BlackRock Global Funds

3 November 2022

Dear Shareholder

We continually review our fund range to ensure that the investment characteristics and positioning of our funds remain both relevant and consistent with the current investment environment and expectations of our clients. After careful consideration, we, BlackRock Asset Management North Asia Limited, as Hong Kong Representative of BlackRock Global Funds (the "Company") are writing to notify you of changes that will be made to certain sub-funds of the Company (ISINs as listed in the Appendix I to this letter) (the "Funds").

The changes set out in this letter will take effect from 15 December 2022 (the "Effective Date") and this letter forms notice to shareholders of the facts set out below.

Terms not defined herein shall have the same meaning as set out in the prospectus currently in force (available at www.blackrock.com.hk[1]) (the "Prospectus").

1. ESG Prospectus Changes

Changes to the statement of investment objectives and policy of the Funds

From the Effective Date, the investment strategy of the below listed Funds will change to adopt Environmental, Social and Governance ("ESG") principles, or, where specified, the investment strategy of certain Funds which already apply ESG commitments shall be further enhanced in this regard.

The changes proposed in this letter seek to better align the Funds with the expectations of our shareholders and future clients in light of ongoing developments within the asset management sector, specifically in relation to ESG investing with the overall aim of seeking to provide a comprehensive and sustainable approach to investing.

As a result of the changes contemplated by this letter and from the Effective Date the Continental European Flexible Fund; the Global Equity Income Fund; the Global Government Bond Fund; the Sustainable World Bond Fund; the Systematic China A-Shares Opportunities Fund; the Systematic Global SmallCap Fund (to be renamed as Systematic Sustainable Global SmallCap Fund); the US Flexible Equity Fund; and the US Growth Fund, initially classified as SFDR Article 6 Funds, will be classified as SFDR Article 8 Funds; and the Sustainable Global Infrastructure Fund, initially classified as SFDR Article 8 Fund, will be classified as SFDR Article 9 Fund.

A. Reclassification of Systematic Global SmallCap Fund and World Bond Fund as ESG funds

From the Effective Date, as part of the change of strategy, the Systematic Global SmallCap Fund (to be renamed as Systematic Sustainable Global SmallCap Fund) will seek to achieve its investment objective in a manner consistent with the principles of sustainable investing and to deliver a weighted average ESG rating higher than the ESG rating of the MSCI ACWI Small Cap Index (the "Index") after eliminating at least 20% of the least well-rated securities from the Index, and a lower carbon emissions intensity score than its Index. The Fund's ESG profile will be enhanced by applying the BlackRock EMEA Baseline Screens and adding a commitment to invest in Sustainable Investments.

From the Effective Date, as part of the change of strategy, the World Bond Fund (to be renamed as Sustainable World Bond Fund) will seek to achieve its investment objective in a manner consistent with the principles of ESG focused investing. The Fund will also

[1] Investors should note that the website has not been authorised or reviewed by the SFC.

employ a proprietary methodology to assess investments based on the extent to which they are associated with positive or negative externalities as well as a commitment to invest in "green bonds" (as defined by its proprietary methodology which is guided by the International Capital Markets Association Green Bond Principles). The Fund's ESG profile will be enhanced by applying the BlackRock EMEA Baseline Screens and adding a commitment to invest in Sustainable Investments.

"Sustainable Investment" means an investment which BlackRock considers to be a sustainable investment, having regard to applicable law and regulation, and which is assessed as doing no significant harm.

It is intended that the changes to these Funds will not have material change to the risk and return profile of the Funds. The Funds will however be subject to ESG investment policy risk, which is not expected to affect the overall risk profile of the Fund.

ESG investment policy risk refers to the risk that the use of ESG criteria may affect the Fund's investment performance and, as such, the Fund may perform differently compared to similar funds that do not use such criteria. ESG-based exclusionary criteria used in the Fund's investment policy may result in the Fund foregoing opportunities to buy certain securities when it might otherwise be advantageous to do so, and/or selling securities due to their ESG characteristics when it might be disadvantageous to do so. There is a lack of a standardised taxonomy on ESG criteria. The evaluation methodology adopted by different investment managers may vary. In evaluating a security or issuer based on ESG criteria, the Investment Adviser is dependent upon information and data from internal research and/or third party ESG providers, which may be incomplete, inaccurate, inconsistent or unavailable. As a result, there is a risk that the Investment Adviser may incorrectly assess a security or issuer. Investment selection of the Fund involves subjective judgement of the Investment Adviser. Hence, there is also a risk that the Investment Adviser may not apply the relevant ESG criteria correctly or that the Fund may gain limited exposure to issuers which may not be consistent with the relevant ESG criteria used by the Fund. Please refer to the Prospectus for further details of the ESG investment policy risk.

The exact changes to the Funds' investment policies are shown in the Appendix I and Appendix II to this letter.

The changes will not materially prejudice the rights or interests of the shareholders of the Funds. Apart from the changes described above, the operation and/or manner in which the Funds is being managed will remain unchanged and there will be no impacts on the existing shareholders of the Funds.

B. Changes to other Funds listed below

The enhancements to the investment strategy of the below listed Funds are described as follows:

Funds	Commitments from the Effective Date
Global Equity Income Fund US Flexible Equity Fund US Growth Fund Continental European Flexible Fund	The Funds will apply the following ESG commitments: Companies are evaluated by the Investment Adviser based on their ability to manage the risks and opportunities associated with ESG factors and their ability to strategically manage longer-term issues surrounding ESG and the potential impact this may have on a company's financial performance. The Investment Adviser conducts enhanced analysis on all companies that it considers to have heightened ESG risks, higher carbon emissions and controversial business activities, In such circumstances, the Investment Adviser may determine an engagement agenda for discussion with those companies in seeking to improve their ESG credentials. To undertake this analysis, the Investment Adviser uses its fundamental insights and may use data provided by external ESG data providers, and proprietary models. The Fund will apply exclusionary screens, the BlackRock EMEA Baseline Screens, to the companies within the investment universe. The Investment Adviser then applies its proprietary "Fundamental Insights" methodology (the "Methodology", see further detail on https://www.blackrock.com/corporate/literature/publication/blackrock-baseline-screens-in-europe-middleeast-and-africa.pdf[1]) to identify companies that would otherwise have been excluded by the exclusionary screens but that it considers to be appropriate for investment on the basis that they are "in transition" and focused on meeting sustainability criteria over time, or are otherwise meeting other criteria in accordance with the Methodology requirements. The Methodology uses quantitative and qualitative inputs generated by the Investment Adviser, its affiliates and/or one or more external research providers. Where a company is identified by the Investment Adviser as meeting the criteria in the Methodology for investment and is approved in accordance with the Methodology, it is eligible to be held by the Fund. Such companies are regularly

