIENCED PERSONS SHOULD CONTEMPLATE WRITING UNCOVERED OPTIONS AND THEN ONLY AFTER SECURING FULL DETAILS OF THE APPLICABLE CONDITION AND RISK EXPOSURE.

The seller of a put option is required to deposit a margin. If the price of the underlying falls, the margin to be provided increases. Where the required margin is not paid the position may be closed-out or liquidated without notice to you.

Listed options may not be exercised automatically on expiry. In order to realise any profits from a long option position, it is necessary that you exercise or close-out the option before it expires failing which you may forgo all the profit that would otherwise have realised. The availability of automatic close-out and the way it works may vary from jurisdiction to jurisdiction. The value of listed options could be affected if trading is halted in either the listed options or the underlying

4. Swap Transactions

Swap transactions involve an exchange of future payment streams, and occasionally, the exchange of principal on commencement and/or maturity. The risk that one of the parties to the swap will default or otherwise fail to perform its obligations is typically greater in swaps where both principal and income streams are exchanged. For uncovered contracts, there is risk which is directly related to the risks of the different instruments swapped. It is important to note that these risks may not be off-setting in effect and should be viewed instead in aggregate.

An interest rate swap is an agreement between two parties to make reciprocal payments over a specific period of time. The payments are determined by reference to a notional principal amount and fixed or floating rates of interest. Floating rates are typically based on some published index of market rates. You may be a receiver of fixed rate and payer of floating rate, or vice versa. In either case, movements in the referenced rates could have a significant impact on your cash flow, as well as the cost of unwinding the swap position. For uncovered contracts, there is an unlimited interest rate risk, computed on the full amount(s) contracted.

5. Forwards/Non-Deliverable Forward Transactions

Forwards create an obligation to deliver or take delivery on a specified date of a defined quantity of an underlying at an agreed price. Your potential profit or loss corresponds to the difference between the market value and the agreed price on the specific date.

For forward sales, the underlying must be delivered at the price originally agreed even if its market value has since risen above the agreed price. In such a case, you risk losing the difference between these two amounts and, theoretically, there is no limit to how far the market value of the underlying can rise. As such, potential losses may be unlimited and can substantially exceed the margin requirements.

For forward purchases, you must take delivery of the underlying at the price originally agreed even if its market value has since fallen below the agreed price. Your potential loss corresponds to the difference between these two values. Your maximum loss corresponds to the originally agreed price. Potential losses can substantially exceed the margin requirements. In order to limit price fluctuations, an Exchange may set price limits for certain contracts. If you sell forward an underlying which you do not hold at the outset of the contract, you risk having to acquire the underlying at an unfavourable market price in order to fulfil your obligation to effect delivery on the contract's expiration date.

Forwards can involve special risks and are only suitable for investors who are familiar with this type of instrument, have sufficient liquid assets and are able to absorb any losses that may arise.

You should note that these are illiquid instruments which are not transferable. Unwinding a contract (if allowed) under adverse market condition could incur significant losses of principal where the proceeds may be substantially lower than the original invested amount.

You shall assume the credit risk of the bank.

You acknowledge that the bank or an affiliate may be requested to provide a quotation or quotations from time to time for the purpose of determining the settlement rate used for the purposes of a transaction and such quotation(s) may affect, materially or otherwise, the settlement of that transaction.

For non-deliverable forward transactions, there is no delivery of the underlying currency pair at maturity. Instead, a net cash settlement will be made based on the final fixing of the underlying currency pair.

6. Risk of Warrants

A warrant is a right to subscribe for shares, debentures, loan stock or government securities, and is exercisable against the original issuer of the securities. Warrants often involve a high degree of gearing, so that a relatively small movement in the price of the underlying results in a disproportionately large movement in the price of the warrant. Warrants have a limited life, as denoted by the expiry date. After this date, warrants can no longer be traded or exercised. The price of warrants can be volatile and the value is likely to decrease over time. In the worst case, warrants may expire worthless and you will suffer a total loss of investment. Some warrants provide only a limited period of time for exercise and some may provide for the exercise on a specified date. You should familiarise yourself with the terms of the warrant. Ordinarily, the chance of deep-out-of-the-money warrants becoming profitable is remote.

7. Derivative warrants and callable bull/bear contracts

Derivative warrants ("DWs") are derivative instruments which give the holders the right to buy or sell the underlying at a pre-set price within a prescribed time period. There are call and put DWs. Call DW investors have the right (but not the obligation) to buy from the issuer, and put DW investors have the right (but not the obligation) to sell to the issuer, a specified amount of underlying at a pre-set price on or before a specified date. DW investors may sell before the expiry date. DWs are usually cash-settled at expiry. DWs have no value on expiry if the price of the underlying is greater (for put warrants) or less (for call warrants) than the exercise price.

Callable bull/bear contracts ("CBBCs") are derivatives that track the performance of an underlying such as a share, index, commodity or currency. CBBCs take the form of a bull contract (where the investor intends to capture potential price appreciation in the underlying) or a bear contract (where the investor is seeking to make a profit from a fall in the value of the underlying). The price movement of a CBBC reflects the price movement of the underlying.

CBBCs will expire at a predefined date or when the mandatory call mechanism becomes effective. Mandatory calls take place where the price of the underlying: (a) touches or is below the call price of a bull contract; or (b) touches or is above the call price of a bear contract. Trading is terminated immediately when a mandatory call becomes effective. Once a CBBC is called, the contract cannot be revived and you will not benefit even if the price of the underlying bounces back favourably. You should exercise special caution when a CBBC is trading close to its call price.

