Barings Emerging Markets Umbrella Fund

Introduction

Barings Emerging Markets Umbrella Fund (the “Unit Trust”) is a unit trust managed by Baring International Fund Managers (Ireland) Limited (the “Manager”). The Unit Trust was established pursuant to the Unit Trusts Act, 1990, and a Trust Deed dated 11 February 1992 (as supplemented or amended from time to time) (the “Trust Deed”) made between the Manager and Northern Trust Fiduciary Services (Ireland) Limited (the “Depositary”) and authorised by the Central Bank of Ireland (the “CBI”), pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the “UCITS Regulations”). The Unit Trust is also listed on Euronext Dublin Global Exchange Market. As the Barings Global Emerging Markets Fund and Barings Latin America Fund (the “Funds”) are registered for sale in Hong Kong, the Funds have also been authorised by the Hong Kong Securities and Futures Commission (“SFC”) pursuant to the provisions of the Hong Kong Code on Unit Trusts and Mutual Funds, supplemented or consolidated from time to time. Further details of the Funds are contained in the supplements to the Prospectus.

The Unit Trust is organised in the form of an umbrella fund. The Trust Deed provides that the Unit Trust may offer separate series of units, each representing an interest in a Unit Trust Fund (a “Fund”) comprised of a distinct portfolio of investments. A separate Fund is maintained for each series of units and is invested in accordance with the investment objective applicable to such Fund to date. Each Fund may create more than one class of units in relation to a Fund (a “class”) and these separate classes of units may be denominated in different currencies. A unit represents a beneficial interest in a Fund (a “unit”).

The Unit Trust has two active funds as at 31 October 2025, which have been approved by the CBI:

Fund	Fund launch date
Barings Global Emerging Markets Fund	24/02/1992
Barings Latin America Fund	05/04/1993

Barings Global Emerging Markets Fund has eight classes of units on offer at financial period-end. Barings Latin America Fund has six classes of units on offer at financial period-end.

The financial statements include all the trades received for Barings Global Emerging Markets Fund up until 12:00 p.m. (Irish time) on 31 October 2025, the valuation point of the Unit Trust and all the trades received for Barings Latin America Fund up until 3:30 p.m. (Irish time) on 31 October 2025, the valuation point of the Unit Trust.

Barings Emerging Markets Umbrella Fund

Investment Objective and Policy

Barings Global Emerging Markets Fund

The investment objective of the Barings Global Emerging Markets Fund (the “Fund”) is to seek long-term capital growth primarily through investment in a diversified portfolio of developing country equity securities.

The Fund will seek to achieve its investment objective by investing at least 70% of its Net Asset Value in equities and equity-related securities of issuers incorporated in one or more emerging market countries, or which have a significant proportion of their assets or other interests in one or more emerging market countries, or which carry on their principal business in or from one or more emerging markets.

The Fund will invest at least 50% of the Fund’s Net Asset Value in equities of issuers that exhibit positive or improving environmental, social and governance (“ESG”) characteristics.

Barings Latin America Fund

The investment objective of the Barings Latin America Fund (the “Fund”) is to seek long-term capital growth primarily through investment in Latin American equities.

The investment policy will be to invest no less than 70% of the total assets of the Fund, at any one time, in securities issued by companies incorporated in Latin America, or which have a significant proportion of their assets or other interests in Latin America, or which carry out their principal business in or from Latin America.

It is the policy of the Baring Asset Management Limited (the “Investment Manager”) to maintain diversification in terms of the countries to which investment exposure is maintained, but there is no limit to the proportion of assets which may be invested in any one country.

Please refer to the Prospectus for the full investment objective and policy of the Funds.

How the Funds are managed

The Manager of the Unit Trust has appointed Baring Asset Management Limited as the Investment Manager of the Funds.

The Investment Manager manages the portfolio using a Growth at a Reasonable Price (“GARP”) approach. Through our teams of dedicated analysts, we conduct considerable primary research in order to identify the best opportunities.

Please refer to the Prospectus for the full risk profile for each of the Funds. Investors should read the Prospectus and carefully consider the potential risk factors as well as reward factors before investing.

Investment Managers' Report

For the financial period ended 31 October 2025

Barings Global Emerging Markets Fund

Performance

Barings Global Emerging Markets Fund (the "Fund") generated a gross return of 29.98% on the Class I USD Acc unit class and outperformed against the performance comparator with a return of 27.41%* during the reporting period. The Fund generated a net return of 29.33% on the Class I USD Acc unit class over the same period.

