^{*} As of 1 October 2024, UBS Fund Management (Luxembourg) S.A was renamed UBS Asset Management (Europe) S.A.

Features of the Fund

UBS (Lux) Bond Fund (hereinafter called "the fund") offers investors a range of different subfunds ("umbrella structure") which invest in accordance with the investment policy described in the sales prospectus. The sales prospectus, which contains specific details on each subfund, will be updated on the inception of each new subfund.

The fund was established as an open-ended investment fund without legally independent status in the form of a collective investment fund (fonds commun de placement, FCP) pursuant to Part I of the Luxembourg law relating to undertakings for collective investment of 30 March 1988 and adapted in April 2005 to conform to Part I of the Luxembourg Law of 20 December 2002 on undertakings for collective investment (hereinafter "Law of 2002"). Since 1 July 2011 the Fund is subject to the law of 17 December 2010. It was originally established under the title SBC Bond Portfolio in compliance with the Management Regulations approved by the board of directors of UBS Bond Fund Management Company S.A. (formerly SBC Bond Portfolio Management Company S.A.) on 26 June 1991. The SBC Bond Portfolio was renamed as UBS (Lux) Bond Fund on 1 April 1999. The activities of UBS Bond Fund Management S.A. in its capacity as Management Company of the UBS (Lux) Bond Fund ended on 14 November 2010. On 15 November 2010 UBS Asset Management (Europe) S.A.* assumed the function of Management Company. The Management Regulations were initially lodged with the Trade and Companies Register of the District Court in Luxembourg on 1 July 1991 and amendments thereto were last published on 30 September 2022 in the "Recueil Electronique des Sociétés et Associations" ("RESA").

The Fund's Management Regulations may be amended, subject to compliance with applicable law. Any amendments thereto shall be notified by way of a notice of deposit in RESA, as well as by any other means described in the section entitled "Regular reports and publications". The new Management Regulations shall enter into force on the date of signature by the Management Company and the Depositary. The consolidated version may be consulted at the Trade and Companies Register (Registre de Commerce et des Sociétés).

The fund has no legal personality as an investment fund. The entire net assets of each subfund are the undivided property of all investors who have equal rights in proportion to the number of units which they hold. These assets are separate from the assets of the Management Company. The securities and other assets of the fund are managed by Management Company as separate trust assets in the interests and for the account of the unitholders.

The management regulations give the Management Company the authority to establish different subfunds for the fund as well as different classes with specific characteristics within these subfunds. The sales prospectus will be updated each time a new subfund or an additional unit class is launched.

As at 31 March 2025, the following subfunds are active:

UBS (Lux) Bond Fund	Currency of account
– Asia Flexible (USD)	USD
– AUD	AUD
– CHF Flexible	CHF
– Convert Europe (EUR)	EUR
– EUR Flexible	EUR
– Euro High Yield (EUR)	EUR
– Global Flexible	CHF

Not all the types of unit class described below have to be offered at all times. Information on which unit classes are available for which subfund can be obtained from the UCI Administrator or at www.ubs.com/funds.

Units are issued as registered units only.

"P"

Units in classes with "P" in their name are available to all investors. Their smallest tradable unit is 0.001. Unless the Management Company decides otherwise, the initial issue price of these units amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100, NZD 100 or ZAR 1,000.

"N"

Units in classes with "N" in their name (units with restrictions on distribution partners or countries) are issued exclusively through distributors authorised by UBS Asset Management Switzerland AG and domiciled in Spain, Italy, Portugal and Germany, or in other distribution countries insofar as this has been decided by the Board of Directors. There are no entry charges for these classes, even if they have additional characteristics. Their smallest tradable unit is 0.001. Unless the Management Company decides otherwise, the initial issue price of these units amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100, NZD 100 or ZAR 1,000.

"K-1

Units in classes with "K-1" in their name are available to all investors. Their smallest tradable unit is 0.001. The minimum investment amount is equivalent to the initial issue price of the unit class and is applicable on the level of the clients of financial intermediaries. This minimum investment amount must be met or exceeded with every subscription order that is placed. Unless the Management Company decides otherwise, the initial issue price of these units amounts to AUD 5 million, BRL 20 million, CAD 5 million, CHF 5 million, CZK 100 million, DKK 35 million EUR 3 million, GBP 2.5 million, HKD 40 million, JPY 500 million, NOK 45 million, PLN 25 million, RMB 35 million, RUB 175 million, SEK 35 million, SGD 5 million, USD 5 million, NZD 5 million or ZAR 40 million.

^{*} As of 1 October 2024, UBS Fund Management (Luxembourg) S.A was renamed UBS Asset Management (Europe) S.A.

"K-B"

Units in classes with "K-B" in their name are exclusively reserved for investors who have signed a written agreement with UBS Asset Management Switzerland AG or one of its authorised distributors on investing in one or more subfunds of this umbrella fund. The costs for asset management are charged to investors under the aforementioned agreements. Their smallest tradable unit is 0.001. Unless the Management Company decides otherwise, the initial issue price of these units amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, NZD 100, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100 or ZAR 1,000.

"K-X"

Units in classes with "K-X" in their name are exclusively reserved for investors who have signed a written agreement with UBS Asset Management Switzerland AG or one of its authorised contractual partners on investing in one or more subfunds of this umbrella fund. The costs for asset management, fund administration (comprising the costs incurred by the Management Company, UCI Administrator and the Depositary) and distribution are charged to investors under the aforementioned agreements. Their smallest tradable unit is 0.001. Unless the Management Company decides otherwise, the initial issue price of these units amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100, NZD 100 or ZAR 1,000.

"F"

Units in classes with "F" in their name are exclusively reserved for UBS Group AG affiliates. The maximum flat fee for this class does not include distribution costs. These units may only be acquired by UBS Group AG affiliates, either for their own account or as part of discretionary asset management mandates concluded with UBS Group AG companies. In the latter case, the units will be returned to the Fund upon termination of the mandate at the prevailing net asset value and without being subject to charges. The smallest tradable unit is 0.001. Unless the Management Company decides otherwise, the initial issue price of these units amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100, NZD 100 or ZAR 1,000.

"Q"

Units in classes with "Q" in their name are exclusively reserved for financial intermediaries that: (i) invest for their own account, or (ii) receive no distribution fees in accordance with regulatory requirements, or (iii) can only offer their clients retrocession-free classes where these are available in the investment fund in question, in accordance with written agreements concluded with them. Investments that no longer meet the above conditions may be forcibly redeemed at the prevailing net asset value or exchanged for another class of the subfund. The Management Company is not liable for any tax consequences that may result from a forcible redemption or exchange. The smallest tradable unit is 0.001. Unless the Management Company decides otherwise, the initial issue

price of these units amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100, NZD 100 or ZAR 1,000.

"QL"

Units in classes with "QL" in their name are exclusively reserved for selected financial intermediaries that: (i) have received approval from the Management Company prior to first subscription, and (ii) receive no distribution fees in accordance with regulatory requirements and/or can only offer their clients classes with no retrocessions, where these are available in the investment fund in question, in accordance with written agreements concluded with their clients. The Management Company will require a minimum investment of CHF 200 million (or the equivalent in another currency). The Management Company may waive the minimum investment temporarily or permanently. Investments that no longer meet the above conditions may be forcibly redeemed at the prevailing net asset value or exchanged for another class of the subfund. The Management Company is not liable for any tax consequences that may result from a forcible redemption or exchange.

The smallest tradable unit of these units is 0.001. Unless the Management Company decides otherwise, the initial issue price of these units amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, NZD 100, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100 or ZAR 1,000.

"I-A1"

Units in classes with "I-A1" in their name are exclusively reserved for institutional investors within the meaning of Article 174(2)(c) of the Law of 2010. The maximum flat fee for this class does not include distribution costs. The smallest tradable unit is 0.001. Unless the Management Company decides otherwise, the initial issue price of these units amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100, NZD 100 or ZAR 1,000.

"I-A2"

Units in classes with "I-A2" in their name are exclusively reserved for institutional investors within the meaning of Article 174(2)(c) of the Law of 2010. The maximum flat fee for this class does not include distribution costs. The smallest tradable unit is 0.001. Unless the Management Company decides otherwise, the initial issue price of these units amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100, NZD 100 or ZAR 1,000. The minimum subscription amount for these units is CHF 10 million (or foreign currency equivalent).

Upon subscription

- (i) a minimum subscription must be made in accordance with the list above; or
- (ii) based on a written agreement between the institutional investor and UBS Asset Management Switzerland AG (or one of its authorised contractual partners) or written approval

- by UBS Asset Management Switzerland AG (or one its authorised contractual partners), the investor's total assets managed by UBS or its holdings in UBS collective investment schemes must be more than CHF 30 million (or foreign currency equivalent); or
- (iii) the institutional investor must be an institution for occupational retirement provision that is part of UBS Group AG or must be one of its wholly-owned group companies. The Management Company may waive the minimum subscription amount if the total assets managed by UBS or the amount held in UBS collective investment schemes for institutional investors is more than CHF 30 million within a defined period.

"I-A3"

Units in classes with "I-A3" in their name are exclusively reserved for institutional investors within the meaning of Article 174(2) (c) of the Law of 2010. The maximum flat fee for this class does not include distribution costs. The smallest tradable unit is 0.001. Unless the Management Company decides otherwise, the initial issue price of these units amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100, NZD 100 or ZAR 1,000. The minimum subscription amount for these units is CHF 30 million (or foreign currency equivalent).

Upon subscription

- (i) a minimum subscription must be made in accordance with the list above; or
- (ii) based on a written agreement between the institutional investor and UBS Asset Management Switzerland AG (or one of its authorised contractual partners) or written approval by UBS Asset Management Switzerland AG (or one its authorised contractual partners), the investor's total assets managed by UBS or its holdings in UBS collective investment schemes must be more than CHF 100,000,000 (or foreign currency equivalent); or
- (iii) the institutional investor must be an institution for occupational retirement provision that is part of UBS Group AG or must be one of its wholly-owned group companies.

The Management Company may waive the minimum subscription amount if the total assets managed by UBS or the amount held in UBS collective investment schemes for institutional investors is more than CHF 100 million within a defined period.

"I-A4"

Units in classes with "I-A4" in their name are exclusively reserved for institutional investors within the meaning of Article 174(2)(c) of the Law of 2010. The maximum flat fee for this class does not include distribution costs. The smallest tradable unit of these shares is 0.001. Unless the Management Company decides otherwise, the initial issue price of these units amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, NZD 100, PLN 500, RUB 3,500, SEK 700, SGD 100, USD 100 or ZAR 1,000. The minimum subscription amount for these units is CHF 100 million (or foreign currency equivalent).

Upon subscription:

- (i) a minimum subscription must be made in accordance with the list above; or
- (ii) based on a written agreement between the institutional investor and UBS Asset Management Switzerland AG (or one its authorised contractual partners) or on the written approval of UBS Asset Management Switzerland AG (or one its authorised contractual partners), the investor's total assets managed by UBS or its holdings in UBS collective investment schemes must be more than CHF 500 million (or foreign currency equivalent); or
- (iii) the institutional investor must be an institution for occupational retirement provision that is part of UBS Group AG or must be one of its wholly-owned group companies. The Management Company may waive the minimum subscription amount if the total assets managed by UBS or the amount held in UBS collective investment schemes for institutional investors is more than CHF 500 million within a defined period. Investments that no longer meet the above conditions may be forcibly redeemed at the prevailing net asset value or exchanged for another class of the subfund. The Management Company is not liable for any tax consequences that may result from a forcible redemption or exchange.

