## Barings Investment Umbrella Fund

### Introduction

---

This Interim Report and Unaudited Financial Statements covers the period from 1 September 2025 to 28 February 2026 and reviews the performance and market outlook for the Barings Global Agriculture Fund (the "Fund"), a sub-fund of the Barings Investment Umbrella Fund, managed by Baring Fund Managers Limited ("the Authorised Corporate Director" or "ACD").

The functional and presentational currency for the Fund is Pound Sterling ("Sterling").

As an investor in the Fund, your money is pooled with that of other investors and invested by the ACD in line with the Investment objective and policy as shown on page 4.

The Fund is authorised by the Securities and Futures Commission ("SFC") pursuant to Section 104 of the Securities and Futures Ordinance of Hong Kong ("SFO") and hence may be offered to the public of Hong Kong.

The SFC's authorisation is not a recommendation or endorsement of a scheme nor does it guarantee the commercial merits of a scheme or its performance. It does not mean the scheme is suitable for all investors nor is it an endorsement of its suitability for any particular investor or class of investors.

### Geopolitical Outlook

The ACD is closely monitoring global market developments and geopolitical events such as the Russian invasion of Ukraine, ongoing Iran-US conflict, and heightened geopolitical uncertainty. While these events have contributed to heightened uncertainty across financial markets, as at 23 April 2026, the Fund has not experienced any material impact on performance or investor redemptions. The ACD remains vigilant and continues to assess potential implications for portfolio positioning and risk management.

---

## Barings Global Agriculture Fund

### Investment Objective and Policy and Fund at a Glance

---

#### Investment Objective and Policy

The Barings Global Agriculture Fund (the “Fund”) aims to provide a total return, including both capital growth and dividend income (after fees have been deducted), in excess of the MSCI All Country World Index (ACWI) Net Total Return Index over a rolling five year period by investing in equity and equity related securities in the agricultural sector.

The Fund will seek to achieve its investment objective by investing at least 70% of its Net Asset Value directly and indirectly in equities and equity-related securities in any issuer, including those in developed and emerging markets, where the majority of earnings of issuers or holding issuers are derived from activities related to any commodities which are grown or raised, commonly known as agricultural or soft commodities.

These issuers are likely to encompass, without being limited to: fertiliser, agricultural machinery, animal feed, seed and crop protection manufacturers, agricultural producers including farms, plantations and aquaculture, crop processors, grain and edible oil handlers and distributors, timber, pulp and paper, food ingredient companies, food manufacturers and food retailers.

The Fund will invest at least 50% of the Fund’s Net Asset Value in equities of issuers that exhibit positive or improving environmental, social and governance (ESG) characteristics. Furthermore, the Fund may also invest up to 50% of its Net Asset Value in equities and equity related securities of issuers that exhibit less positive ESG characteristics. Such issuers are selected through the use of proprietary research supported with the use of third party data. This analysis is also an important driver behind the Investment Manager’s policy of active issuer engagement in which the Investment Manager seeks to influence (or identify the need to influence) ESG practices and to improve disclosure. Further detail of the Investment Manager’s, Public Equity: ESG Integration & Active Engagement Policy for equity funds including the Fund is available on the Manager’s website at [www.baring.com](http://www.baring.com).

For the remainder of its total assets, the Fund may invest directly and indirectly in equities and equity related securities of issuers outside of the agricultural sector as well as in fixed income and cash.

In order to implement the investment policy, the Fund may gain indirect exposure through American depositary receipts, global depositary receipts and other equity related securities including participation notes, structured notes, equity-linked notes and debt securities convertible into equities. The Fund may also obtain indirect exposure through investments in collective investment schemes (including collective investment schemes managed by the ACD or an associate of the ACD) and other transferable securities. It may also use derivatives including futures, options, swaps, warrants and forward contracts for efficient portfolio management and for investment purposes.