Funds	Commitments from the Effective Date
	reviewed. In the event that the Investment Adviser determines that a company fails the criteria in the Methodology (in whole or in part and at any time) or it is not engaging with the Investment Adviser on a satisfactory basis, it will be considered for divestment by the Fund in accordance with the Methodology.
ESG Flex Choice Cautious Fund ESG Flex Choice Growth Fund ESG Flex Choice Moderate Fund	The ESG commitments have been updated as follows: The Fund will invest at least 80% of total assets in CIS which pursue a positive ESG objective or outcome and do not adopt ESG exclusionary screens solely as their ESG policy, or, in the case of government bond exposures, track benchmark indices incorporating ESG requirements or are comprised of bonds issued by governments that have an ESG sovereign rating of at least BB (as defined by third party ESG data vendors), and in both cases being CIS with status aligned with the SFDR Regulation, in particular with the requirements set out under Article 8 or 9 of the SFDR Regulation. Where determined appropriate, the Fund may invest directly in derivatives, cash and near-cash instruments. The Investment Adviser intends the Fund to have a carbon emissions intensity score that is 20% lower and a weighted average ESG score higher than their respective composite benchmark.
Global Government Bond Fund	Introduction of the following ESG commitments: The Fund's existing ESG profile will be enhanced by adding a commitment to invest in Sustainable Investments. The Fund will also employ a proprietary methodology to assess investments based on the extent to which they are associated with positive or negative externalities as well as a commitment to invest in "green bonds" (as defined by its proprietary methodology which is guided by the International Capital Markets Association Green Bond Principles).
Sustainable Global Infrastructure Fund	Introduction of the following ESG commitments: The Investment Adviser will look at the targets and the indicators for certain UN SDG namely SDG3 (Good Health& Well-Being), SDG 6 (Clean Water& Sanitation) SDG 7 (Affordable& Clean Energy), SDG 9 (Industry, Innovation &Infrastructure) SDG 11 (Sustainable Cities &Communities) and SDG 13 (Climate Action) and identify those that are supported by the sustainable infrastructure theme. The Investment Adviser screens the investment universe to invest only in companies that align with and advance at least one of the UN SDGs. As part of the climate objective of the Fund, the Investment Adviser seeks to invest in companies that enhance the energy transition in line with objectives SDG 7 (Affordable and Clean Energy) and SDG 13 (Climate Action). In both cases the assessment of the level of involvement in each activity may be based on percentage of revenue, a defined total revenue threshold, or any connection to a restricted activity regardless of the amount of revenue received. The Fund is a Stock Connect Fund and may invest directly up to 20% of its total assets in the PRC by investing via the Stock Connects. Thirdly, the Investment Adviser conducts an enhanced analysis on all companies selected based on the proprietary methodology of its in-house ESG framework, of which the internally generated data produces ESG scores for the target companies. To undertake this analysis, the Investment Adviser may also use data provided by external ESG data providers and/or local intelligence. In this respect, companies are evaluated by the Investment Adviser based on their ability to manage the risks and opportunities associated with the infrastructure theme and their ESG risk and opportunity credentials, such as their leadership and governance framework, which is considered essential for sustainable growth, their ability to strategically manage longer-term issues surrounding ESG and the potential impact this may have on a company's financials. Based on the in-depth assessment of the abovementioned factors, the Investment Adviser calculates an ESG score for each portfolio company. The assessment of the level of engagement in each activity may be based on percentage of revenue, a defined total revenue threshold, or any connection to a restricted activity regardless of the amount of revenue received. More than 90% of the issuers of securities (excluding MMFs) the Fund invests in are ESG rated or have been analysed for ESG purposes. The investment strategy reduces the investable universe of the Fund compared to all securities in the Fund's investment universe by at least 20%.

Funds	Commitments from the Effective Date
	The Fund may use derivatives for investment purposes and for the purposes of efficient portfolio management. The Fund may gain limited indirect exposure (through, including but not limited to, derivatives and shares or units of CIS) to issuers with exposures that do not meet the ESG criteria described above.
ESG Multi-Asset Fund	Introduction of the following ESG commitments: The Fund seeks to invest in Sustainable Investments and its total assets will be invested in accordance with the ESG Policy described below. More than 90% of the issuers of securities the Fund invests in are ESG rated or have been analysed for ESG purposes. The Fund's ESG score will be calculated as the total of each issuer ESG score (where applicable), weighted by its market value. The Investment Adviser will create a portfolio that seeks to deliver a superior ESG outcome versus the Index and the weighted average ESG rating of the Fund will be higher than the ESG rating of the Index. The Investment Adviser intends the Fund to have a carbon emissions intensity score that is lower than the Index.

Impact of the Changes
The changes to the Funds listed in under "Changes to other Funds listed below" will provide a more ESG focused investment strategy. There will be no material change to the risk and return profile of the respective Funds listed thereunder. Save as described above, there will be no change to the operation and/or manner in which the Funds are being managed. The changes will not materially prejudice the rights or interests of the shareholders of the Funds and there will be no impacts on the existing shareholders of the Funds.

For the avoidance of doubt, the Global Equity Income Fund, the US Flexible Equity Fund, the US Growth Fund, the Continental European Flexible Fund and the Global Government Bond Fund will be subject to ESG Investment Policy Risk, but such risk is not considered a key risk and is not expected to affect the overall risk profile and features of these Funds.

2. Other Prospectus Changes

Contingent Deferred Sales Charge

From the Effective Date, the Contingent Deferred Sales Charge (the "CDSC") will be set to zero for all the Funds of the Company. This is to align the Prospectus on the fact that no such CDSC was ever charged to shareholders of the Company.

French and Belgian sustainability labels

The Belgian Financial Sector Federation ("Febelfin") has a quality standard for sustainable and socially responsible financial products. The quality standard is a normative framework stipulating the criteria the products should meet such as ESG due diligence processes, sustainability policies and screening criteria, exclusion of harmful activities and transparency. Financial products complying with the quality standard are awarded the sustainability label.

The following Funds have been awarded the Febelfin label of the Belgian Central Labelling Agency (CLA):

Circular Economy Fund, ESG Multi-Asset Fund, Future Of Transport Fund, Nutrition Fund, and Sustainable Energy Fund.

The Socially Responsible Investment (SRI) label has been created by the French Ministry for the Economy and Finance and aims to identify financial products with measurable results by using a socially responsible investment methodology. Obtaining the label is subject to specific requirements and based on a number of metrics such as the inclusion of ESG criteria during the fund's development and existence, and ESG engagement policies for the companies in which the financial products invest.

The following Funds have been awarded the French government SRI label by the Comité Français d'Accréditation (Cofrac): Circular Economy Fund, ESG Multi-Asset Fund, Future Of Transport Fund, Nutrition Fund, and Sustainable Energy Fund.

Changes to the Future Of Transport Fund

From the Effective Date, the statement of investment objectives and policy of the Future Of Transport Fund will be amended to further focus on companies that generate revenues from the transition to a lower carbon transportation system such as electric, autonomous and/or digitally connected vehicles.

[The amendments have been proposed for clarity. There will be no material change to the existing investment objective and policy of the Fund in connection with this change.]

Changes to the ESG Multi Asset Fund
From the Effective Date, the composite benchmark of the ESG Multi Asset Fund will be partly updated with respect to the fixed Income component from 50% MSCI World Index and 50% FTSE World Government Bond Index hedged to EUR to 50% MSCI World Index and 50% Bloomberg Global Aggregate Bond Index hedged to EUR (the "*Index*").

The Investment Adviser was applying the Fund's ESG Policy in order to reduce the portfolio of the Fund compared to the Index by at least 20%. From the Effective Date, the Investment Adviser will apply an ESG rating on the issuers whose securities are invested in by the Fund and the weighted average ESG rating of the Fund will be higher than the ESG rating of the Index after eliminating at least 20% of the least well-rated securities from the Index.

There will be no material change to the risk and return profile of the Fund in connection with this change.

From the Effective Date, the expected level of leverage of the ESG Multi Asset Fund will be decreased from 300% to 175% of its Net Asset Value. For the avoidance of doubt, the net derivative exposure of the Fund is still expected to be more than 100% of the Fund's Net Asset Value.

From the Effective Date, the percentage of exposition to ABS/MBS in which the ESG Multi Asset Fund may invest in will be decreased from 20% to 10%.