If a mandatory call does not occur and you hold the CBBC until expiry, a cash settlement amount is payable. The amount will depend on how much the closing price of the underlying is above (in case of a bull CBBC) or below (in the case of bear CBBCs) the strike price. The cash settlement amount may be substantially less than your initial investment and may even be zero.

Investing in DWs and CBBCs involve a high degree of risk. DWs and CBBCs place unsecured contractual obligations on the issuer and, if applicable, the guarantor. If the issuer or, if applicable, the guarantor defaults, you may lose your entire investment. DWs and CBBCs do not constitute a direct investment in the underlying. You have no right against any party that issues or holds (or if the underlying is an index, sponsor) the underlying and any decision on corporate actions by them may have an adverse impact on the value and market price of DWs and CBBCs. You will not be entitled to voting rights, dividends or any other rights in the underlying. DWs and CBBCs may be illiquid. You may not be able to obtain a quote or to liquidate your position when you wish.

Exchange rates may affect DWs and CBBCs. Changes in exchange rates between the currency of the underlying, the currency in which DWs or CBBCs settle and/or the currency of your home currency may adversely affect the return (if any) of your investment.

CBBCs and DWs are leveraged products. The value of CBBCs and DWs may rapidly fluctuate due to changes in one or more factors and the change in value may be much greater than the price of the underlying. Assuming all other factors remain unchanged, the value of CBBCs and DWs will decrease over time as they approach their expiry dates and they should not be held as long-term investments. CBBCs and DWs have expiry dates and can become valueless after their expiry.

Part 3 – Structured Products

Structured products are not conventional financial products and are formed by combining two or more financial instruments including one or more derivatives. Structured products may be traded either over-the-counter or on-exchange. Every structured product has its own risk profile and may carry a high degree of risk and may not be suitable for all investors as the risk associated with the financial instruments may be interconnected.

As most structured products are complex, you should understand the product terms and conditions, including the calculation of returns and redemption amounts, restrictions and the nature and economic risks of the underlying. The secondary market for structured products may be illiquid and you may not be able to sell your holdings when you wish. Further, the value of a structured product may be linked to the value of its embedded derivative component(s), which may be subject to considerable fluctuation in market forces.

Buyers of structured products can only assert their rights against the issuer. In addition to potential loss you may incur due to a fall in the market value of the underlying, a total loss of your investment is possible if the issuer defaults.

Structured products may not be capital guaranteed and you may sustain a total or partial loss of your investment. Where the capital is guaranteed, you will be exposed to the credit risk of the issuer or guarantor. The guarantee does not give any assurances as to the future solvency of the guarantor and the guarantee may be terminated prior to maturity upon the occurrence of certain events as stated in the relevant product documents. Where the structured product is capital protected, this is not the same as capital guarantee. Capital protection could be less than 100% of the capital invested, depending on the product and is subject to issuer risk. Capital guarantee or protection is only available if you hold till maturity.

Structured products may provide that the issuer may discharge its obligations by delivery of the underlying to you on maturity. You should be aware of the implications of this method of settlement (e.g. you may have to pay related costs and expenses to receive delivery) and there may be particular risks and restrictions relating to trading and holding such underlying. If the underlying is denominated in a different currency to that of the structured product, you may be affected by fluctuations in exchange rate.

For structured products for which whole or partial withdrawal prior to the maturity date is permitted, the amount received by you at early withdrawal may be significantly less than the original amount invested and even equal to zero.

In addition, the recovery and resolution regimes in certain markets may empower resolution authorities to intervene if a financial institution or its parent company becomes non-viable. Such intervention may take the form of a bail-in, through the writing down of certain claims of unsecured creditors of the failing institution and/or conversion of unsecured debt claims to equity. Should the issuer and the guarantor (as applicable) and/or any of their affiliate become subject to such bail-in or resolution powers, this could have an adverse impact on the payments under and returns on the structured notes/certificates and you may lose some or all of your investment.

Part 4 – Non-Traditional Funds and Private Equities

1. Non-Traditional Funds

Non-traditional funds, including, but not limited to, hedge funds, alternative investment funds and offshore funds, can take a variety of legal forms (e.g. investment companies, partnerships or unit trust structures) and differ from traditional investment funds. Non-traditional funds involve a high degree of risk, in addition to the general risks associated with traditional funds, which could include, without limitation to, the following:

- (a) the investment strategies are often high risk and highly complex and may be difficult to understand. They may use derivatives for investment or speculative rather than hedging purposes. They tend to be highly geared and a small movement in the market can magnify a loss or gain sharply. The entire amount of your investment may be lost;
- (b) the non-traditional fund industry is largely unregulated and the availability, quality and flow of information may be limited. The investment strategies are usually non-transparent and sophisticated. You may not be kept informed of the strategies or changes to the fund management team;
- (c) the performance of the fund is largely dependent on individual fund managers. The fund management team may receive performance-linked bonuses and often have a personal stake in the fund;
- (d) the valuations of some underlying investments may be uncertain, not be actively traded and require time to be sold to make any distribution or to meet redemption;
- (e) the liquidity and tradability of non-traditional funds can vary a great deal. Long fixed holding periods or “lock up” periods are common and liquidation may stretch over many years; the redemption fees are applicable in certain cases depending on the terms and conditions of the offerings of the funds;
- (f) there may be powers to compulsorily redeem all or any portion of an investor’s holdings at any time and for any reason upon short notice and the proceeds received may be substantially less than the amount invested; and there may also be powers to suspend redemption rights of investors for a considerable period of time under extraordinary circumstances as defined by the offering documents of the fund;
- (g) many non-traditional funds have an offshore domicile that may be subject to less stringent laws and supervision and thus weaker investor protection. There may be problems or delays in settlement of buy and sell orders. There is no assurance that your legal rights will be enforceable;
- (h) many non-traditional funds are not available to the general public and are not suitable for the majority of public investors; and
- (i) each fund also has its own specific risks; investors should review the offering documents carefully and seek advice before making investment decisions.