"I-B"

Units in classes with "I-B" in their name are exclusively reserved for institutional investors within the meaning of Article 174(2)(c) of the amended Law of 2010 who have signed a written agreement with UBS Asset Management Switzerland AG or one of its authorised contractual partners on investing in one or more subfunds of this Umbrella Fund. A fee covering the costs for fund administration (comprising the costs of the Management Company, the UCI Administrator and the Depositary) is charged directly to the subfund. The costs for asset management and distribution are charged to investors under the aforementioned agreement. Their smallest tradable unit is 0.001. Unless the Management Company decides otherwise, the initial issue price of these units amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100, NZD 100 or ZAR 1,000.

"I-X"

Units in classes with "I-X" in their name are exclusively reserved for institutional investors within the meaning of Article 174(2)(c) of the amended Law of 2010 who have signed a written agreement with UBS Asset Management Switzerland AG or one of its authorised contractual partners on investing in one or more subfunds of this Umbrella Fund. The costs for asset management, fund administration (comprising the costs incurred by the Management Company, UCI Administrator and the Depositary) and distribution are charged to investors under the aforementioned agreement. Their smallest tradable unit is 0.001. Unless the Management Company decides otherwise, the initial issue price of these units amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100, NZD 100 or ZAR 1,000.

"U-X"

Units in classes with "U-X" in their name are exclusively reserved for institutional investors within the meaning of Article 174(2)(c) of the amended Law of 2010 who have signed a written agreement with UBS Asset Management Switzerland AG or one of its authorised contractual partners on investing in one or more subfunds of this Umbrella Fund. The costs for asset management, fund administration (comprising the costs incurred by the Management Company, UCI Administrator and the Depositary) and distribution are charged to investors under the aforementioned agreements. This unit class is exclusively geared towards financial products (i.e. funds of funds or other pooled structures under various legislative frameworks). Their smallest tradable unit is 0.001. Unless the Management Company decides otherwise, the initial issue price of these units amounts to AUD 10,000, BRL 40,000, CAD 10,000, CHF 10,000, CZK 200,000, DKK 70'000, EUR 10,000, GBP 10,000, HKD 100,000, JPY 1 million, NOK 90'000, PLN 50,000, RMB 100,000, RUB 350,000, SEK 70,000, SGD 10,000, USD 10,000, NZD 10,000 or ZAR 100,000.

Additional characteristics:

Currencies

The unit classes may be denominated in AUD, BRL, CAD, CHF, CZK, DKK, EUR, GBP, HKD, JPY, NOK, PLN, RMB, RUB, SEK, SGD, USD, NZD or ZAR For unit classes issued in the currency of account of the subfund, this currency will not be included in the unit class name. The currency of account features in the name of the relevant subfund.

"hedged"

For unit classes with "hedged" in their name and with reference currencies different to the subfund's currency of account ("unit classes in foreign currencies"), the risk of fluctuations in the value of the reference currency is hedged against the subfund's currency of account. This hedging shall be between 95% and 105% of the total net assets of the unit class in foreign currency. Changes in the market value of the portfolio, as well as subscriptions and redemptions of unit classes in foreign currencies, can result in the hedging temporarily surpassing the aforementioned range. The Management Company and the Portfolio Manager will take all necessary steps to bring the hedging back within the aforementioned limits.

The hedging described has no effect on possible currency risks resulting from investments denominated in a currency other than the subfund's currency of account.

"BRL hedged"

The Brazilian real (currency code pursuant to ISO 4217: BRL) may be subject to exchange control regulations and repatriation limits set by the Brazilian government. Prior to investing in BRL classes, investors should also bear in mind that the availability and tradability of BRL classes, and the conditions under which they may be available or traded, depend to a large extent on the political and regulatory developments in Brazil. The risk of fluctuations is hedged as described above under "hedged". Potential investors should be aware of the risks of reinvestment, which could arise if the BRL class has to be liquidated early due to political and/or regulatory circumstances.

This does not apply to the risk associated with reinvestment due to liquidation of a unit class and/or the subfund in accordance with the section "Liquidation and Merger of the Fund and its subfunds or unit classes" of the sales prospectus.

"RMB hedged"

Investors should note that the renminbi (ISO 4217 currency code: CNY), the official currency of the People's Republic of China (the "PRC"), is traded on two markets, namely as onshore RMB (CNY) in mainland China and offshore RMB (CNH) outside mainland China.

Units in classes with "RMB hedged" in their name are units whose net asset value is calculated in offshore RMB (CNH).

Onshore RMB (CNY) is not a freely convertible currency and is subject to foreign exchange control policies and repatriation restrictions imposed by the PRC government. Offshore RMB (CNH), on the other hand, may be traded freely against other currencies, particularly EUR, CHF and USD. This means the exchange rate between offshore RMB (CNH) and other currencies is determined on the basis of supply and demand relating to the respective currency pair.

Convertibility between offshore RMB (CNH) and onshore RMB (CNY) is a regulated currency process subject to foreign exchange control policies and repatriation restrictions imposed by the PRC government in coordination with offshore supervisory and governmental agencies (e.g. the Hong Kong Monetary Authority).

Prior to investing in RMB classes, investors should bear in mind that the requirements relating to regulatory reporting and fund accounting of offshore RMB (CNH) are not clearly regulated. Furthermore, investors should be aware that offshore RMB (CNH) and onshore RMB (CNY) have different exchange rates against other currencies. The value of offshore RMB (CNH) can potentially differ significantly from that of onshore RMB (CNY) due to a number of factors including, without limitation, foreign exchange control policies and repatriation restrictions imposed by the PRC government at certain times, as well as other external market forces. Any devaluation of offshore RMB (CNH) could adversely affect the value of investors' investments in the RMB classes. Investors should therefore take these factors into account when calculating the conversion of their investments and the ensuing returns from offshore RMB (CNH) into their target currency.

Prior to investing in RMB classes, investors should also bear in mind that the availability and tradability of RMB classes, and the conditions under which they may be available or traded, depend to a large extent on the political and regulatory developments in the PRC. Thus, no guarantee can be given that offshore RMB (CNH) or the RMB classes will be offered and/or traded in future, nor can there be any guarantee as to the conditions under which offshore RMB (CNH) and/or RMB classes may be made available or traded. In particular, since the currency of account of the relevant subfunds offering the RMB classes would be in a currency other than offshore RMB (CNH), the ability of the relevant subfund to make redemption payments in offshore RMB (CNH) would be subject to

the subfund's ability to convert its currency of account into offshore RMB (CNH), which may be restricted by the availability of offshore RMB (CNH) or other circumstances beyond the control of the Management Company. The risk of fluctuations is hedged as described above under "hedged".

Potential investors should be aware of the risks of reinvestment, which could arise if the RMB class has to be liquidated early due to political and/or regulatory circumstances. This does not apply to the risk associated with reinvestment due to liquidation of a unit class and/or the subfund in accordance with the section "Liquidation and Merger of the Fund and its subfunds or unit classes" of the sales prospectus.

"acc"

The income of unit classes with "-acc" in their name is not distributed unless the Management Company decides otherwise.

"dist"

The income of unit classes with "-dist" in their name is distributed unless the Management Company decides otherwise.

"qdist"

Units in classes with "-qdist" in their name may make quarterly distributions, gross of fees and expenses. Distributions may also be made out of the capital (this may include, inter alia, realised and unrealised net gains in net asset value) ("capital"). Distributions out of capital result in the reduction of an investor's original capital invested in the subfund. Furthermore, any distributions from the income and/or involving the capital result in an immediate reduction of the net asset value per unit of the subfund. Investors in certain countries may be subject to higher tax rates on distributed capital than on any capital gains from the sale of fund units. Some investors may therefore prefer to subscribe to accumulating (-acc) rather than distributing (-dist, -qdist) unit classes. Investors may be taxed at a later point in time on income and capital arising on accumulating (-acc) unit classes compared with distributing (-dist) unit classes. Investors should consult qualified experts for tax advice regarding their individual situation.

"mdist"

Units in classes with "-mdist" in their name may make monthly distributions, gross of fees and expenses. Distributions may also be made out of capital. Distributions out of capital result in the reduction of an investor's original capital invested in the subfund. Furthermore, any distributions from the income and/or involving the capital result in an immediate reduction of the net asset value per unit of the subfund. Investors in certain countries may be subject to higher tax rates on distributed capital than on any capital gains from the sale of fund units. Some investors may therefore prefer to subscribe to accumulating (-acc) rather than distributing (-dist, -mdist) unit classes. Investors may be taxed at a later point in time on income and capital arising on accumulating (-acc) unit classes compared with distributing (-dist) unit classes. Investors should consult qualified experts for tax advice regarding their individual situation. The maximum entry costs for units in classes with "-mdist" in their name is 6%.

"UKdist"

The aforementioned unit classes can be issued as those with "UKdist" in their name. In these cases, the Management Company intends to distribute a sum which corresponds to 100% of the reportable income within the meaning of the UK reporting fund rules when the unit classes are subject to these reporting fund rules. The Management Company does not intend to make taxable values for these unit classes available in other countries, as they are intended for investors whose investment in the unit class is liable to tax in the UK.

"2%","4%","6%","8%"

Units in classes with "2%" / "4%" / "6%" / "8%" in their name may make monthly (-mdist), quarterly (-qdist) or annual (-dist) distributions at the respective aforementioned annual percentage rates, gross of fees and expenses. The distribution amount is calculated based on the net asset value of the respective unit class at the end of the month (in the case of monthly distributions), financial quarter (in the case of quarterly distributions) or financial year (in the case of annual distributions). These unit classes are suitable for investors who wish for more stable distributions, unrelated to the past or expected returns or income of the respective subfund.

Distributions may thus also be made from the capital. Distributions out of capital result in the reduction of an investor's original capital invested in the subfund. Furthermore, any distributions from the income and/or involving the capital result in an immediate reduction of the net asset value per unit of the subfund. Investors in certain countries may be subject to higher tax rates on distributed capital than on any capital gains from the sale of fund units. Some investors may therefore choose to invest in the accumulating (-acc) instead of the distributing (-dist, -qdist, -mdist) unit classes. Investors may be taxed at a later point in time on income and capital arising on accumulating (-acc) unit classes compared with distributing (-dist, -qdist, -mdist) unit classes. Investors should consult qualified experts for tax advice regarding their individual situation.

"seeding"

Units with "seeding" in their name are only offered during a limited time period. Further subscriptions are prohibited after the end of this period, unless otherwise decided by the Management Company. However, units can still be redeemed in accordance with the conditions for unit redemptions. Unless otherwise decided by the Management Company, the smallest tradable unit, the initial issue price and the minimum subscription amount shall correspond to the characteristics of the unit classes listed above.

The fund is not subject to any restrictions with regard to the size of its net assets, the number of units, number of subfunds and number of unit classes as well as the duration of the fund and its subfunds.

The fund forms a legal entity. With respect to the unitholders, however, each subfund is regarded as being separate from the others. These assets are separate from the assets of the Management Company. The securities and other assets of the Fund are managed by the Management Company as separate trust assets in the interests and for the account of the unitholders.