Emerging Markets ("EM") performed very strongly over the period under review helped by a de-escalation of trade tensions between the US and China, a resumption of monetary easing by the Federal Reserve and continued positive news flow on AI investment. Outperformance relative to the performance comparator was largely explained by positive stock selection within our Chinese equity holdings while our cash balance was the largest detractor from relative performance.

Samsung Electronics was the largest individual stock contributor as investors reacted very positively to better than expected earnings helped by robust AI-related demand. Luxshare Precision was also a key contributor while Reliance Industries was the largest detractor due to weak refining margins.

Market outlook

Global markets are likely to remain volatile but in an upward trend as hopes for more monetary easing more than offsets any AI valuation concerns.

The backdrop for EM remains positive with policy-making likely to remain expansionary which should help to lift economic activity and corporate earnings. In addition, the recent US/China trade truce has removed some uncertainty while a weaker trending USD can provide additional support.

Meanwhile the absolute valuation of EM equities and the relative valuation versus developed equities appears very attractive, suggesting investor expectations for the asset class remain very low.

We will continue our process of building new or adding to existing positions in companies with strong and sustainable business franchises where our proprietary bottom-up research has identified a significant degree of undervaluation relative to their future growth potential.

* The Fund return uses the midday prices, whereas the return of the comparator is calculated using global close prices.

Investment Managers' Report (continued)

For the financial period ended 31 October 2025

Barings Latin America Fund

Performance

Barings Latin America Fund (the "Fund") generated a gross return of 20.02% on the Class A USD Inc unit class and outperformed its performance comparator with a return of 19.86%* during the reporting period. The Fund generated a net return of 19.00% on the Class A USD Inc unit class over the same period.

After a lacklustre performance during the last months of 2024, driven by fears of loose fiscal policy, Latin American equity markets have performed relatively well in 2025.

A significant amount of the performance of Latin American equities this year has been driven by expectation of political change in the region, particularly in Colombia, Chile, and Brazil (all have presidential elections in 2026). Mexico has also performed well this year as there are expectations that President Trump will maintain the USMCA free trade agreement mostly intact.

At the sector level, our high exposure to Financials contributed positively to performance. Specifically, our exposure to Andean banks Credicorp and Grupo Cibest. These banks benefited from upwardly revised earnings estimates throughout the year.

In contrast, our lack of exposure to the Materials sector detracted from performance. Specifically, we did not have exposure to Mexican cement producer CEMEX, which has rallied significantly this year as management has delivered on its promised cost cutting programs.

Market outlook

Global equity markets are likely to remain volatile in the near-term until there is greater clarity over the final tariff policy which the USA will apply to each country. This uncertainty may also temporarily impact global economic activity as some planned corporate investment is put on hold.

In response to this uncertain backdrop, policymaking in EM is likely to continue being expansionary, which should help to support economic activity and corporate earnings.

The recent de-escalation in US/China trade tensions has been welcomed by investors but a more detailed and sustainable trade agreement will take longer to finalise. Likewise, the Mexico-USA trade relationship seems to have stabilised ahead of the 2026 USMCA renegotiation. A final agreement in 2026 would be perceived as a positive development.

Meanwhile, the absolute valuation of LATAM equities and the relative valuation versus developed equities appears very attractive, suggesting investor expectations for the asset class remain very low. Dividend yields, especially in Brazil, are relatively high offering an additional incentive for investors to patiently wait for valuations to converge.

We will continue our process of building new or adding to existing positions in companies with strong and sustainable business franchises where our proprietary bottom-up research has identified a significant degree of undervaluation relative to their future growth potential.

* The Fund return uses the midday prices, whereas the return of the comparator is calculated using global close prices.

BARINGS

Barings Emerging Markets Umbrella Fund

Notes to the financial statements

For the financial period ended 31 October 2025

1. Basis of measurement

The financial statements presented are unaudited condensed interim financial statements for the financial period ended 31 October 2025 that have been prepared in accordance with Financial Reporting Standard 104 ("FRS 104") "Interim Financial Reporting".

The condensed interim financial statements should be read in conjunction with the annual financial statements for the financial year ended 30 April 2025, which have been prepared in accordance with accounting standards generally accepted in Ireland, including FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and Irish statute, comprising the Unit Trusts Act, 1990, and the provisions of the Hong Kong Code on Unit Trusts and Mutual Funds, supplemented or consolidated from time to time.