2. Private Equities Investments

Private equities investment or private equities funds are investments into private/public companies through privately negotiated transactions. They involve a high degree of risk, in addition to the general risks associated with most investments, which could include, without limitation to, the following:

- (a) they often require contributions of substantial amounts, either by a single payment or by several payments known generally as “capital calls”, over a considerable period of time. Contribution is made over a period of time. The penalty for failure to make payments can be severe, including a complete forfeiture of any capital already invested;

- (b) they are subject to significant fees and expenses, typically, management fees and a substantial carried interest in the net profits generated by a fund and paid to its manager
- (c) the performance of a private equities investment fund may be substantially adversely affected by a single investment. In addition, the funds may make minority investments where the funds may not be able to protect its investment or control or influence effectively the business or affairs of the underlying investme
- (d) the investments may be in the form of securities among the most junior in a portfolio company's capital structure and generally with no collateral for partial protections, thus, subject to the greatest risk of loss;
- (e) those portfolio companies' capital structures could also be highly leveraged, which may accelerate and magnify declines in the value of any such portfolio company investments in a down market;
- (f) capital invested may be tied up, either completely or with restricted access, during a predetermined period. As there is no recognised secondary market in private equity, such investments may not be sold and/or transferred freely. Private equity funds also often make illiquid investments for which there are no readily available market prices. Private equity funds also generally provide valuations only on an infrequent basis;
- (g) private equity investments may be realised in several ways, such as a sale of the participation through eventual public listing on an Exchange, merger with or sale to another interested party or recapitalisation. Considerable losses or even a total loss of your investment may occur, for example, when the private companies and/or funds are either wound up or declared insolvent or its commercial interest fails or ceases to exist;
- (h) private equity fund investments are less transparent than public investments and private equity fund investors are afforded less regulatory protections than investors in registered public securities; an
- (i) investors in private equity funds will also have only limited rights to receive information about such funds or their managers. In addition, they will have no recourse against such funds or their managers.

Part 5 – Exchange Traded Funds

Exchange Traded Funds (“ETFs”) are listed on an exchange designed to track, replicate or correspond to the performance of their underlying benchmarks e.g. an underlying index, asset or group of assets that may be in, but are not limited to, specific markets, sectors, equities, commodities or market indices. ETF managers may use different strategies to achieve this

ETFs can be broadly categorised as physical ETFs or synthetic ETFs. Physical ETFs directly buy all or a portion of the assets needed to replicate the composition and weighting of their benchmark. Synthetic ETFs do not buy the assets in their benchmark but typically invest in derivative instruments to replicate the benchmark's performance. ETFs involve a high degree of risk which could include, without limitation, the following:

1. Market Risk

An ETF is exposed to the political, economic, currency, legal and other risks associated with the underlying index, asset or group of assets which may in the worst case scenario result in the termination of the ETF. ETF managers do not have discretion to take defensive positions in adverse markets. There is a risk of loss and volatility associated with the fluctuation of the underlying index, asset or group of assets and the derivative instruments relating to the ETFs.

2. Counterparty Risk

Synthetic ETFs will be subject to the credit risk of derivative issuers and potential contagion and concentration risks should be taken into account (since derivative issuers are predominantly financial institutions and the failure of one may have a “knock-on” effect on other issuers). Some synthetic ETFs have collateral to reduce counterparty risk, but the market value of collateral could be substantially less than the amount owed to the ETF, resulting in a loss for the ETF and a reduction in the investment.

3. Liquidity Risk

Listing or trading on an Exchange does not guarantee that a liquid market exists. A higher liquidity risk is involved if an ETF invests in derivative instruments that are not actively traded in the secondary market. This may result in a wider bid and offer spread. These derivatives are also susceptible to more price fluctuations and higher volatility and therefore can be more difficult and costly to unwind early, especially when the derivatives provide access to a restricted market where liquidity is limited in the first place. Although most ETFs are supported by one or more market makers, there is no assurance that active trading will be maintained.

4. Tracking Error

Tracking errors (i.e. the disparity in performance between an ETF and its underlying index, asset or group of assets) can arise due to factors such as the ETF's replication strategy, the impact of transaction expenses and fees incurred to the ETF, or changes in composition of the underlying index, asset or group of assets.

5. Trading at a Discount or Premium

An ETF may trade at a discount or premium to its net asset value. The price discrepancy is caused by supply and demand and may be particularly likely during periods of high market volatility and uncertainty. This may also be observed in ETFs tracking specific markets or sectors that are subject to restricted access or when there are disruptions to subscriptions and redemptions. Investors who buy an ETF at a premium may not be able to recover the premium in the event of termination.

6. Tax and Other Risks

An ETF may be subject to tax imposed by the local authorities in the market related to the underlying that it tracks, emerging market risks and risks in relation to the change of policy of the reference market which may in the worst case scenario result in the termination of the ETF.

ETFs not denominated in the currency of the underlying index, asset or group of assets may have exposure to exchange rate risk. Currency rate fluctuations can adversely affect the value of the underlying and thus affect the ETF price.

Part 6 – Renminbi (“RMB”) Products

1. Currency Risk

RMB is not a freely convertible currency and is subject to foreign exchange control policies and restrictions initiated by Mainland China. Such policies and restrictions may change and this may adversely affect your investment.

RMB exchange rate may fluctuate and any devaluation of RMB may adversely affect the value of your investment. There is no guarantee that RMB will not depreciate. If you convert your home currency into RMB to invest in a RMB product and subsequently convert the RMB sale proceeds back to your home currency, you may suffer a loss if RMB depreciates against your home currency.