Changes to the Emerging Markets Corporate Bond Fund
From the Effective Date, the expected level of leverage of the Emerging Markets Corporate Bond Fund will be decreased from 250% to 100% of its Net Asset Value.

Efficient Portfolio Management – Other Techniques and Instruments
Among the criteria to be met by collateral obtained in the context of OTC financial derivative transactions and efficient portfolio management techniques, those relating to diversification rules have been amended. From the Effective Date, Appendix A of the Prospectus will further clarify that a Fund may be fully collateralised in different transferable securities and money market instruments issued or guaranteed by a Member State, its local authorities, as well as non-Member States and public international bodies as further defined in the Appendix A. Such a Fund should receive securities from at least six different issues, but securities from any single issue should not account for more than 30% of the Fund's Net Asset Value.

Impact of the Changes
The changes to the Funds listed under this section (*Other Prospectus Changes*) are not expected to change the overall risk profile of the Funds and will not materially prejudice the rights or interests of the shareholders of the Funds. Apart from the changes described above, the features of the Funds and the operation and/or manner in which the Funds are being managed will remain unchanged and there will be no impacts on the existing shareholders of the Funds.

3. Costs
The amendments described in this letter will not result in any change to the fees and expenses borne by the Funds and/or its shareholders. Except for the costs incurred in trading of securities as part of the repositioning and realignment of the portfolios of World Bond Fund and Systematic Global SmallCap Fund, the associated fees and expenses (e.g. mailing costs) will be paid by the Management Company out of the Annual Service Charge charged to the Funds. The changes will not materially prejudice the rights or interests of the shareholders of the Funds.

4. Action to be taken by you
Shareholders are not required to take any action in relation to the changes described in this letter. If, however, you do not agree with them you may redeem your Shares free of any redemption charges at any time prior to the Effective Date, in accordance with the provisions of the Prospectus.

If you have any questions regarding the redemption process, please contact the Company's Hong Kong Representative (see details below). Any redemption of your Shares may affect your tax position and you should consult your own professional advisers as to the implications of disposing of Shares under the laws of the jurisdictions in which you may be subject to tax.

Redemption proceeds will be paid to shareholders within three Business Days of the relevant Dealing Day, provided that the relevant documents (as described in the Prospectus) have been received.

5. General Information
Updated versions of the Prospectus, Information for Residents of Hong Kong and Product Key Facts Statements of the Funds will be available to download from our website (www.blackrock.com/hk[1]) and in hard copy format free of charge in due course upon request from your local representative on +852 3903-2688 or at the office of the Hong Kong Representative at the address stated below.

The Directors accept responsibility for the contents of this letter. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure that this is the case) the information contained in this letter is in accordance with the facts and does not omit anything likely to affect the impact of such information.

If you would like any further information or have any questions regarding this letter, please contact the Company's Hong Kong Representative, BlackRock Asset Management North Asia Limited, at 16/F Champion Tower, 3 Garden Road, Central, Hong Kong or by telephone on +852 3903-2688.

Yours faithfully

The Fund invests globally at least 70% of its total assets in the equity securities of companies domiciled in, or exercising the predominant part of their economic activity in, developed markets. Currency exposure is flexibly managed. The Fund is a Stock Connect Fund and may invest directly up to 20% of its total assets in the PRC by investing via the Stock Connects. The Fund may use derivatives for investment purposes and for the purposes of efficient portfolio management. The Fund's total assets will be invested in accordance with the ESG Policy described below. Risk management measure used: Commitment Approach. **ESG Policy** Companies are evaluated by the Investment Adviser based on their ability to manage the risks and opportunities associated with ESG factors and their ability to strategically manage longer-term issues surrounding ESG and the potential impact this may have on a company's financial performance. The Investment Adviser conducts enhanced analysis on all companies that it considers to have heightened ESG risks, higher carbon emissions and controversial business activities. In such circumstances, the Investment Adviser may determine an engagement agenda for discussion with those companies in seeking to improve their ESG credentials. To undertake this analysis, the Investment Adviser uses its fundamental insights and may use data provided by external ESG data providers and proprietary models. The Fund will apply exclusionary screens, the BlackRock EMEA Baseline Screens, to the companies within the investment universe. The Investment Adviser then applies its proprietary "Fundamental Insights" methodology (the "Methodology", see further detail on https://www.blackrock.com/corporate/literature/publication/blackrock-baseline-screens-in-europe-middleeast-and-africa.pdf) to identify companies that would otherwise have been excluded by the exclusionary screens but that it considers to be appropriate for investment on the basis that they are "in transition" and focused on meeting sustainability criteria over time, or are otherwise meeting other criteria in accordance with the Methodology requirements. The Methodology uses quantitative and qualitative inputs generated by the Investment Adviser, its affiliates and/or one or more external research providers. Where a company is identified by the Investment Adviser as meeting the criteria in the Methodology for investment and is approved in accordance with the Methodology, it is eligible to be held by the Fund. Such companies are regularly reviewed. In the event that the Investment Adviser determines that a company fails the criteria in the Methodology (in whole or in part and at any time) or it is not engaging with the Investment Adviser on a satisfactory basis, it will be considered for divestment by the Fund in accordance with the Methodology. Please refer to the SFDR disclosures on page 47 for further details of the ESG commitments made by the Fund. **Benchmark use** The Fund is actively managed, and the Investment Adviser has discretion to select the Fund's investments. In doing so, the Investment Adviser will refer to the MSCI All Country World Index (the "Index") when constructing the Fund's portfolio, and also for risk management purposes to ensure that the active risk (i.e. degree of deviation from the index) taken by the Fund remains appropriate given the Fund's investment objective and policy. The Investment Adviser is not bound by the components or weighting of the Index when selecting investments. The Investment Adviser may also use its discretion to invest in securities not included in the Index in order to take advantage of specific investment opportunities. The Index should be used by investors to compare the performance of the Fund.