As regards the association between unitholders, however, each subfund is considered to be independent of the others. The assets of a subfund are only liable for liabilities incurred by that subfund. As no division of liabilities is made between unit classes, there is a risk that, under certain conditions, currency hedging transactions for unit classes with "hedged" in their name may result in liabilities that affect the net asset value of other unit classes of the same subfund.

The acquisition of fund units implies acceptance of the management regulations by the unitholder.

The Management Regulations do not provide for a general meeting of the unitholders.

The fund's financial year ends on the last day of March.

The annual and semi-annual reports are prepared based on the information from the sales prospectus in force at the closing date of the report.

The issue and redemption price of each subfund is announced in Luxembourg at the registered office of the Management Company and at the Depositary.

Furthermore, a Key Investor Information (KID) document is made available to investors before subscribing to units.

Information on whether a subfund of the fund is listed on the Luxembourg Stock Exchange can be obtained from the UCI Administrator or the Luxembourg Stock Exchange website (www.bourse.lu).

The national laws of the countries concerned shall apply to the issue and redemption of units of the fund.

Only the information contained in the sales prospectus and in one of the documents referred to therein shall be deemed to be valid.

The annual and semi-annual reports are available free of charge to unitholders at the registered office of the Management Company and the Depositary.

No subscription may be accepted on the basis of the financial reports. Subscriptions are accepted only on the basis of the current prospectus accompanied by the latest annual report and the latest semi-annual report if available.

The figures stated in this report are historical and not necessarily indicative of future performance.

SFDR (Sustainable Finance Disclosure Regulation) information (unaudited)

Article 6:

```
UBS (Lux) Bond Fund – CHF Flexible*
UBS (Lux) Bond Fund – Convert Europe (EUR)*
```

* The investments underlying this subfund do not take into account the EU criteria for environmentally sustainable economic activities (Art. 7 Taxonomy).

The subfund does not consider principal adverse impacts on sustainability factors due to its investment strategy and the nature of the underlying investments (SFDR Art. 7).

Article 8:

```
UBS (Lux) Bond Fund – Asia Flexible (USD)**
UBS (Lux) Bond Fund – AUD**
UBS (Lux) Bond Fund – EUR Flexible**
UBS (Lux) Bond Fund – Euro High Yield (EUR)**
UBS (Lux) Bond Fund – Global Flexible**
```

** The periodic disclosure at the date of the financial year end for this subfund is presented in the Appendix 5 of this annual report.

The periodic disclosure is the one referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852, and/or (if any), referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852.

Audit report

To the Unitholders of UBS (Lux) Bond Fund

Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of UBS (Lux) Bond Fund (the "Fund") and of each of its sub-funds as at 31 March 2025, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

What we have audited

The Fund's financial statements comprise:

- the combined statement of net assets for the Fund and the statement of net assets for each of the sub-funds as at 31 March 2025;
- the combined statement of operations for the Fund and the statement of operations for each of the sub-funds for the year then ended;
- the combined statement of changes in net assets for the Fund and the statement of changes in net assets for each of the sub-funds for the year then ended;
- the statement of investments in securities and other net assets for each of the sub-funds as at 31 March 2025; and
- the notes to the financial statements, which include a summary of significant accounting policies.

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

Other information

The Board of Managers of the Management Company is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Board of Managers of the Management Company for the financial statements

The Board of Managers of the Management Company is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Managers of the Management Company determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Managers of the Management Company is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Managers of the Management Company either intends to liquidate the Fund or close any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to
 fraud or error, design and perform audit procedures responsive to those risks, and obtain audit
 evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting
 a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may
 involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal
 control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures
 that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
 effectiveness of the Fund's internal control;

- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Managers of the Management Company;
- conclude on the appropriateness of the Board of Managers of the Management Company's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the
 disclosures, and whether the financial statements represent the underlying transactions and events
 in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming units.

The performance data were not audited.

¹ Due to the recent launch, there is no data for the calculation of the performance available.

² The unit class (EUR hedged) I-A1-acc was in circulation until 10.5.2023. Due to this fact, there is no data for the calculation of the performance available.

³ The unit class I-X-dist was in circulation until 10.12.2024. Due to this fact, there is no data for the calculation of the performance available.

⁴ The subfund is actively managed. The index is a point of reference against which the performance of the subfund may be measured.

Report of the Portfolio Manager

Performances in the Asia credit space for the financial year from 1 April 2024 to 31 March 2025 were strongly positive. Asia credit markets outperforming their developed markets counterpart, largely driven by the high yield segment. Asia investment grade credit generated positive performances in line with developed markets' investment grade credit, while Asia and China high yield produced strong positive performances.

In 2024, we observed a significant pullback in exuberant pricing for rate cut expectations during the year, resulting in negative performances from the duration aspect of the credit market. This was driven by an upswing in global economic activity, with the US economy continuing to outperform and the eurozone enjoying some optimism, driven by the revival of the services and manufacturing sectors. Conversely, credit spreads across most markets continued to grind tighter to historical tights as recession worries faded with the economy holding up strongly.

China played a pivotal role in the positive performance of the Asia credit market. Incremental stimulus measures and the bottoming of the real estate sector provided a strong boost to the market, resulting in the strong performance of high yield credits, particularly Chinese property bonds which benefited from both global risk-on sentiment and local drivers.

Consequently, subfund performance over the financial year was correspondingly positive, reflecting the broad strength across the Asia and China high yield credit market.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming units.

The performance data were not audited.

¹ Due to the recent launch, there is no data for the calculation of the performance available. ² The unit class I-X-acc was in circulation until 24.2.2025. Due to this fact, there is no data for the calculation of the performance available. ³ The subfund is actively managed. The index is a point of reference against which the performance of the subfund may be measured.

Report of the Portfolio Manager

During the financial year from 1 April 2024 to 31 March 2025, the Reserve Bank of Australia (RBA) lowered policy rates by 25 basis points (bps). This move was well anticipated by the market, especially after inflation data suggested a quicker pace of disinflation back to the 2-3% target band than the RBA had initially expected.

However, it's worth noting that the RBA's communication through the Statement of Monetary Policy and the Board indicated some unease about the tightness in the labor market and its potential to hinder the disinflation process. As such, the Governor explicitly pushed back against the market's pricing for an additional 2-3 rate cuts during the post-meeting press conference.

From the financial year, Australian government yields were quite volatile, mirroring global trends. Specifically, 10-year Australian Government bond yields ended the financial year 43bps higher. Additionally, the spread of the Bloomberg Ausbond Credit 0+ Year index tightened by 27bps, finishing at 83bps.

The subfund posted positive performance for the financial year, driven primarily by spreads tightening and carry.

Report of the Portfolio Manager

Swiss capital market interest rates decreased in the financial year from 1 April 2024 to 31 March 2025 across all maturities. Five-year swap rates moved down by approx. 0.69% to 0.35% as per end of March 2025. Ten-year rates decreased by 0.50% to 0.64%. Over the financial period, swap spreads of CHF foreign issuers widened by 12bps to 59bps. The Swiss National Bank conducted interest rate cuts taking the SNB Target Rate from 1.50% to 0.25% in March 2025 as headline inflation in Switzerland continuously undershot the 2% level.

The subfund posted a positive performance primarily thanks to positive effects from lower rates. The duration was actively managed, taking both active positions in the CHF, EUR and USD rate markets which all added to performance. The sector positioning, with an overweight in corporate bonds as well as issue selection were positive performance contributors.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming units.

The performance data were not audited.

¹ The unit class K-X-acc was in circulation until 11.3.2025. Due to this fact, there is no data for the calculation of the performance available.

² The subfund is actively managed. The index is a point of reference against which the performance of the subfund may be measured.

² The unit class (CHF hedged) I-X-acc was in circulation until 16.8.2024

¹ The unit class (CHF hedged) I-X-acc was in circulation until 16.8.2024. Due to this fact, there is no data for the calculation of the performance available.

² The subfund is actively managed. The index is a point of reference against which the performance of the subfund may be measured.

Report of the Portfolio Manager

In the financial year, from 1 April 2024 to 31 March 2025, European equities performed well, credit spreads widened, and interest rates declined. Overall, these factors contributed to a positive performance of European convertible bonds in the financial period. Stable absolute volatilities and a stellar performance of a major defence company boosted the performance of convertible bonds.

In the financial year, the subfund posted a strongly positive performance for all share classes. Our positioning is concentrated towards the bonds in the market which are more attractive from a valuation perspective. Therefore, we preferred smaller, less liquid names and convertible bonds that are not officially rated as these offer more value than other parts of the market.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming units.

The performance data were not audited.

¹ The subfund is actively managed. The index is a point of reference against which the performance of the subfund may be measured.

Report of the Portfolio Manager

The EUR fixed income market posted positive performance over the financial year from 1 April 2024 to 31 March 2025. Government bond yields rose in the second quarter of 2024 as strong US economic data reduced US Fed expectations of rate cuts. Unexpectedly cool US inflation caused a rally lower in bond yields during Q3, before they rose again into year-end due to resilient growth and inflation with easing monetary policy, and the start of Trump's second term as US president. In contrast to the US, Eurozone growth and sentiment have been muted due to political uncertainty and elevated global competition. Over this period, the US Fed lowered its upper bound rate from 5.50% to 4.50%, whilst the ECB cut its policy rate from 4.50% to 2.65%. In corporate credit, spreads largely remained tight whilst the US widened significantly in Q125 on the back of tariff-induced market volatility. Demand was driven by strong fundamentals and technicals, and despite elevated valuations.

The subfund posted positive performance in the financial year given the underlying market movements as described. Rates performance was a small detractor, while excess performance from corporate credit was positive driven by spread tightening.

The performance data were not audited.

Report of the Portfolio Manager

In the financial year from 1 April 2024 to 31 March 2025, the Euro High Yield market generated a positive absolute total performance driven predominately by spread tightening and income. Government bond yields rose in the second quarter of 2024 as strong US economic data reduced US Fed expectations of rate cuts. Unexpectedly cool US inflation caused a rally lower in bond yields during Q3, before they rose again into year-end due to resilient growth and inflation with easing monetary policy, and the start of Trump's second term as US president. In contrast to the US, Eurozone growth and sentiment have been muted due to political uncertainty and elevated global competition. Over this period, the US Fed lowered its upper bound rate from 5.50% to 4.50%, whilst the ECB cut its policy rate from 4.50% to 2.65%. The period was characterized by a strong technical backdrop with gross supply for 2024 being the second highest when compared to the past decade but this was on the back of two years of incredibly low supply and to no surprise it was dominated by refinancings. 2024 was the 4th year we saw back-to-back rising stars outweighing fallen angels, highlighting the positive fundamental environment and the higher quality end of the market.

The subfund posted a positive performance in the financial year. Positive contributors to performance included Homebuilders & Real Estate, Banking, Services and Autos. Detractors included Energy and Healthcare. From the period we kept our preference for single B whilst retaining a cautious stance towards BBs. From a sector perspective we closed the period favoring Homebuilders & Real Estate and Banks and being cautious on sectors such as Autos and Utilities. From a duration perspective we closed the period being short.

¹ The unit class F-acc was in circulation until 7.7.2023. Due to this fact, there is no data for the calculation of the performance available.