As the offshore deliverable RMB market is currently in the developing phase, there is no market standard determination of the exchange rate. Screen rate (if available) is for indication only and might not necessarily equal to market trading rate.

There may be restrictions or daily limits for the conversion of RMB from, or into, another currency. You should allow sufficient time for the conversion.

Investors may be exposed to the risk of exchange rate fluctuation such that the potential loss from the product could offset (or even exceed) the potential gain if RMB depreciates against the investor's home currency. RMB products which are not denominated in RMB or with underlying investments which are not RMB-denominated will be subject to multiple currency conversion costs involved in making and liquidating the investments.

2. Interest Rate Risk

Mainland China has gradually liberalised the regulation of interest rates in recent years. Further liberalisation may increase interest rate volatility. Where RMB products invest in RMB debt instruments, such instruments are susceptible to interest rate fluctuations which may adversely affect the return and performance of the RMB products.

3. Limited Availability of Underlying Investments Denominated in RMB

Some RMB products do not have access to invest directly in Mainland China. The pool of underlying investments denominated in RMB outside Mainland China may be limited and may not be regularly traded or have an active secondary market. RMB products may therefore incur significant trading and realisation costs and suffer losses in liquidating such underlying investments. This may adversely affect the return and performance of the RMB products.

4. No Guaranteed Projected Returns

For some RMB investment products, their return may not be guaranteed or may only be partly guaranteed. You should read carefully the statement of illustrative return attached to such products and, in particular, the assumptions on which the illustrations are based, including, for example, any future bonus or dividend declaration.

5. Long Term Commitment

For RMB products which involve a long period of investment, if you redeem the investment before the maturity date or during the lock-up period (if applicable), you may incur a significant loss of principal where the proceeds may be substantially lower than the invested amount. You may also suffer from early surrender/withdrawal fees and charges, as well as the loss of returns (where applicable) as a result of redemption before the maturity date or during the lock-up period.

6. Issuer Risk

RMB products are subject to the credit and insolvency risks of their issuers. You should consider carefully the creditworthiness of the issuers before investing. RMB product may invest in derivative instruments, counterparty risk may also arise as the default by the derivative issuers may adversely affect the performance of the RMB products and result in substantial losses.

7. Liquidity Risk

RMB is less liquid than other currencies. There may not be regular trading or active secondary markets for RMB products. Payments and redemption of RMB products may not always be made within the expected timescales, or you may have to sell at a deep discount to the product value.

Restrictions in the repatriation of RMB out of Mainland China may limit the amount of RMB available offshore and reduce the liquidity of your investment.

8. Possibility of Not Receiving RMB upon Redemption

For RMB products with a significant portion of non-RMB denominated underlying investments, you may not receive the full amount in RMB on redemption/sale. Even if sufficient underlying investments are RMB denominated, there may not be sufficient RMB to satisfy the redemption/sale requests due to repatriation or other controls on RMB. As such, you may not receive RMB when you redeem/sell.

Part 7 – Fixed Income Investments

Market values of fixed income instruments that trade over the counter are traded via networks of brokers and dealers. Prices reflected in our trading systems (including and not limited to online trading systems utilised by you) and statements are based on inputs and quotes from these networks and market data providers. Price sources may depend on the markets in which the fixed income instruments trade, and are indicative only. There may be a disparity between the indicative prices and the actual tradable fixed income instruments prices and this is due to various factors such as market conditions, currency fluctuations, volume or liquidity of the relevant market, as well as the frequency of inputs and updates by the aforementioned networks of brokers and dealers.

You take on the risk that the issuer of the fixed income instrument or the counterparty may not honour its obligations to pay principal and/or interest, resulting in losses to you. In this regard, published ratings of any issuer of fixed income instrument should be supplemented by your own credit analysis of the issuer's credit risk as changes in the ratings of any issuer of fixed income instrument may lag behind changes in financial conditions. You should perform periodic independent analysis to determine the credit risk of the issuer of any fixed income instrument and evaluate the merits and risks of such fixed income instrument.

You are exposed to liquidity risk as there may be no market for a fixed income instrument and you may not be able to sell the fixed income instrument at the desired time or price. Even when a market exists, there may be a substantial difference between the offer and purchase price for a fixed income instrument

You are exposed to the risk of interest rate fluctuations as the value of fixed income instruments will fluctuate with changes in interest rates. The degree of interest rate sensitivity depends on the maturity, coupon and call provisions of the fixed income instrument. Floating rate fixed income instruments lessen your interest rate risk to the extent that the interest rate adjustments are responsive to market rate movements. If the issuer of the fixed income instruments has the right to redeem the fixed income instruments before maturity, this can adversely affect your exposure

Additional Risks of Investing in Fixed Income Investments with Special Features

1. High Yield

High-yield bonds/debentures are typically rated below investment grade or are unrated and as such are often subject to a higher risk of issuer default. High-yield bonds/debentures typically fall more in value than investment grade bonds/debentures during economic downturns as: (a) investors become more risk averse; and (b) default risk rises.

2. Perpetual

Perpetual bonds/debentures are perpetual in nature and do not have a maturity date. Interest pay-out depends on the viability of the issuer in the very long term.

3. Convertible/Exchangeable

The price structure of convertible and exchangeable bond is constituted by value of the straight bond plus value of the option embedded. The bondholder acts like holding a straight bond and an option with long position. Having this feature, when the stock price of a company goes up, the value of convertible bond will follow. On the other hand, when the value of convertible bond drops, it will only fall to the value of straight bond floor. Investors are subject to both equity and bond investment risk.