The accounting policies applied in these condensed interim financial statements are consistent with those used in the Barings Emerging Markets Umbrella Fund's (the "Unit Trusts") most recent annual financial statements for the financial year ended 30 April 2025.

The condensed interim financial statements have been prepared under the historical cost convention as modified by the revaluation of financial assets held at fair value through profit or loss. These financial statements were prepared on the going concern basis.

The Unit Trust meets all the conditions set out in FRS 102, section 7 and consequently has availed of the exemption available to certain funds not to prepare a statement of cash flows.

The comparative figures included for the Statement of Financial Position relate to the previous financial year ended 30 April 2025, while the comparative figures included for the Statement of Comprehensive Income and Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Units relate to the six month period ended 31 October 2024.

2. Significant accounting policies

Fair value measurement

By fully adopting FRS 102, in accounting for its financial instruments, a reporting entity is required to apply either a) the full requirements of FRS 102 relating to Basic Financial Instruments and Other Financial Instruments, b) the recognition and measurement provisions of IAS 39 Financial Instruments: Recognition and Measurement and only the disclosure requirements of FRS 102 relating to Basic Financial Instruments and Other Financial Instruments, or c) the recognition and measurement provisions of IFRS 9 Financial Instruments and only the disclosure requirements of FRS 102 relating to Basic Financial Instruments and Other Financial Instruments. The Unit Trust has chosen to implement b) the recognition and measurement provisions of IAS 39 Financial Instruments: Recognition and Measurement and only the disclosure requirements of FRS 102 relating to Basic Financial Instruments and Other Financial Instruments.

The use of IAS 39 recognition and measurement provisions is in line with the pricing policy set out in the Trust Deed, which outlines that the fair value of financial assets and financial liabilities be valued at the last traded prices. The financial statements include all the trades received for Barings Global Emerging Markets Fund up until 12:00 p.m. (Irish time) on 31 October 2025, the valuation point of the Unit Trust and all the trades received for Barings Latin America Fund up until 3:30 p.m. (Irish time) on 31 October 2025, the valuation point of the Unit Trust.

There were no adjustments made to the value of investments in Barings Global Emerging Markets Fund and Barings Latin America Fund on 31 October 2025.

* Class X units: No management fees are taken in the Fund in respect of Class X units. Fees are charged outside of the Fund under a separate agreement between the investor and Baring Asset Management Limited (the “Investment Manager”).

** Barings Latin America Fund Class I GBP Inc unit class launched on 14 January 2025.

The Unit Trust is managed by the Manager, who has delegated investment responsibility to Baring Asset Management Limited (the “Investment Manager”). The Investment Manager is an investment management company incorporated in London on 6 April 1994. The Investment Manager is part of the Barings LLC Group and is a wholly owned subsidiary of Massachusetts Mutual Life Insurance Company (“MassMutual”). Management fees charged during the financial period-end are disclosed on each Fund’s Statement of Comprehensive Income and the outstanding amounts payable for management fees as at the end of the financial period-end are disclosed on each Fund’s Statement of Financial Position.

The Manager will discharge the fees and expenses of the Investment Manager out of its own fee. The management fee is payable monthly in arrears and is calculated by reference to the Net Asset Value of each Fund as at each business day (“valuation day”).

Where the Net Asset Value of any Fund includes interests in any Investment Fund managed by a subsidiary of the parent company (a “Barings Fund”), the fee payable to the Manager relating to the holding will be reduced by the percentage rate (if any) charged to the Barings Fund for comparable management services.

Operating fees

The Manager is entitled to receive an Operating fee. The fee payable is a percentage of the Net Asset Value of each class and is accrued daily and paid monthly in arrears. The Manager pays out of the Operating Fee the aggregate fees and expenses to the Administrator and the Depositary, in addition to certain other fees and ongoing expenses.

For Barings Global Emerging Markets Fund, the Manager is entitled to receive a fee of 0.45% per annum for all A unit classes (A Hedged classes 0.4625%) and 0.25% per annum for all I and X unit classes (I Hedged classes 0.2625%).

For Barings Latin America Fund, the Manager is entitled to receive a fee of 0.45% per annum for all A unit classes (A Hedged classes 0.4625%) and 0.25% per annum for all I unit classes.

6. Significant agreements and fees (continued)

Trailer fees and reimbursements

Trailer fees (commissions for the marketing of the Funds) are paid to distribution, commission and sales agents out of the management fees. Reimbursements to institutional investors, who, from a commercial perspective, are holding the Funds' units for third parties, are also paid out of the management fees.