² The unit class I-A2-acc was in circulation until 21.12.2022 - reactivated 27.6.2024. Due to this fact, there is no data for the calculation of the performance available.

³ Due to the recent launch, there is no data for the calculation of the performance available.

⁴ The subfund is actively managed. The index is a point of reference against which the performance of the subfund may be measured.

Report of the Portfolio Manager

The Global fixed income market posted positive performance over the financial year from 1 April 2024 to 31 March 2025. Government bond yields rose in the second quarter of 2024 as strong US economic data reduced US Fed expectations of rate cuts. Unexpectedly cool US inflation caused a rally lower in bond yields during Q3, before they rose again into year-end due to resilient growth and inflation with easing monetary policy, and the start of Trump's second term as US president. In contrast to the US, Eurozone growth and sentiment have been muted due to political uncertainty and elevated global competition. Over this period, the US Fed lowered its upper bound rate from 5.50% to 4.50%, whilst the ECB cut its policy rate from 4.50% to 2.65%. In corporate credit, spreads largely remained tight whilst the US widened significantly in Q125 on the back of tariff-induced market volatility. Demand was driven by strong fundamentals and technicals, and despite elevated valuations.

The subfund posted positive performance in the financial year given the underlying market movements as described. Rates performance was a small detractor, while excess performance from corporate credit was positive driven by spread tightening.

The performance data were not audited.

⁵ The subfund is actively managed. The index is a point of reference against which the performance of the subfund may be measured.

Notes to the Financial Statements

Note 1 – Summary of significant accounting policies

The financial statements have been prepared in accordance with the generally accepted accounting principles for investment funds in Luxembourg. The significant accounting policies are summarised as follows:

a) Calculation of the net asset value

The net asset value and the issue and redemption price per unit of any subfund or of any unit class are expressed in the currency of account of the subfund or of the unit class concerned and are calculated every business day by dividing the overall net assets of the subfund attributable to each unit class by the number of units in circulation in the respective unit class of this subfund.

A "business day" is a normal bank business day in Luxembourg (i.e. a day when the banks are open during normal business hours), except for 24 and 31 December, individual, non-statutory days of rest in Luxembourg and days on which stock exchanges in the main countries in which the respective subfund invests are closed, or on which 50% or more of the investments of the subfund cannot be adequately valued.

The percentage of the net asset value attributable to each unit class of a subfund changes each time units are issued or redeemed. It is determined by the ratio of the units in circulation in each unit class to the total number of units in circulation in the subfund, taking into account the fees charged to that unit class. The net asset value attributable to the unit class concerned is increased or reduced by the amount received or paid out.

Due to fees and charges as well as the buy-sell spreads for the underlying investments, the actual costs of buying and selling assets and investments for a subfund may differ from the last available price or, if applicable, the net asset value used to calculate the net asset value per unit. These costs have a negative impact on the value of a subfund and are termed "dilution". To reduce the effects of dilution, the Board of Directors may at its own discretion make a dilution adjustment to the net asset value per unit (swing pricing).

Units are issued and redeemed based on a single price: the net asset value per unit. To reduce the effects of dilution, the net asset value per unit is nevertheless adjusted on valuation days as described below; this takes place irrespective of whether the subfund is in a net subscription or net redemption position on the relevant valuation day. If no trading is taking place in a subfund or class of a subfund on a particular valuation day, the unadjusted net asset value per unit is applied. The Board of Directors has discretion to decide under which circumstances such a dilution adjustment should be made. The requirement to carry out a dilution adjustment generally depends on the scale of subscriptions or redemptions of units in the relevant subfund. The Board of Directors may apply a dilution adjustment if, in its view, the existing unitholders (in the case of subscriptions) or remaining unitholders (in the case of redemptions) could otherwise be put at a disadvantage. The dilution adjustment may take place if:

- (a) a subfund records a steady fall (i.e. a net outflow due to redemptions);
- (b) a subfund records a considerable volume of net subscriptions relative to its size;
- (c) a subfund shows a net subscription or net redemption position on a particular valuation day; or
- (d) In all other cases in which the Board of Directors believes a dilution adjustment is necessary in the interests of the unitholders.

When a valuation adjustment is made, a value is added to or deducted from the net asset value per unit depending on whether the subfund is in a net subscription or net redemption position; the extent of the valuation adjustment shall, in the opinion of the Board of Directors, adequately cover the fees and charges as well as the buy-sell spreads. In particular, the net asset value of the respective subfund will be adjusted (upwards or downwards) by an amount that (i) reflects the estimated tax expenses, (ii) the trading costs that may be incurred by the subfund, and (iii) the estimated bid-ask spread for the assets in which the subfund invests. As some equity markets and countries may show different fee structures on the buyer and seller side, the adjustment for net inflows and outflows may vary. Generally speaking, adjustments shall be limited to a maximum of 2% of the relevant applicable net asset value per unit. Under exceptional circumstances (e.g. high market volatility and/or illiquidity, extraordinary market conditions, market disruptions etc.), the Board of Directors may decide to apply temporarily a dilution adjustment of more than 2% of the relevant applicable net asset value per unit in relation to each subfund and/or valuation date, provided that the Board of Directors is able to justify that this is representative of prevailing market conditions and is in the unitholders' best interest. This dilution adjustment shall be calculated according to the procedure specified by the Board of Directors. Unitholders shall be informed through the normal channels whenever temporary measures are introduced and once the temporary measures have ended.

The net asset value of each class of the subfund is calculated separately. However, dilution adjustments affect the net asset value of each class to the same degree in percentage terms.

For all subfunds the Swing Pricing methodology is applied.

If there were Swing Pricing adjustments to the net asset value at the end of the financial year, this can be seen from the three-year comparison of the net asset value information of the subfunds. The issue and redemption price per unit represents the adjusted net asset value.

This adjustment is in favour of the subfund and mentioned in the statement of operations as "Other income".

b) Valuation principles

liquid assets (whether in the form of cash and bank deposits, bills of exchange, cheques, promissory notes, expense advances, cash dividends and declared or accrued interest still receivable) are valued at face value, unless this value is unlikely to be fully paid or received, in which case their value is determined by deducting an amount deemed appropriate to arrive at their real value.

- Securities, derivatives and other assets listed on a stock exchange are valued at the most recent market prices available. If these securities, derivatives or other assets are listed on several stock exchanges, the most recently available price on the stock exchange that represents the major market for this asset shall apply.
 - In the case of securities, derivatives and other assets not commonly traded on a stock exchange and for which a secondary market among securities traders exists with pricing in line with the market, the Management Company may value these securities, derivatives and other investments based on these prices. Securities, derivatives and other investments not listed on a stock exchange, but traded on another regulated market that operates regularly and is recognised and open to the public, are valued at the most recently available price on this market.
- Securities and other investments not listed on a stock exchange or traded on another regulated market, and for which no appropriate price can be obtained, are valued by the Management Company according to other principles chosen by it in good faith on the basis of probable market prices.
- Derivatives not listed on a stock exchange (OTC derivatives) are valued on the basis of independent pricing sources.
 If only one independent pricing source is available for a derivative, the plausibility of the valuation obtained will be verified using calculation models that are recognised by the Management Company based on the market value of that derivative's underlying.
- Units of other undertakings for collective investment in transferable securities (UCITS) and/or undertakings for collective investment (UCIs) are valued at their last known asset value.
- Money market instruments not traded on a stock exchange or on another regulated market open to the public will be valued on the basis of the relevant curves. Curve-based valuations are calculated from interest rates and credit spreads. The following principles are applied in this process: The interest rate nearest the residual maturity is interpolated for each money market instrument. Thus calculated, the interest rate is converted into a market price by adding a credit spread that reflects the creditworthiness of the underlying borrower. This credit spread is adjusted if there is a significant change in the borrower's credit rating.
- Securities, money market instruments, derivatives and other assets denominated in a currency other than the relevant subfund's currency of account, and not hedged by foreign exchange transactions, are valued using the average exchange rate (between the bid and ask prices) known in Luxembourg or, if none is available, using the rate on the most representative market for that currency.
- Term and fiduciary deposits are valued at their nominal value plus accumulated interest.
- The value of swaps is calculated by an external service provider and a second independent valuation is provided by another external service provider. Such calculations are based on the net present value of all cash flows (both inflows and outflows). In some specific cases, internal calculations (based on models and market data made available by Bloomberg) and/or broker statement valuations may be used. The valuation method depends on the security in question and is chosen pursuant to the applicable UBS valuation policy.

The Management Company is authorised to apply other generally recognised and verifiable valuation criteria in good faith to arrive at an appropriate valuation of the net assets if, due to extraordinary circumstances, a valuation in accordance with the foregoing provisions proves unfeasible or inaccurate.

In extraordinary circumstances, additional valuations may be made throughout the day. Such new valuations shall apply for subsequent issues and redemptions of units.

c) Valuation of forward foreign exchange contracts

The unrealized gain (loss) of outstanding forward foreign exchange contracts is valued on the basis of the forward exchange rates prevailing at valuation date.

d) Valuation of financial futures contracts

Financial futures contracts are valued based on the latest available published price applicable on the valuation date. Realized gains and losses and the changes in unrealized gains and losses are recorded in the statement of operations. The realized gains and losses are calculated in accordance with the FIFO method, i.e. the first contracts acquired are regarded as the first to be sold.

e) Net realized profit (loss) on the sales of securities

The realized profits or losses on the sales of securities are calculated on the basis of the average cost of the securities sold.

f) Conversion of foreign currencies

Bank accounts, other net assets and the valuation of the investments in securities denominated in currencies other than the reference currency of the different subfunds are converted at the mid closing spot rates on the valuation date. Income and expenses denominated in currencies other than the currency of the different subfunds are converted at the mid closing spot rates at payment date. Profit or loss on foreign exchange is included in the statement of operations.

The cost of the securities denominated in currencies other than the reference currency of the different subfunds is converted at the mid closing spot rate on the day of acquisition.

g) Accounting of securities' portfolio transactions

The securities' portfolio transactions are accounted for the bank business day following the transaction date.

h) Swaps

The fund may enter into interest rate swap contracts, forward rate agreements on interest rates swaptions and credit default swaps, if they are executed with first-class financial institutions that specialize in transactions of this kind.

Changes in unrealized profits and losses are reflected in the statement of operations under "Unrealized appreciation (depreciation) on swaps".

Gains or losses on swaps incurred when closed-out or matured are recorded as "Realized gain (loss) on swaps" in the statement of operations.

i) Combined financial statements

The combined financial statements are expressed in EUR. The various items of the combined statement of net assets, the combined statement of operations and the combined statement of changes in net assets at 31 March 2025 of the investment company are equal to the sum of the corresponding items in the financial statements of each subfund converted into EUR at the following exchange rates.

The following exchange rates were used for the conversion of the combined financial statements as of 31 March 2025:

Exchange rates

EUR	1	=	AUD	1.733451
EUR	1	=	CHF	0.955707
EUR	1	=	USD	1.080200

j) "Mortgage-backed securities"

The fund, in accordance with its investment policies, may invest in mortgage-backed securities. A mortgage-backed security is a participation in a pool of residential mortgages which is consolidated into the form of securities. The principal and interest payments on the underlying mortgages are passed through to the holders of the mortgage-backed security of which the principle reduces the cost basis of the security. The payment of principal and interest may be guaranteed by quasi-governmental agencies of the United States. A gain or loss is calculated on each paydown associated with each payment of principal. This gain or loss has been included in Net realized gain or loss on sales of securities in the statement of operations. In addition, prepayments of the underlying mortgages may shorten the life of the security, thereby affecting the fund's expected yield.