4. Callable

Callable bonds allow the issuer to redeem the bond at a predetermined price on or after a specific date before maturity. Exercising the call on call date is at the issuer's discretion but it is not obliged to do so. This may increase the investor's reinvestment risk when the issuer exercises its right to redeem the bond before it matures.

5. Distressed

The bond issuer may not be able to meet their financial obligations and near or even in default. The bond price may be highly volatile. An investor who purchases distressed bonds is speculating that the issuer will be able to fulfil its financial obligations and will not go into default. The issuer of the distressed bond may go into/already in default. When holding a "distressed bond", the holder is facing much higher default risk than holding other bonds that are not in "distress". As the bond is at high default risk, liquidity of distressed bonds may be much lower than bonds not in distress. An investor may suffer considerable loss in order to liquidate the holdings.

6. Subordinated

It is a debt that ranks below other bonds with regard to claims on assets or earnings. In the case of default, holders with subordinated bonds would not get paid out until the senior bondholders are paid in full. Subordinated debts have a lower priority of claims in the event of liquidation of the issuer. Investors can only get back the principal after other senior creditors are paid.

7. Contingent Convertible or Bail-in

Issuers of contingent convertible bonds ("**CoCos**") are mainly banks. It is a hybrid capital security that absorbs losses in accordance with its contractual terms when the capital of the issuing bank falls below a certain level. Then, the debt is reduced and bank capitalization gets a boost. Owing to its capacity to absorb losses, CoCos have the potential to satisfy regulatory capital requirements.

CoCos can absorb losses either by converting into common equity or by suffering a principal write down. The trigger can be either mechanical (i.e. defined numerically in terms of a specific capital ratio) or discretionary (i.e. subject to supervisory judgement).

Investors face higher risks as these are hybrid debt-equity instruments that may be written off or converted to common stock on the occurrence of a trigger event. Bonds/debentures with a contingent write down or loss absorption feature may be written-off fully or partially or converted to common stock on the occurrence of a trigger event. Investors face both equity and bond investment risk if the bonds/debentures are converted to common stock on the occurrence of a trigger event.

8. Variable/Deferral of Interest Payment

Bonds/debentures with variable and/or deferral of interest payment terms have a higher uncertainty over the amount and time of the interest payments to be received.

9. Extendable Maturity Dates

Bonds/debentures with extendable maturity dates do not have a definite schedule of principal repayment

10. Risk of Statutory Resolution

The recovery and resolution regimes in certain markets may empower resolution authorities to intervene if a financial institution or its parent company becomes non-viable. Such intervention may take the form of a bail-in, through the writing down of certain claims of unsecured creditors of the failing institution and/or conversion of unsecured debt claims to equity. Should the issuer and the guarantor (as applicable) and/or any of their affiliates become subject to such bail-in or resolution powers, this could have an adverse impact on the payments under and returns on the bonds/notes and you may lose some or all of your investment.

The Bank shall have the sole discretion to stop issuance of passbook and issue account statements instead.

3. Passbook updating and examination

- 3.1 The passbook must be presented to the Bank for regular updating of any unposted transactions. The Customer may ask a third party to present the passbook solely for the purpose of updating unposted transactions. Unless the Bank has notice of fraudulent activities or has been given notice in accordance with Clause D6 below, the Bank is entitled to deem any third party presenting the passbook for updating as duly authorised by the Customer for that purpose. Nonetheless, the Bank may, at its sole discretion, decide not to accept instruction from any third party to update the passbook.

6. Notification of passbook loss

The Customer must give immediate notice in writing to the Bank of any theft, loss or destruction of the passbook. - (c) disposed of in other ways as agreed by the Bank.

5. Premature withdrawal

If a Customer requests withdrawal of a deposit prior to its maturity date, the Bank may at its discretion permit such early withdrawal. No interest shall accrue in respect of any such deposit and the Bank will charge a fee as set out in the Bank Charges Schedule for such premature withdrawal. The Bank will deduct such fee from the principal.

6. Overdue deposits

If the Bank receives no Instructions by the maturity date on a deposit which is not to be renewed automatically, the Bank will hold the deposit, and interest on the maturity date and thereafter will accrue on the principal amount only, as follows:

- 1.1 Except for Treasures Secured Line of Credit, Secured Line of Credit, Mortgage Overdraft Facilities and Automatic Secured Line of Credit, for which interest is calculated and charged on a 365 days per year basis, the Bank will calculate and charge interest based on the outstanding amount of the Facilities and on a 365/360 days per year basis depending on the currency of the Facilities. The interest is accrued daily and charged to the Facilities account monthly in arrears. Interest charged can be settled by cash on the date specified by the Bank or rolled over to the outstanding balance.
- 1.2 In relation to Automatic Secured Line of Credit, the Bank will charge interest on the outstanding debit balance to the Facility which is secured by Hong Kong Dollar deposits at a deposit rate of the secured deposit plus 2% per annum or at Prime Rate whichever is higher. For automatic overdraft secured by foreign currency deposit, the Bank will charge interest at Prime Rate plus 2% per annum.

2. Excess overdraft interest

The Bank will calculate and charge a default interest rate at the Bank's prevailing Prime Rate plus 9% per annum:

- (a) on any outstanding amount of Facilities which exceeds the applicable overdraft limit, from the date on which such excess was incurred up to the date of actual payment of such excess; and
- (b) if the Facilities expire or are not renewed, on the amount of the utilised facilities, from the date of such expiry or non-renewal up to the date of repayment.

4. Overdraft limit

- 4.1 The overdraft limit shall be determined by the Bank at its discretion from time to time. The total outstanding must not exceed the approved overdraft limit and/or the current marketvalue of the Secured Assets multiplied by the lending ratio applicable from time to time, failing which the Bank may:

 - (b) request the Customer to deposit additional Assets immediately into the Facilities account,so that such requirement is met. Should the Customer fail to do so, the Bank may demand immediate repayment. The Bank's lending ratio will differ for various types of Secured Assets and may be varied from time to time. For details, please contact the Customer Service Hotline or any Branch.