#### Benchmark

The target benchmark is the MSCI All Country World Index (ACWI) Net Total Return Index. The benchmark has been selected as it tracks the performance of large and mid-cap representation across developed and emerging market countries. The benchmark constituents are not required to exhibit positive/improving ESG characteristics.

The Fund is actively managed and targets outperformance of the benchmark over a five year period. There is however no guarantee that this objective will be achieved over any time period. The Fund is not constrained by the benchmark and can make investments in securities that are not included in the benchmark. Differences in the performance of the Fund compared to the benchmark may also arise as a result of application of the UK UCITS Rules prescribing portfolio concentration and liquidity limits, which are not applied to the benchmark. The ACD considers the benchmark is appropriate based on the investment policy of the Fund.

## Barings Global Agriculture Fund

### Investment Objective and Policy and Fund at a Glance (continued)

---

#### How the Fund is Managed

At Barings, our equity investment teams share the philosophy of quality “Growth at a Reasonable Price” (“GARP”). We believe that earnings growth is the principal driver of equity market performance over the medium to long term, and favour high-quality companies for their ability to outperform the market on a risk-adjusted basis. In particular, we believe that structured fundamental research and a disciplined investment process combining quality, growth, upside, and Environmental, Social, Governance (“ESG”) considerations can allow us to identify attractively priced, long-term growth companies which will outperform the market. Our approach emphasises both growth and quality criterion when looking at companies and a three- to five-year time horizon when forecasting company earnings. In determining upside, we use consistent and transparent methods to place emphasis on discounted earnings models. We value companies on a long-term basis utilizing proprietary valuation models that incorporate ESG analysis and macro considerations.

#### Risk Profile

Please see detailed below the key risks applicable to the Fund:

- Changes in exchange rates between the currency of the Fund and the currencies in which the assets of the Fund are valued can have the effect of increasing or decreasing the value of the Fund and any income generated.
- Derivative instruments can make a profit or a loss and there is no guarantee that a financial derivative contract will achieve its intended outcome. The use of derivatives can increase the amount by which the Fund’s value rises and falls and could expose the Fund to losses that are significantly greater than the cost of the derivative. Some derivative transactions may be entered into directly with an eligible person or institution (a “counterparty”). There is a risk that the counterparty may not meet its obligations or become insolvent, which could cause the Fund to incur a loss.
- Emerging markets or less developed countries may face more political, economic or structural challenges than developed countries. Coupled with less developed regulation, this means your money is at greater risk.
- Natural events such as fire, drought, flood and disease may have an adverse impact on the agricultural and commodities markets. These markets may also fluctuate significantly due to changing market supply and demand relationships, for example.
- Losses may occur if an organisation through which we buy an asset (such as a bank) fails to meet its obligations.
- Liquidity risk exists when a particular security or instrument is difficult to purchase or sell. If the amount of a transaction is particularly large or if the relevant market is illiquid (as is the case with many privately negotiated derivatives, structured products, etc), it may not be possible to initiate a transaction or liquidate a position at an advantageous time or price.

Please refer to the Prospectus for the full risk profile.

## Barings Global Agriculture Fund

### Report of the Investment Manager

---

#### Performance

Over the six-month period to 28 February 2026, the Barings Global Agriculture Fund (the “Fund”) gained by 9.78% on the Class A GBP Acc (net of fees) and underperformed against the target benchmark, which rose by 12.17%. The table below shows the 6 months, 1 year and 5 year annualised net return for the Class A GBP Acc shares against the target benchmark.