		also use its discretion to invest in securities not included in the Index in order to take advantage of specific investment opportunities. However, the geographical scope of the investment objective and policy may have the effect of limiting the extent to which the portfolio holdings will deviate from the Index. The Index should be used by investors to compare the performance of the Fund.
Continental European Flexible Fund	LU0534241806* LU0224105980 LU0769137737* LU1984140423* LU1505937943 LU1505938164 LU0462858084 LU1202926504* LU1960219654 LU2315844121 LU0888974473 LU2319960014 LU0071969892* LU2319960287 LU2319960360 LU2319960444 LU2319959941 LU2319960105 LU1196525536* LU0827876151* LU0827876235* LU0827876318* LU0827876409* LU0406496546* LU1207311066 LU0224105477* LU0224105808* LU0224106442 LU0669554353* LU1330249563 LU0628613803* LU2404648292	The ***Continental European Flexible Fund*** seeks to maximise total return in a manner consistent with the principles of environmental, social and governance ("ESG") investing. The Fund invests at least 70% of its total assets in the equity securities of companies domiciled in, or exercising the predominant part of their economic activity in Europe excluding the UK. The Fund normally invests in securities that, in the opinion of the Investment Adviser, exhibit either growth or value investment characteristics, placing an emphasis as the market outlook warrants. The Fund's exposure to contingent convertible bonds is limited to 5% of its total assets. The Fund may use derivatives for investment purposes and for the purposes of efficient portfolio management. The Fund's total assets will be invested in accordance with the ESG Policy described below. **Risk management measure used: Commitment Approach.** **ESG Policy** Companies are evaluated by the Investment Adviser based on their ability to manage the risks and opportunities associated with ESG factors and their ability to strategically manage longer-term issues surrounding ESG and the potential impact this may have on a company's financial performance. The Investment Adviser conducts enhanced analysis on all companies that it considers to have heightened ESG risks, higher carbon emissions and controversial business activities. In such circumstances, the Investment Adviser may determine an engagement agenda for discussion with those companies in seeking to improve their ESG credentials. To undertake this analysis, the Investment Adviser uses its fundamental insights and may use data provided by external ESG data providers, and proprietary models. The Fund will apply exclusionary screens, the BlackRock EMEA Baseline Screens, to the companies within the investment universe. The Investment Adviser then applies its proprietary "Fundamental Insights" methodology (the "Methodology", see further detail on https://www.blackrock.com/corporate/literature/publication/blackrock-baseline-screens-in-europe-middleeast-and-africa.pdf) to identify companies that would otherwise have been excluded by the exclusionary screens but that it considers to be appropriate for investment on the basis that they are "in transition" and focused on meeting sustainability criteria over time, or are otherwise meeting other criteria in accordance with the Methodology requirements. The Methodology uses quantitative and qualitative inputs generated by the Investment Adviser, its affiliates and/or one or more external research providers. Where a company is identified by the Investment Adviser as meeting the criteria in the Methodology for investment and is approved in accordance with the Methodology, it is eligible to be held by the Fund. Such companies are regularly reviewed. In the event that the Investment Adviser determines that a company fails the criteria in the Methodology (in whole or in part and at any time) or it is not engaging with the Investment Adviser on a satisfactory basis, it will be considered for divestment by the Fund in accordance with the Methodology. Please refer to the SFDR disclosures on page 47 for further details of the ESG commitments made by the Fund. **Benchmark use** The Fund is actively managed, and the Investment Adviser has discretion to select the Fund's investments. In doing so the Investment Adviser will refer to the FTSE World Europe ex UK Index when constructing the Fund's portfolio, and also for risk management purposes to ensure that the active risk (i.e. degree of deviation from the index) taken by the Fund remains appropriate given the Fund's investment objective and policy. The Investment Adviser is not bound by the components or weighting of the Index when selecting investments. The Investment Adviser may also use its discretion to invest in securities not included in the Index in order to take advantage of specific investment opportunities. However, the geographical scope of the investment objective and policy may have the effect of limiting the extent to which the portfolio holdings will deviate from the Index. The Index should be used by investors to compare the performance of the Fund.
ESG Flex Choice Cautious Fund	LU2368537309* LU2368537135*	The ***ESG Flex Choice Cautious Fund*** seeks to maximise total return commensurate with a cautious level of risk and in a manner consistent with the principles of environmental, social and governance "ESG" focused investing.

Fund	ISINs	Changes to investment objective and policy in the Prospectus
	LU2368537218* LU2368537051* LU2368536913* LU2368538372* LU2368538539 LU2368541244 LU2368537481* LU2501013929* LU2501015205* LU2501013689* LU2501014067* LU2501014901* LU2501013333* LU2368538299* LU2368537721* LU2368537994* LU2368537564* LU2368538026* LU2368537648*	The Fund will seek to achieve its investment objective by obtaining indirect exposure to a broad range of asset classes, which may include equity and equity-related securities, fixed income and fixed income-related securities, alternative assets, cash and near-cash instruments. Exposure to these asset classes will be achieved through investment in shares or units of a concentrated portfolio of CIS (which themselves invest in a diversified portfolio of assets), including actively managed funds, exchange traded funds and index funds managed by an affiliate of the BlackRock Group. The Fund will invest at least 80% of total assets in CIS which pursue a positive ESG objective or outcome and do not adopt ESG exclusionary screens solely as their ESG policy, or, in the case of government bond exposures, track benchmark indices incorporating ESG requirements or comprised of bonds issued by governments that have an ESG sovereign rating of at least BB (as defined by third party ESG data vendors), and in both cases being CIS with status aligned with the SFDR Regulation, in particular with the requirements set out under Article 8 or 9 of the SFDR Regulation. Where determined appropriate, the Fund may invest directly in derivatives, cash and near-cash instruments. The Investment Adviser intends the Fund to have a carbon emissions intensity score that is 20% lower and a weighted average ESG score higher than a composite benchmark comprising MSCI All Country World Index (20%) and Bloomberg US Universal Index (80%) (the "Index"). The Fund will not be subject to any geographic restrictions. Whilst the Fund's exposures may vary over time, it is intended that its direct and indirect exposure to equities will be targeted at 20% of Net Asset Value, and its direct and indirect exposure to fixed income securities will be targeted at 80% of Net Asset Value. The currency exposure of the Fund is flexibly managed. There can be no guarantee that the Fund will maintain a cautious level of risk, especially during periods of unusually high or low volatility in the equity and fixed income markets. Generally, the Fund will seek to be positioned such that the Fund's risk as measured by annualised volatility over a 5 year period falls within the range of 3%-5%, however, the Fund's risk profile may fall outside the stated range from time to time. Please refer to the SFDR disclosures on page 47 for further details of the ESG commitments made by the Fund. **Risk management measure used: Commitment Approach.** **Benchmark use** The Fund is actively managed. The Investment Adviser has discretion to select the Fund's investments and is not constrained by any benchmark in this process. The Index should be used by investors to compare the ESG performance of the Fund. The Investment Adviser is not bound by the components and weighting of the Index when selecting investments. The components of the Index (i.e. MSCI All Country World Index and Bloomberg US Universal Index) may be quoted separately in marketing material related to the Fund. Further details are available at the index provider website at www.msci.com/acwi.