For "Mortgage-backed securities", if the factor to be applied to the nominal of the security is greater than one at the valuation date, then the nominal shown in the financial statements is adjusted to reflect this factor. In the other cases the nominal shown reflects the effect of a factor equal to one.

k) Receivable on securities sales, Payable on securities purchases

The position "Receivable on securities sales" can also include receivables from foreign currency transactions. The position "Payable on securities purchases" can also include payables from foreign currency transactions.

Receivables and payables from foreign exchange transactions are netted.

I) Income recognition

Dividends, net of withholding taxes, are recognized as income on the date upon which the relevant securities are first listed as "ex-dividend". Interest income is accrued on a daily basis.

m) To Be Announced ("TBA") Mortgage Backed Securities

TBA positions refer to general trading practice on the mortgage-backed securities market where a security from a mortgage pool (Ginnie Mae, Fannie Mae or Freddie Mac) is acquired at a fixed price on a future date. The precise composition of the security is not known at the time of the purchase,

but its main characteristics have already been defined. The price is also set at this point, although the Nominal value has not yet been definitively established.

Note 2 – Flat fee

The fund pays for each of the subfunds/unit classes a maximum flat fee calculated on the average net asset value of the subfunds/unit classes as shown in the table below:

UBS (Lux) Bond Fund - Asia Flexible (USD)

	Maximum flat fee	Maximum flat fee p.a. for unit classes with "hedged" in their name
Unit classes with "P" in their name	1.300%	1.350%
Unit classes with "N" in their name	1.560%	1.610%
Unit classes with "K-1" in their name	0.600%	0.630%

Out of the aforementioned maximum Flat fee the following is included:

1. In accordance with the following provisions, a maximum flat fee based on the net asset value of the Fund is paid from the Fund's assets for the management, administration, portfolio management and distribution of the Fund (if applicable), as well as for all Depositary tasks, such as the safekeeping and supervision of the Fund's assets, the processing of payment transactions and all other tasks listed in the "Depositary and Main Paying Agent" of the sales prospectus. This fee is charged to the Fund's assets pro rata temporis upon every calculation of the net asset value, and is paid on a monthly basis (maximum flat management fee). The maximum flat fee for unit classes with "hedged" in their name may contain fees for hedging currency risk. The relevant maximum flat management fee will not be charged until the corresponding unit classes have been launched. An overview of the maximum flat management fees can be found under "The subfunds and their special investment policies" of the sales prospectus.

This fee is shown in the Statement of Operations as "Flat fee".

- 2. The maximum flat management fee does not include the following fees and additional expenses, which are also taken from the Fund assets:
 - a) All other Fund asset management expenses for the sale and purchase of assets (bid-ask spread, market-based brokerage fees, commissions, fees, etc.); As a rule, these expenses are calculated upon the purchase or sale of the respective assets. In derogation hereto, these additional expenses, which arise through the sale and purchase of assets in connection with the settlement of the issue and redemption of units, are covered by the application of the Swing pricing principle pursuant to the section titled "Net asset value, issue, redemption and conversion price" of the sales prospectus;
 - Fees of the supervisory authority for the establishment, modification, liquidation and merger of the Fund, as well as all charges payable to the supervisory authorities and any stock exchanges on which the subfunds are listed;
 - Auditor's fees for the annual audit and for authorisations in connection with creations, alterations, liquidations and mergers within the Fund, as well as any other fees paid to the audit firm for services provided in relation to the administration of the Fund and as permitted by law;
 - d) Fees for legal consultants, tax consultants and notaries in connection with the creation, registration in distribution countries, alteration, liquidation and merger of the Fund, as well as for the general safeguarding of the interests of the Fund and its investors, insofar as this is not expressly prohibited by law;
 - e) Costs for publishing the Fund's net asset value and all costs for notices to investors, including translation costs;
 - f) Costs for the Fund's legal documents (prospectuses, KIDs, annual and semi-annual reports, and other documents legally required in the countries of domiciliation and distribution);
 - g) Costs for the Fund's registration with any foreign supervisory authorities (if applicable), including fees payable to the foreign supervisory authorities, as well as translation costs and fees for the foreign representative or paying agent;
 - h) Expenses incurred through use of voting or creditors' rights by the Fund, including fees for external advisers;
 - Costs and fees related to any intellectual property registered in the Fund's name, or to the Fund's rights of usufruct;
 - j) all expenses arising in connection with any extraordinary measures taken by the Management Company, Portfolio Manager or Depositary to protect the interests of the investors;
 - k) If the Management Company participates in classaction suits in the interests of investors, it may charge expenses arising in connection with third parties (e.g. legal and Depositary costs) to the Fund's assets. Furthermore, the Management Company may bill for all administrative costs, provided these are verifiable, and disclosed and accounted for in the Fund's published total expense ratio (TER).

These commissions and fees are shown in the Statement of Operations as "Other commissions and fees".

3. The Management Company may pay trailer fees for the distribution of the Fund.

For unit class "I-B", a fee is charged to cover the costs of fund administration (comprising the costs of the Management Company, the UCI Administrator and the Depositary). The costs for asset management and distribution are charged outside of the Fund under a separate contract concluded directly between the investor and UBS Asset Management Switzerland AG or one of its authorised representatives.

Costs relating to the services performed for unit classes I-X, K-X and U-X for asset management, fund administration (comprising the costs of the Management Company, the UCI Administrator and the Depositary) and distribution are covered by the compensation to which UBS Asset Management Switzerland AG is entitled under a separate contract with the investor.

Costs relating to the asset management services to be provided for unit classes "K-B" are covered by the compensation to which UBS Asset Management Switzerland AG or one of its authorised distributors is entitled under a separate agreement with the investor.

All costs that can be attributed to individual subfunds will be charged to these subfunds.

Costs that can be allocated to individual unit classes will be charged to those unit classes. Costs pertaining to some or all subfunds/unit classes will be charged to those subfunds/unit classes in proportion to their respective net asset values.

With regard to subfunds that may invest in other UCIs or UCITS under the terms of their investment policies, fees may be incurred both at the level of the subfund as well as at the level of the relevant target fund. The management fees (excluding performance fees) of the target fund in which the assets of the subfund are invested may amount to a maximum of 3%, taking into account any trailer fees.

Should a subfund invest in units of funds that are managed directly or by delegation by the Management Company itself or by another company linked to the Management Company through common management or control or through a substantial direct or indirect holding, no issue or redemption charges may be charged to the investing subfund in connection with these target fund units.

Details of the Fund's ongoing costs (or ongoing charges) can be found in the KIDs.

Note 3 – Taxe d'abonnement

The Fund is subject to Luxembourg law. In accordance with current legislation in the Grand Duchy of Luxembourg, the Fund is not subject to any Luxembourg withholding, income, capital gains or wealth taxes. From the total net assets of each subfund,

however, a tax of 0.05% p.a. ("taxe d'abonnement") payable to the Grand Duchy of Luxembourg is due at the end of every quarter (reduced taxe d'abonnement amounting to 0.01% p.a. for unit classes F, I-A1, I-A2, I-A3, I-A4, I-B, I-X and U-X).

This tax is calculated on the total net assets of each subfund at the end of every quarter. In the event that the conditions to benefit from the reduced 0.01% rate are no longer satisfied, all units in classes F, I-A1, I-A2, I-A3, I-A4, I-B, I-X and U-X may be taxed at the rate of 0.05%.

Subfunds may benefit from reduced taxe d'abonnement rates ranging from 0.01% to 0.04% p.a. for the portion of net assets that are invested into environmentally sustainable economic activities as defined in Article 3 of EU Regulation 2020/852 of 18 June 2020.

The taxable values provided are based on the most recently available data at the time they were calculated.

Unitholders are not required, under current tax law, to pay any income, gift, inheritance or other tax in Luxembourg, unless they are domiciled or resident or maintain their usual place of abode in Luxembourg, or were previously resident in Luxembourg and hold more than 10% of the units in the Fund.

The aforementioned represents a summary of the fiscal impact and makes no claim to be exhaustive. It is the responsibility of purchasers of units to seek information on the laws and regulations governing the purchase, possession and sale of units in connection with their place of residence and their nationality.

Note 4 – Income distribution

In accordance with Article 10 of the Management Regulations, once the annual accounts are closed the Management Company will decide whether and to what extent distributions are to be paid out by each subfund. The payment of distributions must not result in the net assets of the fund falling below the minimum amount for fund assets laid down by law of 2010. If distributions are made, payment will be effected within four months of the end of the financial year.

The details of the distributions are unaudited.

The Board of Directors is authorized to pay interim dividends and to suspend the payment of distributions.

An income equalisation amount will be calculated so that the distribution corresponds to the actual income entitlement.

Note 5 – Related party transactions

Connected persons in the context of this note are those defined in the SFC Code on Unit Trusts and Mutual Funds. All transactions entered into during the year between the subfunds and its connected persons were carried out in the normal course of business and on normal commercial terms.

a) Transactions on securities and derivative financial instruments

The volume of securities and derivative financial instruments undertaken via a broker that is an affiliate of the Management Company (except options), the Portfolio Manager, the Depositary or the Board of Directors for the financial year from 1 April 2024 to 31 March 2025 for the following subfunds licensed for sale in Hong Kong is:

UBS (Lux) Bond Fund	Volume of transactions in Securities and derivative financial instruments with related parties	As a % of the total of security transactions
– Asia Flexible (USD)	46 966 547.31 USD	1.65%
– Euro High Yield (EUR)	433 037 747.61 EUR	2.78%

	Commissions on transactions in Securities and derivative financial instruments	Average rate of
UBS (Lux) Bond Fund	with related parties	commission
– Asia Flexible (USD)	369.76 USD	0.00%
– Euro High Yield (EUR)	- EUR	0.00%

As disclosed in Note 10 – Transaction Costs, the transaction costs for fixed-income investments, exchange-traded futures contracts and other derivative contracts are included in the purchase and sale price of the investment and are therefore not listed individually here.

Volume of transactions in other securities (except equities, equity-like securities and derivative financial instruments)	As a % of the total of security
with related parties	transactions
21 332 615.33 USD	0.75%
76 145 491.56 EUR	0.49%
	in other securities (except equities, equity-like securities and derivative financial instruments) with related parties 21 332 615.33 USD

According to normal Market practice, no commissions have been charged to the fund on transactions on "other securities (except equities and equity-like securities)" with related parties.

Such transactions were entered in the ordinary course of business and on normal commercial terms.

For the conversion of the volume of transactions with related parties into subfund currency, the exchange rates of the financial statements as of 31 March 2025 were used.

b) Transactions in units of the fund

Connected persons may invest in a new subfund/unitclass for the purpose of providing seed capital ("Direct Investment"), with the intent of remaining invested until the subfund/unitclass has substantial net assets. Such investments are at arm's length and comply with all late trading/market timing prevention requirements. No connected person may invest for the purpose of exercising management or control over any Fund or the Company.