	6 months	1 year	5 years
Barings Global Agriculture Fund	9.78%	10.88%	2.07%
MSCI AC World (Net Total Return) Index*	12.17%	16.31%	5.65%

*\* The target benchmark was changed from the DAXglobal® Agribusiness (Total Net Return) Index to the MSCI AC World (Net Total Return) Index on 31 October 2024. As a result, the returns shown above reflect a blend of both benchmarks over the relevant periods.*

Grains and edible oils moved higher with robust demand. US soybean prices reacted positively to the agreement from China to buy US soybeans over the next 3 years. US farmers received further support from the US Government following a \$12 billion pay out. This provided a positive backdrop for companies selling products and services to farmers such as fertiliser and agricultural machinery. Furthermore, soybean processors and biofuel producers also appreciated with improving margins. However, the broader equity market outpaced the Fund's gains in the period with positive performance from the Healthcare, Industrials and Materials sectors.

The Fund has underperformed the benchmark over the previous 5 years. The underperformance is most concentrated in the 1 year to the end of September 2025 when the Agricultural equity asset class underperformed the broader equity market as represented by the benchmark, the MSCI AC World index. The agricultural asset class was at a trough in the agricultural economic cycle over this period with depressed grains and edible oil prices following successive large global harvests leading to subdued demand for agricultural products and services. In contrast the global equity market was strong over this period. More encouragingly, we have seen an inflection in performance particularly since the start of the year with strong performance from fertilisers, agricultural machinery, biofuels and soybean processors.

The upstream sectors of fertiliser performed strongly with rising underlying fertiliser commodity prices. North American fertiliser company Nutrien was a particularly strong performer with excellent operational execution, particularly in potash-based fertiliser. On the other hand, North American fertiliser company Mosaic detracted from performance following disappointing operational updates leading to lower phosphate-based fertiliser production. The agricultural machinery sector performed well as industry bellwether Deere indicated that we may have reached a trough in the industry sales in the US. Japanese agricultural machinery manufacturer Kubota was a standout performer as a new CEO laid out a plan to improve profitability over the medium term and reporting strong earnings in the fourth quarter.

The US biofuels sector received a boost with a bullish proposal to significantly increase biodiesel volumes in 2026 and 2027. This helped to propel forward renewable diesel margins and the shares of US listed food products and renewable diesel producer Darling Ingredients. Higher biofuel margins helped push soybean oil prices higher and this led to increased soybean processing margins. This was positive for the large agribusiness and soybean processors Bunge and Archer Daniel Midland in the fund. We did add to Bunge in the quarter, funded in part from Archer Daniels Midland as we had more upside in Bunge.

In terms of detractors, the more consumer orientated companies struggled such as US rural and farmer retailer Tractor Supply declined following weaker than expected earnings with subdued sales reflecting macro headwinds. Dutch listed DSM Firmenich underperformed following disappointing earnings and we sold our position.

In terms of portfolio construction, the largest addition was in US based nitrogen fertiliser manufacturer CF Industries as we believed that the valuation was compelling and the company was generating significant free cash flow. This has subsequently proved to be an excellent investment as it appreciated significantly in March with the war in Iran.

## Barings Global Agriculture Fund

Report of the Investment Manager (continued)

The top ten purchases and sales during the period were as follows:

Purchases	Costs £'000	Sales	Proceeds £'000
CF Industries	2,604	Archer-Daniels-Midland	1,768
Nestle	654	DSM-Firmenich	1,579
Ingredion	591	Ingredion	1,393
Bucher Industries	590	Rayonier	1,246
Bunge Global	576	Graphic Packaging	771
Rumo	555	First Resources	716
Novonosis	539	Borregaard	702
AGCO	346	Rumo	649
Kubota	294	Danone	605
Nutrien	282	SLC Agricola	600

### Market Outlook

We believe that there is upside price risk for crop prices given biofuel demand and cost push pressures from fertiliser and energy. Nitrogen based fertiliser prices have likely structurally increased as we believe natural gas prices outside of North America have risen. We continue to largely hold the North American fertiliser companies as core positions in the fund and would expect that excess cash flow from the North American fertiliser companies will likely be returned to shareholders.