		Index (i.e. MSCI All Country World Index and Bloomberg US Universal Index) may be quoted separately in marketing material related to the Fund. Further details are available at the index provider website at www.msci.com/acwi.
Systematic Sustainable Global SmallCap Fund	LU0054578231* LU0147403843* LU0724617971* LU0171288334* LU0331285766* LU0171288508 LU2308287098 LU1023057448* LU0147403330* LU0376433602*	The ***Systematic Sustainable Global SmallCap Fund*** seeks to maximise total return. The Fund invests globally at least 70% of its total assets in the equity securities of smaller capitalisation companies in a manner consistent with the principles of sustainable investing. Smaller capitalisation companies are considered companies which, at the time of purchase, form the bottom 20% by market capitalisation of global stock markets. Although it is likely that most of the Fund's investments will be in companies located in developed markets globally, the Fund may also invest in the emerging markets of the world. Currency exposure is flexibly managed. In order to achieve its investment objective and policy, the Fund will invest in a variety of investment strategies and instruments. In particular, the Fund will use quantitative (i.e. mathematical or statistical) models in order to achieve a systematic (i.e. rule based) approach to stock selection. This means that stocks will be selected based on their expected contribution to portfolio returns when risk and transaction cost forecasts are taken into account. The Fund will apply the BlackRock EMEA Baseline Screens and seeks to invest in Sustainable Investments. The Fund is a Stock Connect Fund and may invest directly up to 20% of its total assets in the PRC by investing via the Stock Connects. The Fund may use derivatives for investment purposes and for the purposes of efficient portfolio management. **Risk management measure used: Commitment Approach.** **Benchmark use** The Fund is actively managed, and the Investment Adviser has discretion to select the Fund's investments. In doing so, the Investment Adviser may refer to the MSCI ACWI Small Cap Index (the "Index") when constructing the Fund's portfolio, and also for risk management purposes to ensure that the active risk (i.e. degree of deviation from the Index) taken by the Fund remains appropriate given the Fund's investment objective and policy. The Investment Adviser is not bound by the components or weighting of the Index when selecting investments. The Investment Adviser may also use its discretion to invest in securities not included in the Index in order to take advantage of specific investment opportunities. However, the market capitalisation requirements of the investment objective and policy may have the effect of limiting the extent to which the portfolio holdings will deviate from the Index. The Index should be used by investors to compare the performance of the Fund. The Fund's ESG score will be calculated as the total of each issuer ESG score (where applicable), weighted by its market value. The Investment Adviser will create a portfolio that seeks to deliver a superior ESG outcome versus the Index and the weighted average ESG rating of the Fund will be higher than the ESG rating of the Index after eliminating at least 20% of the least well-rated securities from the Index. The Investment Adviser intends the Fund to have a lower carbon emissions intensity score than its Index.
Global Government Bond Fund	LU0462857607 LU0827881821* LU0827882043* LU0368232830 LU0147382310* LU0172412149* LU1811366183 LU1806518707 LU1567964413 LU0297940818* LU1495984053 LU0297944059	The ***Global Government Bond Fund*** seeks to maximise total return, in a manner consistent with the principles of environmental, social and governance ("ESG") focused investing. The Fund invests at least 70% of its total assets in investment grade fixed income transferable securities issued by governments and their agencies worldwide. Currency exposure is flexibly managed. The Fund seeks to invest in Sustainable Investments, including, but not limited to, "green bonds" (as defined by its proprietary methodology which is guided by the International Capital Markets Association Green Bond principles) and "Green, Social and Sustainability" (GSS) bonds issued by governments and agencies of, and companies, where the proceeds of such GSS bonds are tied to green and socially responsible projects. The Fund is a CIBM Fund and may gain direct exposure for no more than 20% of its total assets to onshore bonds distributed in Mainland China in the CIBM via the Foreign Access Regime and/or Bond Connect and/or other means as may be permitted by the relevant regulations from time to time. As part of its investment objective the Fund may invest up to 20% of the Fund's total assets (30% of the Fund's total assets with effect from June 2022) in ABS and MBS whether investment grade or not. These may include asset-backed commercial paper, collateralised debt obligations, collateralised mortgage obligations, commercial mortgage-backed securities, credit-linked notes, real estate mortgage investment conduits, residential mortgage-backed securities and synthetic

Fund	ISINs	Changes to investment objective and policy in the Prospectus
	LU0329591563* LU0297943838* LU0297942863* LU1484781395* LU0297940495* LU0172412495* LU1484781478* LU0331285410* LU1083813532 LU0297943168* LU0118256485* LU0090845412 LU0006061385* LU0540001038*	collateralised debt obligations. The underlying assets of the ABS and MBS may include loans, leases or receivables (such as credit card debt, automobile loans and student loans in the case of ABS and commercial and residential mortgages originating from a regulated and authorised financial institution in the case of MBS). The ABS and MBS in which the Fund invests may use leverage to increase return to investors. Certain ABS may be structured by using a derivative such as a credit default swap or a basket of such derivatives to gain exposure to the performance of securities of various issuers without having to invest in the securities directly. The Fund's exposure to contingent convertible bonds is limited to 20% of total assets. The Fund's exposure to Distressed Securities is limited to 10% of its total assets. The Fund may use derivatives for investment purposes and for the purposes of efficient portfolio management. The Fund's total assets will be invested in accordance with the ESG Policy described below. **This Fund may have a material exposure to ABS, MBS and non-investment grade debt, and investors are encouraged to read the relevant risk disclosures contained in the section "Specific Risk Considerations".** **Risk management measure used: Relative VaR using FTSE World Government Bond USD Hedged Index as the appropriate benchmark.** **Expected level of leverage of the Fund: 300% of Net Asset Value. With effect from June 2022 this limit will be raised to 400%.** **ESG Policy** The Fund will apply the BlackRock EMEA Baseline Screens. The Investment Adviser will also employ a proprietary methodology to assess investments based on the extent to which they are associated with positive or negative externalities, that is environmental and social benefits or costs as defined by the Investment Adviser. The Investment Adviser will seek to enhance exposure to investments that are deemed to have associated positive externalities (e.g. lower carbon emitting issuers and issuers with positive ESG credentials) and seek to limit exposure to investments that are deemed to have associated negative externalities including limiting direct investment in securities of issuers involved in the ownership or operation of gambling related activities or facilities; production, supply and mining activities related to nuclear power and production of adult entertainment materials. The assessment of the level of involvement in each activity may be based on percentage of revenue, a defined total revenue threshold, or any connection to a restricted activity regardless of the amount of revenue received. The remaining issuers (i.e. those issuers which have not yet been excluded from investment by the Fund) are then evaluated by the Investment Adviser based on, among other factors, their ability to manage the risks and opportunities associated with ESG compliant business practices and their ESG risk and opportunity credentials, such as their leadership and governance framework, which is considered essential for sustainable growth, their ability to strategically manage longer-term issues surrounding ESG and the potential impact this may have on an issuer's financials. To undertake this analysis, the Investment Adviser may use data provided by external ESG Providers, proprietary models and local intelligence and may undertake site visits. The Fund may gain limited indirect exposure (through, including but not limited to, derivatives and shares or units of CIS) to issuers that do not meet the ESG criteria described above. Please refer to the SFDR disclosures on page 47 for further details of the ESG commitments made by the Fund. **Benchmark use** The Fund is actively managed, and the Investment Adviser has discretion to select the Fund's investments. In doing so, the Investment Adviser will refer to the FTSE World Government Bond USD Hedged Index (the "Index") when constructing the Fund's portfolio, and also for risk management purposes to ensure that the active risk (i.e. degree of deviation from the index) taken by the Fund remains appropriate given the Fund's investment objective and policy. The Investment Adviser is not bound by the components or weighting of the Index when selecting investments. The Investment Adviser may also use its discretion to invest in securities not included in the Index in order to take advantage of specific investment opportunities. However, the credit rating and issuer requirements of the investment objective and policy may have the effect of limiting the extent to which the portfolio holdings will deviate from the Index. The Index should be used by investors to compare the performance of the Fund.