Transaction costs

The Funds' transaction costs at 31 October 2025 and 31 October 2024 are included in the Net fair value gain/loss on the financial assets at fair value through profit or loss under the Statement of Comprehensive Income.

The transaction costs incurred by the Funds for the financial periods ended 31 October 2025 and 31 October 2024 were as follows:

	31 October 2025	31 October 2024
	US\$	US\$
Barings Global Emerging Markets Fund	303,003	165,300
Barings Latin America Fund	131,633	99,383

7. Related party transactions

Rhian Williams is employed by Barings Investment Services Limited. Alan Behen and Paul Smyth are employees of the Manager. Syl O'Byrne and Barbara Healy are non-executive Directors, independent of the Investment Manager. The Manager will discharge the fees and expenses of the Investment Manager out of its own fee. The Investment Manager is part of the Barings LLC group and is a wholly owned subsidiary of Massachusetts Mutual Life Insurance Company ("MassMutual"). Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operation decisions.

Significant unitholdings

The following table details significant concentrations in unitholdings of each Fund, or instances where the units are beneficially held by other Investment Funds managed by the Investment Manager or one of its affiliates. As at 31 October 2025 and 30 April 2025, the following had significant holdings in the Funds:

Fund Name	Number of unitholders with beneficial interest greater than 20% of the units in issue	Total % of units held by unitholders with beneficial interest greater than 20% of the units in issue	Total % of units held by investment funds managed by Baring International Fund Managers (Ireland) Limited or affiliates

8. Fair value hierarchy

FRS 102 requires the Funds to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
- Level 3: Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Manager. The Manager considers observable data to be market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The following tables analyse, within the fair value hierarchy, the Funds' financial assets measured at fair value.

8. Fair value hierarchy (continued)

There have been no transfers during the financial period ending 31 October 2025 or the financial year ending 30 April 2025 from Level 1 to Level 2.

Transfers between levels, when applicable, occur at the end of the financial period.

Cash includes deposits held with banks and other short-term investments in an active market and they are categorised as Level 1. All receivables and payables are categorised as Level 2.

9. Efficient portfolio management

The Funds may use Financial Derivative Instruments ("FDIs") for efficient portfolio management. The efficient portfolio management purposes for which the Unit Trust intends to employ FDIs are reduction of risk, reduction of cost and the generation of additional capital or income for the relevant Funds with an appropriate level of risk, taking into account the risk profile of the Fund and the general provisions of the UCITS Regulations. The Unit Trust may use various types of derivatives for these purposes, including, without limitation currency forward contracts. Other than the use of foreign exchange contracts, it is not proposed to use FDI for the Funds.

Risk Monitoring of Global Exposure

The Funds have been classified as a non-sophisticated user of FDI (Financial Derivative Instruments) and, as permitted by the Central Bank UCITS Regulations, the Unit Trust has adopted a commitment approach (the "Commitment Approach") in the calculation of global exposure for the Funds during the financial period.

The Funds Commitment Approach has been calculated, in the case of forward currency contracts ("FCCTs"), by converting the FCCT position into an equivalent position based on the market value of the underlying asset. As the FDI are used for hedging purposes, the exposure of the FDI has been calculated and then netted against the instrument being hedged. The Global Exposure calculation is performed on a daily basis.

In no circumstances will the global exposure of a Fund exceed 100% of its Net Asset Value.

14. Transactions with connected persons

The UCITS Regulations require that any transaction carried out with the Unit Trust by a Manager, Depositary, Investment Manager and/or associate of these ("connected persons") must be carried out as if negotiated at arm's length. Transactions must be in the best interests of the unitholders.

The Directors of the Manager are satisfied that there are arrangements (evidenced by written procedures) in place to ensure that the obligations set out in Regulation 43(1) of the Central Bank UCITS Regulations are applied to all transactions with connected persons, and are satisfied that transactions with connected persons entered into during the period complied with the obligations set out in Regulation 43(1) of the Central Bank UCITS Regulations.

15. Taxation

Under current Irish law and practice, the Fund qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended (the "TCA"). On that basis, it is not chargeable to Irish tax on its income or gains.

However, Irish tax may arise if a "chargeable event" occurs. A chargeable event includes any distribution payments to unitholders or any encashment, redemption, cancellation, transfer or deemed disposal of units for Irish tax purposes arising as a result of holding units in the Company for a period of eight years or more, or the appropriation or cancellation of shares of a unitholder by the Unit Trust for the purposes of meeting the amount of tax payable on a gain arising on a transfer.