As of 31 March 2025, the Management Company and its affiliates / persons had not contributed any seed capital to the subfunds / unit classes registered in Hong Kong.

c) Holdings of the Board of Directors of the Management Company

The Management Company and its connected persons are allowed to subscribe for, and redeem, shares in the subfunds.

The Directors of the Management Company and the Directors of the Company had no holdings in the subfunds licensed for sale in Hong Kong as at 31 March 2025.

Note 6 – Soft commission arrangements

If permitted by the laws governing the Portfolio Manager, the Portfolio Manager and its affiliates may enter into soft commission arrangements with certain brokers which they engage in security transactions on behalf of the subfunds under which certain goods and services used to support investment decision making will be received without a direct payment in return. Such commissions are defined as soft dollars by the Hong Kong Securities and Futures Commission. This is only done when the transaction execution is consistent with the best execution standards, and it has been determined in good faith that the brokerage fee is reasonable in relation to the value of the execution and/or brokerage services provided by the broker.

Goods and services received solely included research services. The relative costs or benefits of research received from brokers are not allocated among particular clients or funds because it is believed that the research received is, in the aggregate, of assistance in fulfilling the Portfolio Manager and its affiliates' overall responsibilities to their clients or funds they manage. During the year from 1 April 2024 to 31 March 2025 there were no transactions executed with brokers having soft commission arrangements in place and therefore no related commissions have been paid by the subfunds for these transactions.

Note 7 – Commitments on Financial Futures and Swaps

Commitments on Financial Futures and Swaps per subfund and respective currency as of 31 March 2025 can be summarised as follows:

a) Financial Futures

UBS (Lux) Bond Fund	Financial Futures on bonds (purchased)	Financial Futures on bonds (sold)
– Asia Flexible (USD)	63 184 843.75 USD	- USD
– AUD	44 227 237.11 AUD	- AUD
– CHF Flexible	38 095 026.51 CHF	- CHF
– EUR Flexible	68 803 041.51 EUR	57 036 556.18 EUR
– Global Flexible	75 257 871.88 CHF	61 700 694.34 CHF

UBS (Lux) Bond Fund	Financial Futures on interest rates (purchased)	Financial Futures on interest rates (sold)
– EUR Flexible	10 044 104.00 EUR	10 260 252.73 EUR
– Global Flexible	13 713 171.43 CHF	14 069 183.91 CHF

The commitments on Financial Futures on bonds or index (if any) are calculated based on the market value of the Financial Futures (Number of contracts*notional contract size*market price of the futures).

b) Swaps

UBS (Lux) Bond Fund	Credit-Default -Swaps (purchased)	Credit-Default -Swaps (sold)
– Euro High Yield (EUR)	- EUR	15 403 444.80 EUR
UBS (Lux) Bond Fund	Swaps and forward swaps on interest rates (purchased)	Swaps and forward swaps on interest rates (sold)
– CHF Flexible	25 000 000.00 CHF	23 892 673.75 CHF
– EUR Flexible	72 983 035.69 EUR	115 517 755.85 EUR
– Global Flexible	122 150 899.58 CHF	195 906 519.10 CHF

Note 8 – Total Expense Ratio (TER)

This ratio was calculated in accordance with the Asset Management Association Switzerland (AMAS) "Guidelines on the calculation and disclosure of the TER" in the current version and expresses the sum of all costs and commissions charged on an ongoing basis to the net assets (operating expenses) taken retrospectively as a percentage of the net assets

TER for the last 12 months:

The TER for classes of units which were active less than a 12 month period are annualised.

Transaction costs, interest costs, securities lending costs and any other costs incurred in connection with currency hedging are not included in the TER.

Note 9 – Portfolio Turnover Rate (PTR)

The portfolio turnover has been calculated as follows:

(Total purchases + total sales) – (total subscriptions + total redemptions)

Average of net assets during the period under review

The portfolio turnover statistics are the following for the period under review:

UBS (Lux) Bond Fund	Portfolio Turnover Rate (PTR)
– Asia Flexible (USD)	182.18%
– AUD	-84.80%
– CHF Flexible	15.66%
– Convert Europe (EUR)	74.76%
– EUR Flexible	114.78%
– Euro High Yield (EUR)	89.23%
– Global Flexible	108.71%

Note 10 – Transaction costs

Transaction costs include brokerage fees, stamp duty, local taxes and other foreign charges if incurred during the period. Transaction fees are included in the cost of securities purchased and sold.

For the financial year ended on 31 March 2025, the fund incurred transaction costs relating to purchase or sale of investments in securities and similar transactions as follows:

UBS (Lux) Bond Fund	Transaction costs
– Asia Flexible (USD)	16 089.80 USD
– AUD	16 294.47 AUD
– CHF Flexible	2 602.88 CHF
– Convert Europe (EUR)	3 397.79 EUR
– EUR Flexible	15 061.88 EUR
– Euro High Yield (EUR)	8 071.80 EUR
– Global Flexible	23 936.23 CHF

Not all transaction costs are separately identifiable. For fixed income investments, forward currency contracts and other derivative contracts, transaction costs will be included in the purchase and sale price of the investment. Whilst not separately identifiable these transaction costs will be captured within the performance of each subfund.

Note 11 – Defaulted securities

In the event a bond is in default (hence not paying a coupon/ principal as specified in the offering documents) but a pricing quotes exists, a final payment is expected and the bond would therefore be kept in the portfolio.

There are securities that have defaulted in the past where no pricing quotes exists. These securities have been fully written off by the Fund. They are monitored by the management company that will allocate any return that might still arise (ie dividend) to the subfunds. They are not shown within the portfolio but separately in this note.

UBS (Lux) Bond Fund – Euro High Yield (EUR)

Share	Currency	Number
SNS BANK 06.250% 26/10/20	EUR	1 300 000.00
SNS REAAL FRN PERPET	EUR	1 000 000.00

Note 12 – Subsequent events

There were no events after the year-end that require adjustment to or disclosure in the Financial Statements.

Note 13 – Applicable law, place of performance and authoritative language

The Luxembourg District Court is the place of performance for all legal disputes between the unitholders, the Management Company and the Depositary. Luxembourg law applies. However, in matters concerning the claims of investors from other countries, the Management Company and/or the Depositary can elect to make themselves and the fund subject to the jurisdiction of the countries in which the fund units were bought and sold

The English version of these financial statements is the authoritative version and only this version was audited from the auditor. However, in the case of units sold to investors from the other countries in which fund units can be bought and sold, the Management Company and the Depositary may recognize approved translations (i.e. approved by the Management Company and the Depositary) into the languages concerned as binding upon themselves and the fund.

Note 14 – OTC-Derivatives and Securities Lending

If the Fund enters into OTC transactions, it may be exposed to risks related to the creditworthiness of the OTC counterparties: when the Fund enters into futures contracts, options and swap transactions or uses other derivative techniques it is subject to the risk that an OTC counterparty may not meet (or cannot meet) its obligations under a specific or multiple contracts. Counterparty risk can be reduced by depositing a security. If the Fund is owed a security pursuant to an applicable agreement, such security shall be held in custody by the Depositary in favour of the Fund. Bankruptcy and insolvency events or other credit events with the OTC counterparty, the Depositary or within their subdepositary/correspondent bank network may result in the rights or recognition of the Fund in connection with the security to be delayed, restricted or even eliminated, which would force the Fund to fulfill its obligations in the framework of the OTC transaction, in spite of any security that had previously been made available to cover any such obligation.

The Fund may lend portions of its securities portfolio to third parties. In general, lendings may only be effected via recognized clearing houses such as Clearstream International or Euroclear, or through the intermediary of prime financial institutions that specialise in such activities and in the modus specified by them. Collateral is received in relation to securities lent. Collateral is composed of high quality securities in an amount typically at least equal to the market value of the securities loaned.

UBS Europe SE, Luxembourg Branch acts as securities lending agent.

OTC-Derivatives*

The OTC-derivatives of the below subfunds with no collateral have margin accounts instead.

Appendix 1 – Global Exposure (unaudited)

Risk management

Risk management in accordance with the commitment approach and the value-at-risk approach is applied pursuant to the applicable laws and regulatory provisions.

Leverage

Leverage is defined pursuant to the applicable ESMA directives as the total of the notional values of the derivatives used by the respective subfund. According to this definition, leverage may result in artificially increased leverage amounts, as some derivatives that can be used for hedging purposes may be included in the calculation. Consequently, this information does not necessarily reflect the precise actual leverage risk that the investor is exposed to.

The Fund engages in Securities Financing Transactions (hereafter "SFT") (as defined in Article 3 of Regulation (EU) 2015/2365). Securities Financing transactions include repurchase transactions, securities or commodities lending and securities or commodities borrowing, buy-sell back transactions or sell-buy back transactions and margin lending transactions through its exposure on reverse repurchase agreements during the year. In accordance with Article 13 of the Regulation, information on securities lendings are detailed below:

Global Data

The following table details the value of securities lending as a proportion of the subfund's Net Assets Value as well as a proportion of the total lendable securities, as at 31 March 2025.

UBS (Lux) Bond Fund	Securities lent in % of Net Assets	Securities lent in % of Total Lendable Securities
– Asia Flexible (USD)	19.03%	20.51%
– CHF Flexible	2.57%	2.68%
– EUR Flexible	10.98%	11.67%
– Euro High Yield (EUR)	7.02%	7.73%
– Global Flexible	5.88%	6.32%

The total amount (absolute value) of the securities lent is disclosed in Note 14 – OTC-Derivatives and Securities Lending.

Data on collateral reused

Amount of collateral reused, compared with the maximum amount disclosed to investors: None

Cash collateral reinvestment income to the Fund: None

Data on income and expense for each type of SFT

All expenses relating to the execution of securities lending transactions and their collateralization are borne by the counterparties and the depositary.

Service providers that provide services to the Fund in the field of securities lending have the right to receive a fee in return for their services that is in line with the market standards. The amount of this fee is reviewed and adapted, where appropriate, on an annual basis. Currently, 60% of the gross revenue received from the securities lending transactions negotiated at arm's length is credited to the relevant subfund, while 30% of the gross revenue are retained as fees by UBS Switzerland AG as the securities lending service provider, responsible for the ongoing securities lending activities and collateral management, and 10% of the gross revenue are retained as fees by UBS Europe SE, Luxembourg Branch as the securities lending agent, responsible for the transactions management, ongoing operational activities and collateral safekeeping. All fees for operating the securities lending program are paid from the securities lending agents' portion of the gross income. This covers all direct and indirect costs incurred through securities lending activities. UBS Europe SE, Luxembourg Branch and UBS Switzerland AG are part of the UBS Group.