The Index should be used by investors to compare the performance of the Fund.
Sustainable Global Infrastructure Fund	LU2346227817* LU2346227908* LU2346228039 LU2346228112 LU2372745393 LU2372745559 LU2372745476* LU2372745120	The ***Sustainable Global Infrastructure Fund*** seeks to maximise long term total return and invest at least 80% of its total assets in the equity securities of companies whose predominant economic activity is in the infrastructure sector and with a particular focus on companies aligned with and supporting the objectives of the UN Sustainable Development Goals ("UN SDGs"). ~~The Fund invests globally at least 70% of its total assets in the equity securities of companies whose predominant economic activity is in the infrastructure sector.~~ In normal market conditions the Fund will invest in a relatively concentrated portfolio of equity securities of companies with large, medium and small market capitalisation across a broad range of infrastructure sub-sectors including (without limitation) regulated utilities, renewables, transportation and communications. ~~The companies are rated by the Investment Adviser based on their ability to manage the risks and opportunities associated with the infrastructure theme and their ESG risk and opportunity credentials, such as their leadership and governance framework, which is considered essential for sustainable growth, their ability to strategically manage longer-term issues surrounding ESG and the potential impact this may have on a company's financials. The assessment of the level of engagement in each activity may be based on percentage of revenue, a defined total revenue threshold, or any connection to a restricted activity regardless of the amount of revenue received.~~ Although it is likely that most of the Fund's investments will be in companies located in developed markets globally, the Fund may also invest in emerging markets. The Fund will apply a custom ESG screen which incorporates multiple components. First, a screen is used to limit or exclude direct investment (as applicable) in corporate issuers which, in the opinion of the Investment Adviser: have any exposure to, or ties with, controversial weapons or conventional weapons; the production, distribution, licensing, retail or supply of tobacco or tobacco-related products; the production or distribution of firearms or small arms ammunitions intended for retail civilians; are deemed to have failed to comply with one or more of the ten United Nation Global Compact Principles ("UNGC"), which cover human rights, labour standards, the environment and anti-corruption. The Investment Adviser also intends to limit direct investment in securities of issuers involved in the extraction of, or the generation of power using, thermal coal or tar sands (also known as oil sands). The Investment Adviser may invest in the securities of issuers with higher levels of revenue from these activities if the issuer has committed to a net zero transition plan. Secondly, the Investment Adviser will look at the targets and the indicators for certain ~~each~~ UN ~~Sustainable Development Goal~~ SDG namely SDG3 (Good Health& Well-Being), SDG 6 (Clean Water& Sanitation) SDG 7 (Affordable& Clean Energy), SDG 9 (Industry, Innovation &Infrastructure) SDG 11 (Sustainable Cities &Communities) and SDG 13 (Climate Action) and identify those that are supported by the sustainable infrastructure theme. The Investment Adviser screens the investment universe to invest only in companies that align with and advance at least one of the UN SDGs~~, in particular~~ As part of the climate objective of the Fund, the Investment Adviser seeks to invest in companies that enhance the energy transition in line with objectives SDG 7 (Affordable and Clean Energy) and SDG 13 (Climate Action). In both cases the assessment of the level of involvement in each activity may be based on percentage of revenue, a defined total revenue threshold, or any connection to a restricted activity regardless of the amount of revenue received. The Fund is a Stock Connect Fund and may invest directly up to 20% of its total assets in the PRC by investing via the Stock Connects. Thirdly, the Investment Adviser conducts an enhanced analysis on all companies selected based on the proprietary methodology of its in-house ESG framework, of which the internally generated data produces ESG scores for the target companies. To undertake this analysis, the Investment Adviser may also use data provided by external ESG data providers and/or local intelligence. In

Fund	ISINs	Changes to investment objective and policy in the Prospectus
		this respect, companies are evaluated by the Investment Adviser based on their ability to manage the risks and opportunities associated with the infrastructure theme and their ESG risk and opportunity credentials, such as their leadership and governance framework, which is considered essential for sustainable growth, their ability to strategically manage longer-term issues surrounding ESG and the potential impact this may have on a company's financials. Based on the in-depth assessment of the abovementioned factors, the Investment Adviser calculates an ESG score for each portfolio company. The assessment of the level of engagement in each activity may be based on percentage of revenue, a defined total revenue threshold, or any connection to a restricted activity regardless of the amount of revenue received. More than 90% of the issuers of securities (excluding MMFs) the Fund invests in are ESG rated or have been analysed for ESG purposes. The investment strategy reduces the investable universe of the Fund compared to all securities in the Fund's investment universe by at least 20%. The Fund may use derivatives for investment purposes and for the purposes of efficient portfolio management. The Fund may gain limited indirect exposure (through, including but not limited to, derivatives and shares or units of CIS) to issuers with exposures that do not meet the ESG criteria described above. ~~Any ESG rating or analyses referenced above will apply only to the underlying securities of derivatives used by the Fund.~~ Please refer to the SFDR disclosures on page 47 for further details of the ESG commitments made by the Fund. **Risk management measure used: Commitment Approach.** **Benchmark use** The Fund is actively managed, and the Investment Adviser has discretion to select the Fund's investments. In doing so, the Investment Adviser will refer to the FTSE 50/50 Developed Core Infrastructure Index (the "Index") when constructing the Fund's portfolio, and also for risk management purposes to ensure that the active risk (i.e. degree of deviation from the Index) taken by the Fund remains appropriate given the Fund's investment objective and policy. The Investment Adviser is not bound by the components or weighting of the Index when selecting investments. The Investment Adviser may also use its discretion to invest in securities not included in the Index in order to take advantage of specific investment opportunities. However, the industry sector requirements of the investment objective and policy may have the effect of limiting the extent to which the portfolio holdings will deviate from the Index. The Index should be used by investors to compare the performance of the Fund.
ESG Multi-Asset Fund	LU2452424414* LU2452424505* LU2452424687* LU1978682364 LU2092937148* LU1822773989 LU0827879924* LU2077746001* LU2256991352* LU0093503737 LU2349430145 LU0473185139* LU2250418576* LU0494093205* LU0494093544* LU0494093627	The ***ESG Multi-Asset Fund*** follows an asset allocation policy that seeks to maximise total return in a manner consistent with the principles of environmental, social and governance "ESG" focussed investing. The Fund invests globally in the full spectrum of permitted investments including equities, fixed income transferable securities (which may include some high yield fixed income transferable securities), units of CIS, cash, deposits and money market instruments. The Fund~~'s~~ seeks to invest in Sustainable Investments and its total assets will be invested in accordance with the ESG Policy described below. ~~The Fund adopts a "best in class" approach to sustainable investing. This means that the Fund selects the best issuers (from an ESG perspective) for each relevant sector of activities.~~ The Fund has a flexible approach to asset allocation (which includes taking indirect exposure to commodities through permitted investments, principally through derivatives on commodity indices and exchange traded funds). The Fund may invest without limitation in securities denominated in currencies other than the reference currency (Euro). The currency exposure of the Fund is flexibly managed. The Fund is a Stock Connect Fund and may invest directly in the PRC by investing via the Stock Connects. The Fund is a CIBM Fund and may gain direct exposure to onshore bonds distributed in Mainland China in the CIBM via the Foreign Access Regime and/or Bond Connect and/or other means as may be permitted by the relevant regulations from time to time. The Fund may invest up to 20% in aggregate of its total assets in the PRC via the Stock Connects, the Foreign Access Regime and/or Bond Connect. As part of its investment objective the Fund may invest up to ~~20~~10% of its total assets in ABS and MBS whether investment grade or not. These may include asset-backed commercial paper, collateralised debt obligations, collateralised mortgage obligations, commercial mortgage-backed securities, credit-linked notes, real estate mortgage investment conduits, residential mortgage-