The Bank has no obligation in respect of such review but will notify the Customer if the Bank decides to discontinue the Facilities. If renewed, the Facilities will remain subject to the provisions of these Terms and Conditions and the Facility Documents.

10. Replacement of interest rate

- 10.1 For Facilities denominated in Hong Kong Dollar, if the prevailing HIBOR is higher than the Prime Rate, the Bank may at its discretion and without notice adopt the prevailing HIBOR in place of the Prime Rate, as the base of interest rate determination.

 - (b) In order to use the e-Cheque Drop Box Service, the Customer is required by the e-Cheque Drop Box Terms to register an e-Cheque Drop Box Account with one or more Payee Bank Account for presenting e-Cheques. - (c) in no event will the Bank be liable to the Customer or any other person for any loss of profit or any special, indirect, consequential or punitive loss or damages.

4.3 The Customer's confirmation and indemnity

M. Bank Services relating to Faster Payment System

1. Bank Services relating to Faster Payment System

- (a) The Bank provides the FPS Services to Customers to facilitate payments and funds transfers using the Faster Payment System. The Faster Payment System is provided and operated by HKICL. The FPS Services are therefore subject to the rules, guidelines and procedures imposed by HKICL in relation to the Faster Payment System from time to time. This Section M of Part IV governs the Bank's provision to the Customer and the Customer's use of the FPS Services. Unless otherwise specified, the provisions of this Section M of Part IV shall prevail if there is any inconsistency between them and the rest of these Terms and Conditions with respect to the FPS Services.

- (b) **By requesting the Bank to register any Proxy ID for the Customer in the HKICL FPS or to set up any eDDA for the Customer using the HKICL FPS, or by initiating any payment or funds transfer using the HKICL FPS, the Customer will be regarded as having accepted and will be bound by the provisions of this Section M of Part IV. The Customer should not request the Bank to register any Proxy ID or set up any eDDA for the Customer and should not initiate any payment or funds transfer using the HKICL FPS unless the Customer accepts the provisions of this Section M of Part IV.**

- (c) In this Section M of Part IV, the following terms have the following meanings:

"Addressing Service" means a service provided by HKICL as part of HKICL FPS to facilitate customers of Participants to use predefined Proxy ID instead of account number to identify the destination of a payment or funds transfer instruction and other communications for the purpose of HKICL FPS.

"FPS Services" means the services (including the QR Code Services) provided by the Bank to Customers from time to time to facilitate payments and funds transfers using HKICL FPS and the Addressing Service, eDDA Service and any other services and facilities provided by HKICL in connection with the Faster Payment System from time to time.

"Default Account" means the account maintained by the Customer with the Bank or any other Participant and set as the default account for receiving payment or funds using HKICL FPS or (if and to the extent specified or permitted by the rules, guidelines and procedures of HKICL) for debiting payment or funds using HKICL FPS.

"eDDA" means a direct debit authorisation set up by electronic means using HKICL FPS.

"eDDA Service" means a service provided by HKICL as part of HKICL FPS to facilitate customers of Participants to set up direct debit authorisation.

"FPS Identifier" means a unique random number generated by HKICL FPS to be associated with the account of a customer of a Participant.

"HKICL FPS" or "Faster Payment System" means the Faster Payment System and related facilities and services provided, managed and operated by HKICL from time to time for (i) processing direct debits and credits, funds transfers and other payment transactions and (ii) exchanging and processing instructions relating to eDDA Service and Addressing Service.

"Participant" means a participant of HKICL FPS which may be a bank or other financial institution, a retail payment system operator, a licensed stored value facility, or any other person accepted by HKICL as a participant of HKICL FPS from time to time.

"Proxy ID" means the identifiers which may be accepted by HKICL for registration in the Addressing Service to identify the account of a customer of a Participant, including the mobile phone number or email address of the customer, or the FPS Identifier.

"QR Code Services" means the QR code and the associated payment and funds transfer services provided by the Bank to Customers from time to time.

"Regulatory Requirement" means any law, regulation or court order, or any rule, direction, guideline, code, notice or restriction (whether or not having the force of law) issued by any regulatory authority, governmental agency (including tax authority), clearing or settlement bank or exchange, or industry or self-regulatory body, whether in or outside Hong Kong, to which HKICL, the Bank or any other Participant or the respective affiliate or group companies, or the Customers are subject or are expected to comply with from time to time.

2. Scope of FPS Services and conditions for use

- (a) The Bank provides the FPS Services to Customers to facilitate payment and funds transfer using the Faster Payment System and the Addressing Service, eDDA Service and any other services and facilities provided by HKICL in connection with the Faster Payment System from time to time. The Bank has the right to set or vary from time to time the scope of the FPS Services and the conditions and procedures for using the FPS Services. In order to use the FPS Services, the Customer has to accept and follow these conditions and procedures.
- (b) The Bank may provide the FPS Services to facilitate payment and funds transfer in any currency specified by the Bank from time to time, including Hong Kong dollars and Renminbi.
- (c) **In order to enable the Bank to handle an instruction for the Customer in relation to payment or funds transfer using HKICL FPS, the Customer has to provide or input the necessary information and complete the process by such means or in such manner prescribed by the Bank from time to time.**
- (d) All payment or funds transfer transactions using HKICL FPS will be processed, cleared and settled under the interbank clearing and settlement arrangements including without limitation the arrangements in relation to the Faster Payment System agreed by the Participants and HKICL from time to time.
- (e) The Bank reserves the right to suspend or terminate the FPS Services in whole or in part at any time without giving notice or reason.