Appendix 4 – Remuneration Policy (unaudited)

The Board of Directors of UBS Asset Management (Europe) S.A. (the "Management Company" or the "AIFM") has adopted a remuneration framework (the "Framework") whose objectives are:

on one hand; to ensure that the remuneration framework is in line with the applicable laws and regulations, and more specifically with provisions defined under

- (i) the Luxembourg Law of 17 December 2010 on Undertakings for Collective Investment in Transferable Securities as amended from time to time (the "UCITS Law") transposing the UCITS Directive 2009/65/EC (the "UCITS Directive") as amended by Directive 2014/91/EU (the "UCITS V Directive");
- (ii) the Alternative Investment Fund Managers Directive ("AIFMD") 2011/61/EU, transposed into the Luxembourg AIFM Law dated from 12 July 2013, as amended from time to time;
- (iii) the ESMA's guidelines on sound remuneration policies under the UCITS Directive ESMA/2016/575 and ESMA's guidelines on sound remuneration policies under the AIFMD ESMA/2016/579 both published on 14 October 2016;
- (iv) the CSSF Circular 10/437 on Guidelines concerning the remuneration policies in the financial sector issued on 1 February 2010:
- (v) the Directive 2014/65/EU on markets in financial instruments (MiFID II);
- (vi) the Commission Delegated Regulation 2017/565/EU of 25 April 2016 supplementing Directive 2014/65/EU (MiFID II Level 2);
- (vii) Regulation (EU) 2019/2088 of the European parliament and of the council of 27 November 2019 on sustainability-related disclosures in the financial services sector ("SFDR");
- (viii) the CSSF Circular 23/841, transposing the ESMA Guidelines on certain aspects of the MiFID II remuneration requirements (ESMA 35-43-3565) (MiFID ESMA Guidelines).

and on the other hand, to comply with the Total Reward Principles of UBS Group.

The Framework is meant not to encourage excessive risk taking, to contain measures to avoid conflicts of interest, to be consistent with, and promote, sound and effective risk management, including sustainability risk where applicable, and to be consistent with the UBS Group business strategy, objectives and values.

More details about the Framework of the Management Company/the AIFM, which describes, but not limited to, how remuneration and benefits are determined, are available at https://www.ubs.com/ame-regulatorydisclosures. The Framework is subject to an annual review by the control functions of the Management Company/the AIFM after review and update by the Human Resources department; and is approved by the Board of Directors of the Management Company/the AIFM. Last approval by the Board of Directors took place on 25 September 2024. No material change was made to the Framework.

Application of the requirements and remuneration disclosure

In accordance with the Article 151 of the UCITS Law and Article 20 of the AIFM Law, the Management Company/the AIFM is required to disclose at least annually certain information concerning its remuneration framework and the practices for its Identified Staff.

The Management Company/the AIFM complies with the UCITS Directive/AIFMD principles in a way and to the extent that is appropriate to its size, internal organisation and the nature, scope and complexity of its activities.

Considering the total size of funds under management, both UCITS and AIFs although a significant portion is not complex or risky investment, the Management Company/the AIFM judges that the proportionality principle may not be applicable at the level of the company but at the level of the Identified Staff.

Appendix 4 – Remuneration Policy (unaudited)

By application of the proportionality principle for the Identified Staff, the following requirements on pay-out processes for Identified Staff are not applied:

- The payment of variable remuneration in instruments related mainly to the funds in relation to which they perform their activities;
- Deferral requirements;
- Retention periods;
- Incorporation of ex-post risk factors (i.e. malus or clawback arrangements).

The deferral requirements remain however applicable when the annual variable remuneration of Identified Staff exceeds the de minimis threshold adopted by the Management Company or where an employee's total annual compensation is exceeding the threshold defined under the UBS Group Compensation Framework; the variable compensation will be treated in line with the plan rules defined under the UBS Group Compensation Framework.

Remuneration of Management Company/AIFM staff

The table below provides an overview of the aggregate total remuneration granted to employed staff as of 31 December 2024 and remunerated board members of the Management Company:

EUR 1 000	Fixed remuneration	Variable remuneration	Total remuneration ¹	No of beneficiaries
All staff	15 697	4 595	20 292	134
- whereof Identified Staff	9 107	3 578	12 685	61
- thereof Senior Management ²	2 820	1 447	4 267	16
- thereof Other Identified Staff	6 287	2 131	8 417	45

¹ As per the proportionality principle applied to the Management Company, the overview reflects key aspects of total remuneration and excludes benefit, pension and severance remuneration data

Remuneration of the delegates' identified staff

As market or regulatory practice develops, the Portfolio Manager(s) may consider it appropriate to make changes to the way in which quantitative remuneration disclosures are calculated. Where such changes are made and in case of changes to the identified staff and/or in case of change in the number of subfunds over the year, this may result in disclosures in relation to the Fund not being comparable to the disclosures made in the prior year.

For the year ending 31 December 2024, the aggregate total remuneration paid by the delegated Investment Manager to its Identified Staff in relation to the Fund amounted to EUR 253 219, of which EUR 177 838 represented the variable remuneration (8 beneficiaries).

² Senior Management includes the CEO, the Conducting Officers, the Head of Compliance, the Branch Managers and Board of Director members. Of which, 2 BoD members are employed by other UBS entities and are not eliqible to any compensation for this mandate.

ANNFX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: UBS (Lux) Bond Fund - Asia Flexible (USD) **Legal entity identifier:** 549300SOJR6THZPWHD47

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective? Yes It made sustainable It promoted Environmental/Social (E/S) characteristics and investments with an while it did not have as its objective a environmental objective: ___% sustainable investment, it had a proportion in economic activities that of % of sustainable investments qualify as environmentally with an environmental objective in economic sustainable under the EU activities that qualify as environmentally Taxonomy sustainable under the EU Taxonomy in economic activities that do with an environmental objective in not qualify as environmentally economic activities that do not qualify as sustainable under the EU environmentally sustainable under the EU Taxonomy Taxonomy with a social objective It made sustainable investments It promoted E/S characteristics, but did not make any sustainable investments with a social objective: ___%

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

A sustainability profile that is higher than its benchmark's sustainability profile or a minimum of 51% of assets invested in issuers with sustainability profiles in the top half of the UBS ESG Blended score scale.

The extent to which the environmental and/or social characteristics promoted by this financial product is met is stated in the answer to the question "How did the sustainability indicators perform?" of this annex.

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

The sustainability profile of the financial product is measured by its benchmark's profile and the corresponding results are calculated at least once a year from the respective monthly profiles.

How did the sustainability indicators perform?

During the reference period:

- The UBS ESG Blended score of the financial product was higher than that of its benchmark.
 - UBS ESG Blended score of the financial product: 5.23
 - UBS ESG Blended score of the benchmark: 4.93
- 47.70 % of assets were invested in issuers with a sustainability profile in the top half of the benchmark.

...and compared to previous periods?

2023/2024: The following characteristic was promoted by the financial product:

- The UBS ESG Blended score of the financial product was higher than that of its benchmark.
 - UBS ESG Blended score of the financial product: 5.16
 - UBS ESG Blended score of the benchmark: 4.79
- 83% of assets were invested in issuers with a sustainability profile in the top half of the benchmark.

2022/2023: From 30 September 2022 onwards, the following characteristic was promoted by the financial product:

- The UBS ESG Blended score of the financial product was higher than that of its benchmark.
 - UBS ESG Blended score of the financial product: 4.75
 - UBS ESG Blended score of the benchmark: 4.57
- 65.95% of assets were invested in issuers with a sustainability profile in the top half of the benchmark
- What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Not applicable.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

——— How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts (the "PAI") are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption, and anti-bribery matters. UBS integrates PAI indicators in its decision making process. At present, the following PAI indicators are considered by means of exclusions from the investment universe:

- 1.4 "Exposure to companies active in the fossil fuel sector":
- Companies that exceed a certain revenue threshold (as per the UBS AM Sustainability Exclusion Policy) from thermal coal mining and its sale to external parties or from oil sands extraction are excluded.
- 1.10 "Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises":
- Companies violating the United Nations Global Compact (UNGC) principles which do not demonstrate credible corrective action as determined by UBS-AM's Stewardship Committee are excluded
- 1.14 "Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)":
- -UBS-AM does not invest in companies involved in: cluster munitions, anti-personnel mines or chemical and biological weapons, nor does it invest in companies in breach of the Treaty on the Non- Proliferation of Nuclear Weapons. UBS-AM considers a company to be involved in controversial weapons if the company is involved in development, production, storage, maintenance or transport of controversial weapons, or is a majority shareholder (>50% ownership stake) of such a company.

The link to the Sustainability Exclusion Policy can be found in the section headed "Sustainability Exclusion Policy" in the main body of the Sales Prospectus.

Information on consideration of PAIs on sustainability factors is also available in the sub-fund's annual report.

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 31.03.2025

^{*}Minor differences with "Statement of Investments in Securities" might occur due to rounding and valuation differences in production systems.

What was the proportion of sustainability-related investments?

Not aaplicable

share of investments in specific assets.

What was the asset allocation?

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31.03.2025.

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities

directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are

activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

In which economic sectors were the investments made?

Please refer to the section "Structure of the Securities Portfolio" of the relevant sub-fund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- turnover
 reflecting the
 share of revenue
 from green
 activities of
 investee
 companies.
- expenditure
 (CapEx) showing
 the green
 investments made
 by investee
 companies, e.g. for
 a transition to a
 green economy.
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

sustainable

investments with

objective that do

economic activities

under Regulation (EU) 2020/852.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

- * For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.
- What was the share of investments made in transitional and enabling activities?
- How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Included in "#2 Other" are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/or exclusion criteria are monitored to ensure adherence.

How did this financial product perform compared to the reference benchmark?

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

- How does the reference benchmark differ from a broad market index? Not applicable.
- How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

- How did this financial product perform compared with the reference benchmark?
 Not applicable.
- How did this financial product perform compared with the broad market index?
 Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Did this financial product have a sustainable investment objective?

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow

good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be

aligned with the Taxonomy or not.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Included in "#2 Other" are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/or exclusion criteria are monitored to ensure adherence.

How did this financial product perform compared to the reference benchmark?

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

- How does the reference benchmark differ from a broad market index? Not applicable.
- How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

- How did this financial product perform compared with the reference benchmark?
 Not applicable.
- How did this financial product perform compared with the broad market index? Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: UBS (Lux) Bond Fund – EUR Flexible Legal entity identifier: 549300254KENPP1NLG44

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective? Yes No It made sustainable It promoted Environmental/Social (E/S) characteristics and investments with an while it did not have as its objective a environmental objective: ___% sustainable investment, it had a proportion of in economic activities that ___% of sustainable investments qualify as environmentally sustainable under the EU with an environmental objective in economic activities that qualify as environmentally Taxonomy sustainable under the EU Taxonomy in economic activities that do with an environmental objective in not qualify as environmentally economic activities that do not qualify as sustainable under the EU environmentally sustainable under the EU Taxonomy Taxonomy with a social objective It made sustainable investments It promoted E/S characteristics, but did not make any sustainable investments with a social objective: ___%

investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

Sustainable

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities.

That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

- A sustainability profile that is higher than its benchmark's sustainability profile or a minimum of 51% of
 assets invested in issuers with sustainability profiles in the top half of the UBS Blended ESG Score scale.
- The percentage of sub-fund assets invested in sovereign bonds from issuers showing "controversies" on the UBS ESG Risk Dashboard is lower than the percentage in the benchmark.

The extent to which the environmental and/or social characteristics promoted by this financial product is met is stated in the answer to the question "How did the sustainability indicators perform?" of this annex.

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

The sustainability profile of the financial product is measured by its benchmark's profile and the corresponding results are calculated at least once a year from the respective monthly profiles.

How did the sustainability indicators perform?