We think that we have finally reached an inflection point in Ag Machinery after entering the third year of downturn. The large Agricultural Machinery manufacturers believe that this year will be the trough in the US market as this will be the third year in the downturn and four years downturn in Ag Machinery is very rare, the last time this happened was in the 1980s.

The new US mandate for biodiesel volumes is a game changer for the industry and we do expect this to structurally improve renewable diesel margins. This should also lead to increasing soybean processing margins with increasing demand for soybean oil for use in producing biofuels, which is positive for the large soybean processors Archer Daniels Midland and Bunge.

In protein, we are taking a selective approach and we are most positive on salmon, as we believe salmon prices will continue to be strong due to the restricted supply this year. Consumer spending is likely to be under more pressure with less disposable income with higher energy costs and this will create slower growth in the more consumer food orientated sectors in our view.

Overall, we believe valuations in the agricultural equity asset class are attractive with strong cash flows and balance sheets. In particular, we believe that the fundamentals are constructive in the biofuels and fertiliser sectors and we think we are likely at the bottom for the Ag machinery sector

### Baring Asset Management Limited

*Baring Asset Management Limited (the "Investment Manager") gives its portfolio managers full authority to manage their funds as they see fit, within the established guidelines set down. This includes the views that managers may take of the markets and sectors they invest in, which may differ from the views of other Barings portfolio managers.*

## Barings Global Agricultural Fund

### Environmental, Social and Governance ("ESG") Integration

---

#### ESG INTEGRATION PROCESS

Barings integrates environmental, social, and governance ("ESG") considerations into all company analysis and investment decisions. We achieve this through a focus on integration, forward-looking dynamics, and active engagement with management teams to unlock long-term returns and improve ESG outcomes.

##### Integration

Integrating ESG is core to our fundamental research and allows us to better assess the risks and opportunities for our investments that are not apparent in traditional fundamental analysis. This influences both our quality assessment of a company as well as its valuation, and is therefore integral to decision making.

##### Dynamic & Forward Looking

Our proprietary assessment is aimed at capturing improving or deteriorating standards to highlight and reward more sustainable business practices, rather than relying on static assessments from third parties.\*

##### Engagement

We aim to drive outcomes through direct engagement with corporate management teams, by minimizing material ESG risks and potentially unlocking value for our investors, rather than relying on blanket exclusions.

Please note, we will not directly invest in companies that violate International Conventions on cluster munitions, anti-personnel mines, chemical and biological weapons. We will not knowingly hold companies that are materially involved in the production, stockpiling and use of these weapons at the time of investment. Our strong preference is to engage with companies, as opposed to applying a broad based sector exclusion approach.

For the purposes of the Sustainable Finance Disclosure Regulation, this Fund promotes environmental or social characteristics and is classified as an Article 8 product.

#### Holdings % with Positive or Improving ESG Characteristics as at 28 February 2026

	Positive or Improving	All Others
Barings Global Agriculture Fund	83.96%	16.04%

#### ENGAGEMENT CASE STUDY: AAK

##### Engagement Category: Environmental

Format: One to one meeting

Contact: Chief Financial Officer

##### Engagement Overview

We engaged with plant based specialised vegetable oil refiner AAK to understand how management are progressing on their target to achieve zero deforestation for primary linked deforestation-commodities by 2025.

##### Engagement Objective: Drive Sustainability Outcome

AAK sources significant amounts of vegetable oils in their production process. AAK has a target of sourcing 100% verified deforestation and conversion free soy and 100% deforestation free palm oil by 2025. However, in their 2024 sustainability report AAK had only achieved 28% verified deforestation and conversion free soy.

##### Outcome

AAK have made good progress in their commitments to achieve verified deforestation free palm oil, as they were up to 91% in 2024.

\*Barings cost of equity is applied to value companies. This includes an ESG adjustment of between +2% to 1% to the cost of equity in our valuation process based on our proprietary assessment of each company's ESG profile. The best ESG rated stocks are awarded a 1% discount to the required cost of equity while the worst have a 2% premium applied to our required cost of equity.