Fund	ISINs	Changes to investment objective and policy in the Prospectus
	LU0093503497* LU2092627202* LU0147384282* LU2310090357 LU2250418493*	backed securities and synthetic collateralised debt obligations. The underlying assets of the ABS and MBS may include loans, leases or receivables (such as credit card debt, automobile loans and student loans in the case of ABS and commercial and residential mortgages originating from a regulated and authorised financial institution in the case of MBS). The ABS and MBS in which the Fund invests may use leverage to increase return to investors. Certain ABS may be structured by using a derivative such as a credit default swap or a basket of such derivatives to gain exposure to the performance of securities of various issuers without having to invest in the securities directly. ~~The Fund's exposure to contingent convertible bonds is limited to 20% of total assets.~~ The Fund may use derivatives for investment purposes and for the purposes of efficient portfolio management. The Fund may use total return swaps and contracts for difference that have, in accordance with its investment policy, equity or fixed income transferable securities and equity or fixed income related securities as underlying assets. Investors should refer to Appendix G for more details on the expected and maximum portion of total return swaps and contracts for difference held by the Fund. Any ESG rating or analyses referenced above will apply only to the underlying securities of derivatives used by the Fund. **~~This Fund may have a material exposure to ABS, MBS and non-investment grade debt, and investors are encouraged to read the relevant risk disclosures contained in the section "Specific Risk Considerations".~~** **Risk management measure used: Relative VaR using 50% MSCI World Index ~~/ 50% FTSE World Government Bond Euro Hedged Index~~ and 50% Bloomberg Global Aggregate Bond Index hedged to EUR as the appropriate risk benchmark.** **Expected level of leverage of the Fund: ~~300~~175% of Net Asset Value.** **ESG Policy** The Fund will apply the BlackRock EMEA Baseline Screens. The Investment Adviser also intends to limit investments in companies within the Global Industry Classification Standard (GICS) Oil & Gas Exploration & Production sector and companies within the Global Industry Classification Standard (GICS) Integrated Oil & Gas sector to below 5% of its total assets. The Investment Adviser also intends to limit direct investment in securities of issuers involved in the production, distribution or licensing of alcoholic products; the ownership or operation of gambling-related activities or facilities; production, supply and mining activities related to nuclear power and production of adult entertainment materials. The assessment of the level of involvement in each activity may be based on percentage of revenue, a defined total revenue threshold, or any connection to a restricted activity regardless of the amount of revenue received. The Investment Adviser will exclude any issuer with a MSCI ESG rating below BBB. The remaining companies (i.e. those companies which have not yet been excluded from investment by the Fund) are then evaluated by the Investment Adviser based on their ability to manage the risks and opportunities associated with ESG compliant business practices and their ESG risk and opportunity credentials, such as their leadership and governance framework, which is considered essential for sustainable growth, their ability to strategically manage longer-term issues surrounding ESG and the potential impact this may have on a company's financials. To undertake this analysis, the Investment Adviser may use data provided by external ESG Providers, proprietary models and local intelligence and may undertake site visits. The Fund may gain limited exposure (through, including but not limited to, derivatives, cash and near cash instruments and shares or units of CIS and fixed income transferable securities (also known as debt securities) issued by governments and agencies worldwide) to issuers with exposures that do not meet the ESG criteria described above. ~~The Investment Adviser also intends to limit investments in companies within the Global Industry Classification Standard (GICS) Oil & Gas Exploration & Production sector and companies within the Global Industry Classification Standard (GICS) Integrated Oil & Gas sector to below 5% of its total assets.~~ More than 90% of the issuers of securities the Fund invests in are ESG rated or have been analysed for ESG purposes. Please refer to the SFDR disclosures on page 47 for further details of the ESG commitments made by the Fund. **Benchmark use** The Fund is actively managed with multiple asset classes and the extent to which the Fund is invested in these may vary without limit depending on market conditions and other factors at the Investment Adviser's discretion. The Investment Adviser may refer to a composite benchmark (which it believes is a fair representation of the Fund's investment universe) comprising the 50%

Fund	ISINs	Changes to investment objective and policy in the Prospectus
		MSCI World Index and 50% ~~FTSE World Government Bond Euro Hedged Index.~~ Bloomberg Global Aggregate Bond Index hedged to EUR (the "Index") for risk management purposes to ensure that the active risk (i.e. degree of deviation from the Index) taken by the Fund remains appropriate given the Fund's investment objective and policy. The Investment Adviser is not bound by the components or weighting of the Index when selecting investments. The ~~Investment Adviser~~ weighted average ESG rating of the Fund will be higher than the ESG rating of the Index after eliminating at least 20% of the least well-rated securities from the Index. ~~may also use its discretion to invest in securities not included in the Index in order to take advantage of specific investment opportunities. The ESG Policy reduces the portfolio of the Fund compared to the Index by at least 20%.~~ Further details are available on the index provider websites at www.msci.com and ~~www.ftserussell.com.~~ www.bloomberg.com/professional/product/indices The Fund's ESG score will be calculated as the total of each issuer ESG score (where applicable), weighted by its market value. The Investment Adviser will create a portfolio that seeks to deliver a superior ESG outcome versus the Index and the weighted average ESG rating of the Fund will be higher than the ESG rating of the Index. The Investment Adviser intends the Fund to have a carbon emissions intensity score that is lower than the Index.

APPENDIX II – ***Changes to the Product Key Facts Statements of Systematic Global SmallCap Fund and World Bond Fund***

Fund	Changes to the Product Key Facts Statements
Systematic Global SmallCap Fund	To maximise total return ~~by investing~~ in a manner consistent with the principles of sustainable investing. The Fund invests at least 70% of ~~the Fund's~~ its total assets in ~~stocks of~~ equity securities of smaller capitalisation companies. Smaller capitalisation companies are considered companies which, at the time of purchase, form the bottom 20% by market capitalisation of ~~primarily~~ global stock markets. It is expected that most of the Fund's investment will be in companies located in developed ~~stock~~ markets globally. The Fund will seek to deliver a weighted average ESG rating higher than the ESG rating of the MSCI ACWI Small Cap Index (the "Index", as a fair representation of the Fund's investment universe) after eliminating at least 20% of the least well-rated securities from the Index, and a lower carbon emissions intensity score than its Index. Such ESG rating will be calculated as the total of each issuer's ESG rating (where applicable), weighted by its market value. In order to achieve its investment objective and policy, the Fund will invest in a variety of investment strategies and instruments. In particular, the Fund will use quantitative (i.e. mathematical or statistical) models designed and built by the Investment Adviser in order to achieve a systematic (i.e. rule based) approach to stock selection subject to the ESG policy described below. The ~~quantitative models are designed and built by the Investment Adviser. This means that stocks will be selected based on their expected contribution to portfolio returns when risk and transaction cost forecasts are taken into account. The Investment Adviser retains the discretion to disregard certain stocks selected to manage portfolio risk in response to rare unexpected company events~~ Fund's total asset will be invested in accordance with the ESG policy described below. The calculation with respect to both the Fund and the Index will exclude any issuer without ESG rating and be rebased accordingly. The Fund will apply the BlackRock EMEA Baseline Screens which means that the Investment Adviser will seek to limit and/or exclude direct investment (as applicable) in issuers which, in the opinion of the Investment Adviser, have exposure to, or ties with, certain sectors (in some cases subject to specific revenue thresholds) including but not limited to: (i) the production of controversial weapons; (ii) the distribution or production of firearms or small arms ammunition intended for retail civilians; (iii) the extraction of certain types of fossil fuel (such as thermal coal and oil sands) and/or the generation of power from them; (iv) the production of tobacco products or certain activities in relation to tobacco-related products; and (v) issuers involved in severe controversies or who are deemed to have breached accepted global norms relating to their business practices and conduct, such as the United Nations Global Compact Principles which cover human rights, labour standards, the environment and anti-corruption. The assessment of the level of involvement in each activity may be based on percentage of revenue, a defined total revenue threshold, or any connection to a restricted activity regardless of the amount of revenue received. The quantitative models will then evaluate, select and allocate to equity securities of the remaining companies (i.e. those companies which have not yet been excluded from investment by the Fund) based on their ESG attributes and on forecasts of returns (including ESG return drivers), risk and transaction costs, subject to the investment constraints which optimize the Fund so that: (a) the weighted average ESG rating and carbon emissions intensity score targets as described above are achieved; and (b) the Fund invests at least 20% of its net asset value in sustainable investments as defined by the Investment Adviser having regard to applicable law and regulation and which are assessed as doing no significant harm. To undertake this evaluation, the Investment Adviser may use data provided by external ESG Providers, proprietary models and local intelligence and may undertake site visits. The Investment Adviser may also consider additional factors relating to good governance in its evaluation of the sustainability related characteristics of underlying issuers depending on the particular ESG strategy applicable to the Fund. The Fund may gain limited exposure to securities for which the ESG criteria described above may not be applicable, or to issuers with exposures that do not meet the ESG criteria through, including but not limited to, derivatives, cash and near cash instruments. For the avoidance of doubt, these investments would be subject to the ESG policy described above, except for those where it may not be applicable (e.g. cash and near cash instruments). The Fund may also invest in emerging markets (such as Brazil, South Africa and South Korea).