No Irish tax will arise on the Unit Trust in respect of chargeable events due to:

(a) a unitholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes at the time of the chargeable event, provided that a relevant declaration is in place (in accordance with Schedule 2b of the TCA) and the Unit Trust is not in possession of any information which would reasonably suggest that the information contained therein is no longer materially correct; or

(b) a unitholder who is an exempt Irish investor (as defined in Section 739D TCA).

Dividends, interest and capital gains (if any) received on investments made by the Unit Trust may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Unit Trust or its unitholders.

The Finance Act 2010 provides that the Revenue Commissioners may grant approval for Unit Trust Investment Undertakings marketed outside of Ireland to make payments to non-resident investors without deduction of Irish tax where no relevant declaration is in place, subject to meeting "equivalent measures". A Unit Trust Investment Undertakings wishing to receive approval must apply in writing to the Revenue Commissioners, confirming compliance with the relevant conditions.

On 1 October 2016 Brazilian Tax authorities announced that, with effect from 3 October 2016, Ireland was added to a list of countries designated as a tax haven. As a consequence of this, funds that are domiciled in Ireland, who are investing in Brazilian equity investments, would incur a tax liability on its Capital Gains on those equity investments in Brazil. The applicable rate of tax is 15% or 20%, dependent upon whether the trades are regarded as "regular" trades or "day" trades respectively.

As a result of the funds exposure to Brazil it was deemed necessary to accrue for the tax liability that would be incurred on equities being sold in Brazil. The Brazilian tax system is very complex with frequent changes however we cannot reasonably foresee that this will be a temporary policy unless there was significant political shift. This provision is monitored regularly to ensure its accuracy and compliance with the Brazilian government policy.

16. Bank facilities

There is a bank overdraft facility in place with The Northern Trust Company ("TNTC"). An "uncommitted" multi-currency loan facility has been made available by TNTC to the Funds. During the financial period ended 31 October 2025 and during the financial year ended 30 April 2025, the Funds have drawn down on this facility.

17. Significant events

In light of recent developments in U.S. trade policy, including the Trump administration's partial rollback of reciprocal tariffs for certain trade partners and expanded exemptions for agricultural products, the Investment Manager continues to monitor global trade negotiations and geopolitical risks closely. While the overall tariff environment remains elevated, with effective rates at historic highs and ongoing legal challenges creating uncertainty, the Unit Trust has not observed any material impact on portfolio performance or investor activity to date. The Investment Manager remains vigilant and is actively evaluating the implications of these developments for portfolio positioning, risk management, and liquidity oversight.

There have been no other significant events to the financial period-end which, in the opinion of the Directors of the Manager, may have had a material impact on the financial statements for the financial period ended 31 October 2025.

18. Subsequent events

There have been no events subsequent to the financial period-end which, in the opinion of the Directors of the Manager, may have had a material impact on these financial statements for the financial period ended 31 October 2025.

19. Russia/Ukraine Conflict

In response to the Russian invasion of Ukraine, the EU, the U.S., the UK and other governmental entities have passed a variety of severe economic sanctions and export controls against Russia, including imposition of sanctions against Russia's Central Bank, largest financial institutions and certain individuals. In addition, a number of businesses have curtailed or suspended activities in Russia or dealings with Russian counterparts for reputational reasons. While current sanctions may not target the Unit Trust, the Manager or the Portfolio Investments and their issuers and industries in which the issuers of the Portfolio Investments operate, these sanctions have had and may continue to have the effect of causing significant economic disruption and may adversely impact the global economy generally, and the Russian economy specifically by, among other things, creating instability in the energy sectors, reducing trade as a result of economic sanctions and increased volatility and uncertainty in financial markets, including Russia's financial sector. Additionally, any new or expanded sanctions that may be imposed by the U.S., EU, UK, or other countries may materially adversely affect the Manager's operations, including the Unit Trust and the Portfolio Investments.

20. Approval of financial statements

The financial statements were approved by the Directors of the Manager on 8 December 2025.

General information

For the financial period ended 31 October 2025

Market timing

Repeatedly purchasing and selling units in the Funds in response to short-term market fluctuations – known as ‘market timing’ – can disrupt Baring Asset Management Limited’s (the “Investment Manager’s”) investment strategy and increase the Funds’ expenses to the prejudice of all unitholders. The Funds are not intended for market timing or excessive trading. To deter these activities, the Directors of Baring International Fund Managers (Ireland) Limited (the “Manager”) may refuse to accept an application for units from persons that it reasonably believes are engaged in market timing or are otherwise excessive or potentially disruptive to the Funds.