---

## **Barings Global Agricultural Fund**

### **Environmental, Social and Governance (“ESG”) Integration (continued)**

---

AAK are below target on soy, so we wanted to understand why and what changes can be made to help achieve the target. Achieving these targets are key in reducing emissions, as 93 percent of AAK’s total emissions come from their supply chain.

The CFO confirmed that they are reviewing the target as there has been some problems with validation and the definition of verified deforestation and conversion free soy and we will see some changes in the next sustainability report.

We will follow up and closely track their progress when the new policy is published in their next sustainability report.

**Barings Global Agriculture Fund**  
**Notes to the Financial Statements**  
for the period ended 28 February 2026

---

**Basis of Accounting**

The financial statements have been prepared with the historical cost convention, as modified by the revaluation of investments, and in accordance with UK Generally Accepted Accounting Practice and the Statement of Recommended Practice for UK Authorised Funds issued by the Investment Association ("IA") in May 2014 (the "IMA SORP 2014") as amended in 2017.

The financial statements have been prepared on a going-concern basis.

**Post balance sheet events**

Subsequent to the period end, the net asset value per share of the A GBP Accumulation share class decreased from 308.80p to 307.80p, I GBP Accumulation share class from 349.30p to 348.70p, X GBP Accumulation share class from 325.10p to 324.90p, A USD Hedged Accumulation share class from 352.90c to 351.80c, A AUD Hedged Accumulation share class from 523.30c to 521.70c, A EUR Accumulation share class increased from 353.10c to 354.30c, A USD Accumulation share class from 418.10c to 418.20c and I USD Accumulation share class from 475.20c to 475.80c as at 21 April 2026. Subsequent to the period end, the number of units of the I GBP Accumulation share class increased from 11,034,431 to 12,422,629, A USD Accumulation share class from 4,848,336 to 5,879,000 and A USD Hedged Accumulation share class from 42,205 to 48,209 as at 21 April 2026. These movements take into account routine transactions.

The ACD continues to monitor investment performance in line with investment objectives.

### The Risk and Reward Profile

---

	SRRI risk category* 28/02/2026	SRRI risk category* 31/08/2025
Barings Global Agriculture Fund - Class A GBP Acc	6	6
Barings Global Agriculture Fund - Class A EUR Acc	6	6
Barings Global Agriculture Fund - Class A USD Acc	6	6
Barings Global Agriculture Fund - Class I GBP Acc	6	6
Barings Global Agriculture Fund - Class I USD Acc	6	6
Barings Global Agriculture Fund - Class X GBP Acc	6	6
Barings Global Agriculture Fund - Class A USD Hedged Acc	6	6
Barings Global Agriculture Fund - Class A AUD Hedged Acc	6	6

\* The Synthetic Risk and Reward Indicator ("SRRI") is not a measure of the risk of capital loss, but a measure of the Fund's price movement over time; the higher the number, the greater the price movement both up and down. It is based on historical data and is not a reliable indication of the future risk profile of the Fund. The risk category shown is in line with the Key Information Document ("KID") at period-end, is not guaranteed, and may change over time. The risk categories are measured from 1 to 7 (1 measuring typically lower risk/rewards and 7 measuring typically higher risk/rewards). The lowest category does not mean a risk-free investment. The Fund is classified in the category indicated due to past movements in the Fund's price. There is no capital guarantee. The value of investments and the income from them may go down as well as up and investors may not get back the amount they invest. The SRRI figures shown have not changed during the period.

---

## Barings Investment Umbrella Fund

### Important Information

---

#### Constitution

Barings Investment Umbrella Fund (the "Company") is an open-ended investment company with variable capital incorporated in England and Wales (registered number IC709) under the open-ended investment companies regulations 2001 and authorised by the Financial Conduct Authority ("FCA") with effect from 14 October 2008. The Company is a UCITS retail scheme under the FCA's rules.