During the reference period, characteristic 1:

- The UBS Blended ESG Score of the financial product was lower than that of its benchmark.
 - UBS Blended ESG Score of the financial product: 6.83
 - UBS Blended ESG Score of the benchmark: 7.13
- 82.05% of assets were invested in issuers with a sustainability profile in the top half of the benchmark.

During the reference period, characteristic 2:

- The percentage of sub-funds assets invested in sovereign bonds from issuers showing "controversies" on the UBS ESG Risk Dashboard is higher than that of its benchmark.
 - Assets invested in sovereign bonds from issuers showing "controversies" of the financial product: 0.00%
 - Assets invested in sovereign bonds from issuers showing "controversies" of henchmark: 0.00%

The higher percentage of assets invested in sovereign bonds from issuers showing "controversies" is explained by the sub-fund's holdings in sanctioned Russian securities. The Russian securities cannot be sold due to sanctions imposed by the Office of Foreign Assets Control (OFAC). At the time of investment the issuers were not subject to OFAC sanctions and were not showing "controversies" on the UBS ESG Risk Dashboard. The current positions will be kept unchanged in the portfolio until the sanctions are lifted.

Excluding the sanctioned Russian securities, the percentage of sub-fund assets invested in sovereign bonds from issuers showing "controversies" on the UBS ESG Risk Dashboard is lower than that of its benchmark, as per below:

- Assets invested in sovereign bonds from issuers showing "controversies" of the financial product: 0.00%
- Assets invested in sovereign bonds from issuers showing "controversies" of benchmark: 0.02%

...and compared to previous periods?

2023/2024: During the reference period, characteristic 1:

- The UBS Blended ESG Score score of the financial product was lower than that of its benchmark.
 - UBS Blended ESG Score of the financial product: 6.76

- UBS Blended ESG Score of the benchmark: 7.09
- 82.46% of assets were invested in issuers with a sustainability profile in the top half of the benchmark.

During the reference period, characteristic 2:

- The percentage of sub-funds assets invested in sovereign bonds from issuers showing "controversies" on the UBS ESG Risk Dashboard is higher than that of its benchmark.
 - Assets invested in sovereign bonds from issuers showing "controversies" of the financial product: 0.12%
 - Assets invested in sovereign bonds from issuers showing "controversies" of benchmark: 0.02%

The higher percentage of assets invested in sovereign bonds from issuers showing "controversies" is explained by the sub-fund's holdings in sanctioned Russian securities. The Russian securities cannot be sold due to sanctions imposed by the Office of Foreign Assets Control (OFAC). At the time of investment the issuers were not subject to OFAC sanctions and were not showing "controversies" on the UBS ESG Risk Dashboard. The current positions will be kept unchanged in the portfolio until the sanctions are lifted

Excluding the sanctioned Russian securities, the percentage of sub-fund assets invested in sovereign bonds from issuers showing "controversies" on the UBS ESG Risk Dashboard is lower than that of its benchmark, as per below:

- Assets invested in sovereign bonds from issuers showing "controversies" of the financial product: 0.00%
- Assets invested in sovereign bonds from issuers showing "controversies" of benchmark: 0.02%

2022/2023: From 30 September 2022 onwards, the following characteristics were promoted by the financial product:

Characteristic 1:

- The UBS Blended ESG Score of the financial product was lower than that of its benchmark.
 - UBS Blended ESG Score of the financial product: 6.55
 - UBS Blended ESG Score of the benchmark: 7.10
- 78.22% of assets were invested in issuers with a sustainability profile in the top half of the benchmark.

Characteristic 2:

- The percentage of sub-funds assets invested in sovereign bonds from issuers showing "controversies" on the UBS ESG Risk Dashboard is higher than that of its benchmark.
 - Assets invested in sovereign bonds from issuers showing "controversies" of the financial product: 0.84%
 - Assets invested in sovereign bonds from issuers showing "controversies" of benchmark: 0.03%

The higher percentage of assets invested in sovereign bonds from issuers showing "controversies" is explained by the sub-fund's holdings in sanctioned Russian securities. The Russian securities cannot be sold due to sanctions imposed by the Office of Foreign Assets Control (OFAC). At the time of investment

the issuers were not subject to OFAC sanctions and were not showing "controversies" on the UBS ESG Risk Dashboard. The current positions will be kept unchanged in the portfolio until the sanctions are lifted

Excluding the sanctioned Russian securities, the percentage of sub-fund assets invested in sovereign bonds from issuers showing "controversies" on the UBS ESG Risk Dashboard is lower than that of its benchmark, as per below:

- Assets invested in sovereign bonds from issuers showing "controversies" of the financial product: 0.00%
- Assets invested in sovereign bonds from issuers showing "controversies" of benchmark: 0.02%
- What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Not applicable.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts (the "PAI") are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption, and anti-bribery matters. UBS integrates PAI indicators in its decision making process. At present, the following PAI indicators are considered by means of exclusions from the investment

- 1.4 "Exposure to companies active in the fossil fuel sector":
- Companies that exceed a certain revenue threshold (as per the UBS AM Sustainability Exclusion Policy) from thermal coal mining and its sale to external parties or from oil sands extraction are excluded.
- 1.10 "Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises":
- Companies violating the United Nations Global Compact (UNGC) principles which do not demonstrate credible corrective action as determined by UBS-AM's Stewardship Committee are excluded
- 1.14 "Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)":

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

-UBS-AM does not invest in companies involved in: cluster munitions, anti-personnel mines or chemical and biological weapons, nor does it invest in companies in breach of the Treaty on the Non- Proliferation of Nuclear Weapons. UBS-AM considers a company to be involved in controversial weapons if the company is involved in development, production, storage, maintenance or transport of controversial weapons, or is a majority shareholder (>50% ownership stake) of such a company.

The link to the Sustainability Exclusion Policy can be found in the section headed "Sustainability Exclusion Policy" in the main body of the Sales Prospectus.

Information on consideration of PAIs on sustainability factors is also available in the sub-fund's annual report.

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 31.03.2025

Largest Investments	Sector	% Net Assets*	Country
New Zealand Government Bond	Countries & central governments	8.35	New Zealand

^{*}Minor differences with "Statement of Investments in Securities" might occur due to rounding in production system

Asset allocation

describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities

directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are

activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance. What was the proportion of sustainability-related investments?

Not applicable.

What was the asset allocation?

- *Minor differences with "Statement of Investments in Securities" might occur due to rounding and valuation differences in production systems.
- In which economic sectors were the investments made?

Please refer to the section "Structure of the Securities Portfolio" of the relevant sub-fund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- turnover
 reflecting the
 share of revenue
 from green
 activities of
 investee
 companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

- * For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.
- are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.
- What was the share of investments made in transitional and enabling activities?

 Not applicable.
- How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Included in "#2 Other" are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/or exclusion criteria are monitored to ensure adherence.

How did this financial product perform compared to the reference benchmark?

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

- How does the reference benchmark differ from a broad market index?
 Not applicable.
- How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

- How did this financial product perform compared with the reference benchmark? Not applicable.
- How did this financial product perform compared with the broad market index?

 Not applicable.

Reference benchmarks are

indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

 - UBS ESG Risk Dashboard of the financial product: 0.72%
 - UBS ESG Risk Dashboard of benchmark: 0.13%

The higher percentage of assets invested in sovereign bonds from issuers showing "controversies" is explained by the sub-fund's holdings in sanctioned Russian securities. The Russian securities cannot be sold due to sanctions imposed by the Office of Foreign Assets Control (OFAC). At the time of investment the issuers were not subject to OFAC sanctions and were not showing "controversies" on the UBS ESG Risk Dashboard. The current positions will be kept unchanged in the portfolio until the sanctions are lifted

Excluding the sanctioned Russian securities, the percentage of sub-fund assets invested in sovereign bonds from issuers showing "controversies" on the UBS ESG Risk Dashboard is lower than that of its benchmark, as per below:

- UBS ESG Risk Dashboard of the financial product: 0.00%
- UBS ESG Risk Dashboard of benchmark: 0.13%
- What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Not applicable.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

— Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts (the "PAI") are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption, and anti-bribery matters. UBS integrates PAI indicators in its decision making process.

At present, the following PAI indicators are considered by means of exclusions from the investment universe:

- 1.4 "Exposure to companies active in the fossil fuel sector":
- Companies that exceed a certain revenue threshold (as per the UBS AM Sustainability Exclusion Policy) from thermal coal mining and its sale to external parties or from oil sands extraction are excluded.
- 1.10 "Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises":
- Companies violating the United Nations Global Compact (UNGC) principles which do not demonstrate credible corrective action as determined by UBS-AM's Stewardship Committee are excluded
- 1.14 "Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)":
- -UBS-AM does not invest in companies involved in: cluster munitions, anti-personnel mines or chemical and biological weapons, nor does it invest in companies in breach of the Treaty on the Non- Proliferation of Nuclear Weapons. UBS-AM considers a company to be involved in controversial weapons if the company is involved in development, production, storage, maintenance or transport of controversial weapons, or is a majority shareholder (>50% ownership stake) of such a company.

The link to the Sustainability Exclusion Policy can be found in the section headed "Sustainability Exclusion Policy" in the main body of the Sales Prospectus.

Information on consideration of PAIs on sustainability factors is also available in the sub-fund's annual report.

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 31.03.2025

Largest Investments	Sector	% Net Assets*	Country
New Zealand Government Bond	Countries & central governments	10.11	New Zealand
Freddie Mac Pool	Mortgage & funding institutions	7.64	United States
Fannie Mae Pool	Mortgage & funding institutions	6.85	United States
China Government Bond	Countries & central governments	3.47	China
China Development Bank	Banks & credit institutions	2.56	China
Brazil Notas do Tesouro Nacional Serie F	Countries & central governments	2.44	Brazil
Japan Government Forty Year Bond	Countries & central governments	2.39	Japan
Ginnie Mae II Pool	Mortgage & funding institutions	2.10	United States
Japan Government Twenty Year Bond	Countries & central governments	1.87	Japan
Raiffeisen Bank International AG	Banks & credit institutions	1.59	Austria

	Computer hardware & network		
Concentrix Corp	equipment providers	1.06	United States

^{*}Minor differences with "Statement of Investments in Securities" might occur due to rounding in production system

Asset allocation

describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities

directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are

activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

What was the proportion of sustainability-related investments?

Not applicable

What was the asset allocation?

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31.03.2025

In which economic sectors were the investments made?

Please refer to the section "Structure of the Securities Portfolio" of the relevant sub-fund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

Taxonomy-aligned activities are expressed as a share of:

- turnover
 reflecting the
 share of revenue
 from green
 activities of
 investee
 companies.
- capital
 expenditure
 (CapEx) showing
 the green
 investments made
 by investee
 companies, e.g. for
 a transition to a
 green economy.
- operational

 expenditure

 (OpEx) reflecting

 green operational
 activities of
 investee
 companies.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

- * For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.
 - What was the share of investments made in transitional and enabling activities?

 Not applicable.
 - How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Included in "#2 Other" are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/or exclusion criteria are monitored to ensure adherence.

How did this financial product perform compared to the reference benchmark?

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

- How does the reference benchmark differ from a broad market index?
 Not applicable.
- How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

- How did this financial product perform compared with the reference benchmark?
 Not applicable.
- How did this financial product perform compared with the broad market index?
 Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.