3. Addressing Service - registration and amendment of Proxy ID and related records

- (a) In order to use the Addressing Service to receive payment or funds transfer using HKICL FPS, the Customer has to register the Customer's Proxy ID in the HKICL FPS. The Bank has discretion as to whether to offer the FPS Identifier as Proxy ID to the Customer.

- (b) Registration and amendment of Proxy ID and related records in the HKICL FPS must be done in accordance with the applicable rules, guidelines and procedures imposed by HKICL from time to time. In order to enable the Bank to register or amend Proxy ID or any related records for the Customer, the Customer has to provide or input the necessary information and complete the registration process by such means or in such manner prescribed by the Bank from time to time.
- (c) **At any time where the same Proxy ID is registered by the Customer for more than one account (whether maintained with the Bank or with any other Participant), the Customer must set one account as the Default Account. By instructing the Bank to set or change the Default Account for the Customer, the Customer consents and authorises the Bank to submit the request on the Customer's behalf to HKICL FPS to override the existing Default Account registered in HKICL FPS.**

4. eDDA Service

In order to enable the Bank to handle a request for the Customer in relation to eDDA setup, the Customer has to provide or input the necessary information and complete the process by such means or in such manner prescribed by the Bank from time to time. The prescribed process may include requiring the relevant parties to set up the eDDA using their respective account numbers or customer identification numbers or codes. For the avoidance of doubt, a Proxy ID is not intended for verifying eDDA setup. Any amendment of a Proxy ID and the related records or termination of a Proxy ID after an eDDA setup will not affect that eDDA.

5. The Customer's responsibility

- (a) **Present genuine owner or authorised user of Proxy ID and accounts**
The Customer can only register the Customer's own Proxy ID for the Customer's own accounts or set up eDDA for the Customer's own accounts. The Customer must be the present genuine owner or authorised user of each Proxy ID and each account provided to the Bank for registration in the Addressing Service and the eDDA Service. By instructing the Bank to register any Proxy ID or any account for the Customer in relation to the Faster Payment System, the Customer confirms that the Customer is the present genuine owner or authorised user of the relevant Proxy ID or account. This is particularly important for mobile phone numbers as they may be recycled in Hong Kong.
- (b) **Proxy ID**
Any Proxy ID to be registered by the Customer for the Addressing Service must satisfy any applicable requirements imposed by HKICL from time to time. For example, HKICL may require the mobile phone number or email address to be registered as Proxy ID to be the same number or address registered by the Customer as contact information on the Bank's records at the relevant time. The Customer understands and agrees that the Bank, other Participants and HKICL have the right and discretion without giving notice to deregister any Proxy ID that is not correct or up-to-date in accordance with available information without the Customer's consent.
- (c) **Correct information**
 - (i) The Customer has to ensure that all the information provided by the Customer for registration or amendment of Proxy ID (or any related records) or for any eDDA setup is correct, complete, up-to-date and not misleading. The Customer has to notify the Bank as soon as reasonably practicable of any changes or updates to such information by such means or in such manner specified by the Bank from time to time.
 - (ii) The Customer is fully responsible for using the correct and up-to-date Proxy ID and related records in giving each payment or funds transfer instruction. The Customer is solely liable for and will hold the Bank harmless from any incorrect payment or transfer effected by the Bank and HKICL FPS due to incorrect or outdated Proxy ID or related records.
- (d) **Timely updates**
The Customer is fully responsible for giving instructions and information changes or updates to the Bank on a timely basis for amending the Customer's Proxy ID (or related records) or any eDDA setup, including without limitation changing the Customer's Default Account, or terminating any Proxy ID or eDDA. The Customer acknowledges that keeping the Customer's Proxy ID, eDDA and all related records up-to-date is critical for ensuring effective execution of payment and funds transfer instructions and for avoiding incorrect payment or transfer due to incorrect or outdated Proxy ID, eDDA or related records.
- (e) **Change of Default Account**
If an account is terminated as the Default Account by the Customer or by the relevant Participant for any reason (including suspension or termination of the account), the system of HKICL will automatically assign the most recently registered record in the Addressing Service that is associated with the same Proxy ID to be the Default Account. If the Customer wishes to set another account as the Default Account, the Customer has to change the registration through the Participant where the Customer maintains that other account.
- (f) **Transactions binding on the Customer**
 - (i) For any payment or funds transfer, once the Customer confirms the details of a transaction and submit instruction to the Bank, such instruction and any resulting transaction is final, irrevocable and binding on the Customer.
 - (ii) For any Proxy ID registration or eDDA setup, once the Customer submits an instruction to the Bank, such instruction is irrevocable and binding on the Customer. The Customer may amend or cancel any Proxy ID or eDDA setup in accordance with the procedures and requirements prescribed by the Bank from time to time.
- (g) **Use FPS Services responsibly**
The Customer must use the FPS Services in a responsible manner. In particular, the Customer has to comply with the following obligations:
 - (i) The Customer must comply with all Regulatory Requirements that govern the Customer's use of the FPS Services, including collecting, using and handling the personal data and other information relating to any other person in compliance with the Regulatory Requirements protecting data privacy. The Customer must not use the FPS Services for any unlawful purposes or any purposes other than those authorised or contemplated in the rules, guidelines and procedures of HKICL.