The Company currently has one sub-fund, the Barings Global Agriculture Fund (the "Fund") and the shareholders are not liable for the debts of the Company.

This document has been issued by Baring Fund Managers Limited (the "Authorised Corporate Director" or "ACD") which is authorised and regulated by the FCA.

#### Performance

Past performance is no indication of current or future performance. Investment involves risk. The value of any investments and any income generated may go down as well as up and is not guaranteed. Any references in this report to other investments held within the Fund should not be read as a recommendation to the investor to buy and sell the same but are included as illustration only.

#### Key changes during the period

There were no key changes during the period.

#### Market timing

Repeatedly purchasing and selling shares in the Fund in response to short-term market fluctuations – known as 'market timing' – can disrupt the ACD's investment strategy and increase the Fund's expenses to the prejudice of all shareholders.

The Fund is not intended for market timing or excessive trading. To deter these activities, the ACD may refuse to accept an application for shares from persons that it reasonably believes are engaged in market timing or are otherwise excessive or potentially disruptive to the Fund.

The ACD also reserves the right to redeem shares which it reasonably believes have been purchased by shareholders engaged in market timing.

#### Publication of prices

The prices of shares are published on the Barings website at [www.baring.com](http://www.baring.com). You can also obtain prices by telephone by calling +44 (0) 333 300 0372.

#### Dealing basis

The ACD's basis for dealing in purchases and sales of the Fund's shares is "forward". This means that the price used for any deal will be calculated at the next valuation point following receipt of the investor's instruction.

#### Fees and expenses

The ACD's periodic charge is calculated on each business day, based on the value of the property of the Fund on the immediately preceding business day, and is paid to the ACD monthly, in arrears, on the first business day of the calendar month immediately following. The current annual management fees charged to the Fund are shown on page 6.

#### Revenue allocations and reports

Revenue allocations are made on 30 April (interim) and 31 October (final) of each year, where applicable, and forwarded to shareholders together with tax vouchers. The most recent annual report and audited financial statements and interim report and unaudited financial statements will be available on the Baring Asset Management Limited website at [www.baring.com](http://www.baring.com).

#### Prospectus and ACD's reports

Copies of the Prospectus, the Key Information Document(s) ("KID(s)"), and the most recent annual or interim report and financial statements are available to all persons free of charge from the ACD upon request.

PricewaterhouseCoopers LLP (the "Independent Auditor") expresses its opinion on the English version of the annual report and financial statements, and accepts no responsibility for any translations of those financial statements.

---

## Barings Investment Umbrella Fund

Important Information (continued)

---

### Value assessment

As part of the FCA's Asset Management Market Study, Authorised Fund Managers are now required to produce an annual Value Assessment for all UK authorised funds. The ACD published its annual Value Assessment for the Barings funds as part of a broader composite report in December 2025. This is available on the Barings website at [www.baring.com](http://www.baring.com).

---

## Barings Global Agriculture Fund

### Disclosure for Overseas Investors

---

#### **Special risks resulting from additional German tax publication requirements in Germany**

A foreign investment company such as Baring Fund Managers Limited (the "Authorised Corporate Director" or the "ACD") must provide documentation to the German fiscal authorities upon request, e.g. in order to verify the accuracy of the additional German published tax information. German investors will use this for their tax returns. The basis upon which such figures are calculated is open to interpretation and it cannot be guaranteed that the German fiscal authorities will accept the ACD's calculation methodology in every material respect. In addition, you should be aware that if it transpires that these publications are incorrect, any subsequent correction will, as a general rule, not have retrospective effect and will, as a general rule, only take effect during the current financial year. Consequently, the correction may positively or negatively affect the investors who receive a distribution or an attribution of deemed income distributions in the current financial period.