The Directors of the Manager reserve the right to redeem units from a unitholder, on the basis of the circumstances of the unitholder concerned, or if it has reasonable grounds to believe that the unitholder is engaging in any activity which might result in the Funds or their unitholders as a whole suffering any legal, regulatory, reputational or other material disadvantage which the Funds or their unitholders as a whole might not otherwise have suffered.

UK reporting fund status

UK taxable investors in UK reporting funds are subject to tax on their units of the UK reporting funds’ income attributable to their holdings in the Funds, whether or not distributed, while typically any gains on disposal of their holdings are subject to capital gains tax.

Details of the unit classes which currently have UK reporting fund status are available at the His Majesty’s Revenue and Customs (“HMRC”) Collective Investment Schemes Centre website:

<http://www.hmrc.gov.uk/cisc/offshore-funds.htm>.

As stated above, UK tax payers should note that, for each unit class with reporting fund status, their share of any amounts of income, if any, that have not been distributed will be subject to tax.

Further details will be made available on the Baring’s website: www.baring.com.

Appendix 1 – Information for investors in Switzerland

For the financial period ended 31 October 2025

Baring International Fund Managers (Ireland) Limited (the “Manager”) has appointed BNP PARIBAS, Paris, Zurich branch, Selnaustrasse 16, CH-8002, Zurich, Switzerland, as representative and paying agent for Switzerland. Units are distributed in Switzerland by BNP PARIBAS, Paris at the above address. Investors can obtain, free of charge, the Prospectus, the Key Information Document(s) (“KID(s)”), the last annual and interim reports, the Unit Trusts Act, 1990, as well as a list of the purchases and sales made on behalf of the Funds, from the representative at the above address. Official publications for the Funds are found on the internet at www.fundinfo.com. Unit prices (Net Asset Value with the words “plus commissions”) are published daily on the internet at www.fundinfo.com.

All the information appearing in these reports and accounts is solely with respect to those Funds of the Trust which are licensed for public offer and marketing in or from Switzerland, namely: Barings Global Emerging Markets Fund and Barings Latin America Fund.

Total Expense Ratio

Pursuant to a guideline from the Asset Management Association Switzerland (“AMAS”) dated 16 May 2008, the Funds are required to publish a total expense ratio (“TER”) for the period ended 31 October 2025.

The TER's for each Fund for the financial period ended 31 October 2025 and financial year ended 30 April 2025 are as follows:

Name of Fund	31 October 2025 TER in %	30 April 2025 TER in %
Barings Global Emerging Markets Fund - (Class A EUR Inc, Class A GBP Inc, Class A USD Acc & Class A USD Inc)	1.95	1.95
Barings Global Emerging Markets Fund - (Class I EUR Acc, Class I GBP Acc & Class I USD Acc)	1.00	1.00
Barings Global Emerging Markets Fund - (Class X USD Acc)*	0.25	0.25
Barings Latin America Fund - (Class A EUR Inc & Class A USD Inc)	1.70	1.70
Barings Latin America Fund - (Class I EUR Acc, Class I GBP Acc & Class I USD Acc)	1.00	1.00
Barings Latin America Fund - (Class I GBP Inc)**	0.96	0.31

* Barings Global Emerging Markets Fund Class X units will be available on a limited basis subject to agreement with Baring Asset Management.

** Barings Latin America Fund Class I GBP Inc unit class launched on 14 January 2025.

This information was established by the Manager, Baring International Fund Managers (Ireland) Limited, based on the data contained in the profit and loss account for the above reference period/year (Fund management fees, administration fees, depositary fees, taxes and duties, all other commissions and expenses appearing as per the breakdown of the profit and loss account and not already included in any of the foregoing categories). The TER is calculated using the average daily Net Asset Value for the period/year.

Special risks resulting from tax publication requirements in Germany

Foreign investment companies (such as Baring International Fund Managers (Ireland) Limited (the “Manager”)) must provide documentation to the German fiscal authorities upon request, e.g. in order to verify the accuracy of the published tax information. The basis upon which such figures are calculated is open to interpretation and it cannot be guaranteed that the German fiscal authorities will accept the Manager’s calculation methodology in every material respect. In addition, if it transpires that these publications are incorrect, any subsequent correction will, as a general rule, not have retrospective effect and will, as a general rule, only take effect during the current period. Consequently, the correction may positively or negatively affect the investors who receive a distribution or an attribution of deemed income distributions in the current period.