Fund	Changes to the Product Key Facts Statements
	Subject to applicable regulatory restrictions and internal guidelines (including the ESG policy above), the remaining 30% of the Fund's total net asset value may be invested in financial instruments of companies or issuers of any size in any sector of the economy globally such as equity securities consistent with the Fund's objective and cash. The Fund's expected total maximum investment in debt instruments with loss-absorption features, including but not limited to contingent convertible bonds, will be less than 30% of its net asset value. These instruments may be subject to contingent write-down or contingent conversion to ordinary shares on the occurrence of trigger event(s). The Fund may use derivatives for hedging, efficient portfolio management and investment purposes. The Fund may employ currency management and hedging techniques which may include hedging the currency exposure on the Fund's portfolio and/or using more active currency management techniques such as currency overlays. Any active management techniques implemented by the Fund through the currency derivatives such as forward exchange contracts, currency futures and options may not be correlated with the primary underlying securities held by the Fund.
World Bond Fund	To maximise total return in a manner consistent with the principles of environmental, social and governance ("ESG") focused investing by investing at least 70% of the Fund's total assets in investment grade* bonds worldwide. As part of its investment objective the Fund may invest up to 50% of its total assets in asset-backed securities ("ABS") and mortgage-backed securities ("MBS") whether investment grade* or not. These may include asset-backed commercial paper, collateralised debt obligations, collateralised mortgage obligations, commercial mortgage-backed securities, credit-linked notes, real estate mortgage investment conduits, residential mortgage-backed securities and synthetic collateralised debt obligations. The Fund seeks to deliver a superior ESG outcome versus the investment universe (as represented by a composite benchmark comprising Bloomberg Global Aggregate Bond Index USD Hedged (75%), JP Morgan Emerging Markets Bond Index Global Diversified Index (15%) and Bloomberg US High Yield 2% Constrained Index (10%), the "Index") through a higher exposure to ESG outperformers and a lower exposure to ESG laggards based on the externalities of the securities (as further described below in the ESG policy). The Fund's total assets will be invested in accordance with the ESG policy described below. The Fund will seek to optimize asset allocation within the Investment Adviser's proprietary sustainability framework. Under this framework: - All securities are evaluated and classified under a bottom-up approach according to the extent to which they are associated with positive or negative externalities, that is environmental and social benefits or costs as defined by the Investment Adviser. The evaluation may include both qualitative and quantitative thresholds and vary for different types of fixed income transferable securities as determined by the Investment Adviser from time to time, and are based on external ESG data points, proprietary model, local intelligence and on engagement undertaken during issuer dialogue. - In particular, the Investment Adviser will seek to have higher exposure than the Index and invest at least 20% of the Fund's net asset value in sustainable investments as defined by the Investment Adviser having regard to applicable laws and regulations and which are assessed as doing no significant harm and associated with "positive externalities" (the "PEXT Investments", i.e. lower carbon emitting issuers and issuers with positive ESG credentials). This includes, but not limited to, investing in issuers who have set specific climate transition targets (e.g. Science Based Targets to Net Zero, alignment to Paris Pledges per the Transition Pathway Initiative) and are considered to have positive climate impact and at least 10% of the Fund's net asset value in "green bonds" (as defined by the Invesment Adviser's proprietary methodology which is guided by the International Capital Markets Association Green Bond Principles). - The Investment Adviser will also seek to exclude investments that are deemed to have associated negative externalities (the "NEXT Investments"). This includes the Fund applying the BlackRock EMEA Baseline Screens and other exclusionary screens, which means the Investment Adviser will seek to exclude direct investment (as applicable) in corporate issuers which, in the opinion of the Investment Adviser, have exposure to, or ties with, certain activities (which may be based on specific revenue thresholds, or any connection to a restricted activity regardless of the amount of revenue received) including but not limited to: (i) the production of controversial weapons; (ii) the distribution or production of firearms or small arms ammunition intended for retail civilians; (iii) the extraction of certain types of fossil fuel and/or the generation of power from them; (iv) the production of tobacco products or certain activities in relation to tobacco-related products; (v) companies involved in severe controversies or who are deemed to have breached accepted global norms, relating to their business practices and conduct, such as the United Nations Global Compact Principles which cover human rights, labour standards, the environrment and anti-corruption; (vi) the ownership or operation of gambling related activities or facilities; (vii) production, supply and mining activities related to nuclear power; and

Fund	Changes to the Product Key Facts Statements
	(viii) production of adult entertainment materials. ▸ In comparison with the Index, the total of the higher exposure to PEXT Investments and lower exposure to NEXT Investments of the Fund will be at least 20% in market value. ▸ For issuers or securities where the Investment Adviser cannot determine either a clear positive or clear negative externality, through for example a lack of disclosure by the issuer, the Investment Adviser will determine an engagement agenda for discussion with those companies in seeking to improve their ESG credentials, reporting frameworks and disclosures. ▸ In selecting investments and optimizing asset allocation, the remaining issuers (i.e. those issuers which have not yet been excluded from investment by the Fund) are then evaluated by the Investment Adviser based on, among other factors, their ability to manage the risks and opportunities associated with ESG compliant business practices and their ESG risk and opportunity credentials, such as their leadership and governance framework, which is considered essential for sustainable growth, their ability to strategically manage longer-term issues surrounding ESG and the potential impact this may have on an issuer's financials. The Fund may gain limited indirect exposure to securities for which the ESG criteria described above may not be applicable, or to issuers with exposure that that do not meet the ESG criteria through, including but not limited to, derivative, cash and near cash instruments and shares or units of collective investment schemes and debt securities issued by governments and agencies worldwide. For the avoidance of doubt, these investments would be subject to the ESG assessment described above, except for those where it may not be applicable (e.g. cash and near cash instruments). The Fund may also invest in emerging markets (such as Brazil, South Africa and South Korea) and "To Be Announced" securities ("TBAs"). TBAs are MBS bought from a mortgage pool for a fixed price at a future date, where the exact security is not known but the main characteristics are specified, and can be either investment grade* or non-investment grade. Subject to applicable regulatory restrictions and internal guidelines (including the ESG policy above), the remaining 30% of the Fund's total net asset value may be invested in financial instruments of companies or issuers of any size in any sector of the economy globally such as debt and other securities consistent with the Fund's objective, subject to the restriction that no more than 10% of the Fund's assets will be invested in equities. The Fund's expected total maximum investment in debt instruments with loss-absorption features, including but not limited to contingent convertible bonds, will be less than 30% of its net asset value. These instruments may be subject to contingent write-down or contingent conversion to ordinary shares on the occurrence of trigger event(s). The Fund's exposure to contingent convertible bonds is limited to 20% of its total assets. The Fund may use derivatives for hedging, efficient portfolio management and investment purposes. The Fund may employ currency management and hedging techniques which may include hedging the currency exposure on the Fund's portfolio and/or using more active currency management techniques such as currency overlays. Any active management techniques implemented by the Fund through the currency derivatives such as forward exchange contracts, currency futures and options may not be correlated with the primary underlying securities held by the Fund. The proportion of the Fund's net asset value that is expected to be subject to securities lending transactions from time to time ranges from 0% to 40% and will be consistent with the overall investment policy of the Fund.

PRISMA 22/1783 BGF PRO SHL ENG/HK 1122