- (ii) In sending remarks or messages to be displayed to recipients or counterparties of the Customer's payment or funds transfer instructions or eDDA setup using HKICL FPS, the Customer should mask the name or other data of such recipients or counterparties to prevent unauthorised display or disclosure of any personal data or confidential data.
 - (iii) If the Bank offer the FPS Identify as Proxy ID to the Customer, the Customer should not repeatedly cancel the registration and request for generation of another FPS Identify in an attempt to generate a number or value that the Customer desires.
- (h) **Other obligations regarding payments and funds transfers**
- Any instruction given by the Customer in relation to the FPS Services will be handled by the Bank in accordance with this Section M of Part IV and the applicable provisions in these Terms and Conditions. The Customer has to comply with the other obligations with respect to payments, funds transfers and direct debit authorisations, including without limitation maintaining sufficient funds in the relevant accounts for settling payment and funds transfer instructions from time to time.
- (i) **The Customer is responsible for the Customer's authorised persons**
- Where the Customer authorises any other person to give instructions or requests to the Bank in connection with the use of the FPS Services (whether the Customer is an individual, a company, a corporation, or a sole proprietorship or partnership firm or any other unincorporated body):
- (i) the Customer is responsible for all the acts and omissions of each person authorised by the Customer;
 - (ii) any instruction or request received by the Bank, believed by the Bank in good faith to be given by the Customer or any person authorised by the Customer, will be irrevocable and binding on the Customer; and
 - (iii) the Customer is also responsible for ensuring that each person authorised by the Customer will comply with the provisions of this Section M of Part IV that are applicable to him/her when acting on the Customer's behalf.

6. The Bank's responsibility and restriction of liability

- (a) The Bank will process and submit the Customer's instructions and requests to HKICL FPS in accordance with the applicable rules, guidelines and procedures imposed by HKICL from time to time. HKICL FPS has the right to process and execute the Customer's instructions and requests in such sequence or manner as HKICL considers appropriate. The Bank has no control over the operation of HKICL FPS nor the timing on which the Customer's instructions or requests are executed by HKICL FPS. Where the Bank receives status update notifications involving any of the Customer's Proxy ID (or related records) or eDDA setup or any other matter relating to HKICL FPS from or through HKICL FPS from time to time, the Bank will notify the Customer accordingly by such means and at such time as the Bank considers appropriate.
- (b) Without reducing the effect of Clause 6(a) above or the other provisions of these Terms and Conditions
 - (i) the Bank is not liable for loss, damage or expense of any kind which the Customer or any other person may incur or suffer arising from or in connection with the use of the FPS Services or the processing or execution of instructions or requests given by the Customer in relation to the FPS Services or HKICL FPS, except to the extent that any loss, damage or expense incurred or suffered is direct and reasonably foreseeable arising directly and solely from the Bank's negligence or wilful default or that of the Bank's officers, employees or agent
 - (ii) for clarity, the Bank is not liable for loss, damage or expense of any kind which the Customer or any other person may incur or suffer arising from or in connection with one or more of the following:
 - (1) the Customer's failure to comply with the Customer's obligations relating to the FPS Services; and
 - (2) any delay, unavailability, disruption, failure, error of or caused by HKICL FPS, or arising from any circumstances beyond the Bank's reasonable control; and
 - (iii) in no event will the Bank, any Affiliate, the Bank's licensors, and the Bank's and their respective officers, employees and agents be liable to the Customer or any other person for any loss of profit or any special, indirect, incidental, consequential or punitive loss or damages (whether or not they were foreseeable or likely to occur).
- (c) **The Customer's confirmation and indemnity**
 - (i) Without reducing the effect of any indemnity given by the Customer under these Terms and Conditions or any other rights or remedies that the Bank may have, the Customer will indemnify the Bank and the Bank's officers, employees and agents and hold each of them harmless against all liabilities, claims, demands, losses, damages, costs, charges and expenses of any kind (including legal fees on a full indemnity basis and other expenses reasonably incurred) which may be incurred or suffered by the Bank or any of them and all actions or proceedings which may be brought by or against the Bank or any of them as a result of or in connection with the Bank's provision of the FPS Services or the Customer's use of the FPS Services.
 - (ii) The above indemnity does not apply to the extent that it is proved that any liabilities, claims, demands, losses, damages, costs, charges, expenses, actions or proceedings are direct and reasonably foreseeable arising directly and solely from the Bank's negligence or wilful default or that of the Bank's officers, employees or agents. The above indemnity shall continue to have effect after the termination of the FPS Services.

7. Collection and use of Customer Information

- (a) For the purposes of using the FPS Services, the Customer may be required to provide the Bank with the personal data and other information relating to one or more of the following persons from time to time:
 - (i) the Customer;
 - (ii) the recipient of any payment or funds transfer to be made by the Customer, or the counterparty of any eDDA to be set up by the Customer; and
 - (iii) where the Customer is a company, a corporation, or a sole proprietorship or partnership firm or any other unincorporated body, any of the Customer's directors, officers, employees, authorised persons and representative
- all personal data and information provided to the Bank or compiled by the Bank from time to time in connection with the FPS Services are collectively referred to as "Customer Information".

- (b) The Customer agrees (and, where applicable, for and on behalf of each of the Customer's directors, officers employees, authorised persons and representatives) that the Bank may collect, use, process, retain or transfer any of the Customer Information for the purposes of the FPS Services. These purposes include without limitation one or more of the following:
 - (i) providing the FPS Services to the Customer, maintaining and operating the FPS Services;
 - (ii) processing and executing the Customer's instructions and requests in relation to the FPS Services from time to time;
 - (iii) disclosing or transferring the Customer Information to HKICL and other Participants for their use for the purpose of the operation of HKICL FPS;
 - (iv) meeting the requirements to make disclosure under any Regulatory Requirements; and
 - (v) purposes relating to any of the above.
- (c) The Customer understands and agrees that the Customer Information may be further disclosed or transferred by HKICL, the Bank or any other Participants to their customers and any other third parties who are users of HKICL FPS for the purposes of providing and operating the Addressing Service and the eDDA Service.