#### **Information for investors in Switzerland**

The ACD has appointed BNP PARIBAS, Paris, succursale de Zurich, Selnaustrasse 16, 8002 Zurich, Switzerland as representative and paying agent for Switzerland. Shares are distributed in Switzerland by BNP Paribas, Paris at the above address. Investors can obtain free of charge the Prospectus, the Key Information Documents (KIDs), the latest annual and interim reports, copies of the Instrument of Incorporation (and any amendments thereto) as well as a list of the purchases and sales made on behalf of the Barings Global Agriculture Fund (the "Fund"), from the representative at the above address. Official publications for the Fund are found on the internet at [www.fundinfo.com](http://www.fundinfo.com). Share prices (Net Asset Value with the words "plus commissions") are published daily on the internet at [www.fundinfo.com](http://www.fundinfo.com).

#### **Important information to the performance tables on page 27**

The value of an investment can fall as well as rise as a result of market fluctuations and investors may not get back the amount originally invested. Past performance is no indication of current or future performance. The performance data does not take account of the commissions and costs incurred on the issue and redemption of shares, nor the effect of the Manager's preliminary charge.

In conformity with a Guideline of the Asset Management Association Switzerland ("AMAS") dated 16 May 2008, the ACD is providing the below additional information regarding performance.

#### **Total Expense Ratio ("TER")**

Following the Guideline of the Asset Management Association Switzerland ("AMAS") dated 16 May 2008, the ACD is required to publish a total expense ratio ("TER") for the Fund for the 6 months to 28 February 2026. The TER has been established by the ACD and draws upon the data contained in the "Statement of total return" (ACD's management fee, registration fees, depositary fees, safe custody charges, audit fees, Financial Conduct Authority ("FCA") and other regulatory fees and taxation fees as well as any further fees and costs listed in the "Statement of total return" account which do not form part of the aforementioned categories). It is calculated with reference to these numbers and in conformity with the above guideline.

## Barings Global Agriculture Fund

### Disclosure for Overseas Investors (continued)

The TERs for each class for the period ended 28 February 2026 and the year ended 31 August 2025 are as follows:

	TER* 28 February 2026 %	TER 31 August 2025 %
Barings Global Agriculture Fund - Class A GBP Acc	1.74	1.75
Barings Global Agriculture Fund - Class A EUR Acc	1.75	1.75
Barings Global Agriculture Fund - Class A USD Acc	1.75	1.75
Barings Global Agriculture Fund - Class I GBP Acc	1.00	1.00
Barings Global Agriculture Fund - Class I USD Acc	1.00	1.00
Barings Global Agriculture Fund - Class X GBP Acc	0.25	0.25
Barings Global Agriculture Fund - Class A USD Hedged Acc	1.75	1.75
Barings Global Agriculture Fund - Class A AUD Hedged Acc	1.75	1.75

\* TER for period ended 28 February 2026 are annualized figures.

#### Trailer fees and reimbursements

Trailer fees (Bestandespflegekommissionen) may only be paid to the sales agents/partners indicated below:

- authorised sales agents (distributors) within the meaning of Article 19, Para 1, Collective Investment Schemes Act ("CISA");
- sales agents (distributors) exempted from the authorisation requirement within the meaning of Article 19, Para 4, CISA;
- sales partners who place fund shares exclusively with institutional investors with professional treasury facilities; and/or;
- sales partners who place fund shares with their clients exclusively on the basis of a written commission-based asset management mandate.

Reimbursements (Rückvergütungen) may only be paid to the institutional investors detailed below who from a commercial perspective are holding the fund shares for third parties:

- life insurance companies (in respect of fund shares held for the account of insured persons or to cover obligations towards insured persons), pension funds and other retirement provision institutions (in respect of fund shares held for the account of beneficiaries);
- investment foundations (in respect of fund shares held for the account of in-house funds);
- Swiss fund management companies (in respect of fund shares held for the account of the funds managed); and
- foreign fund management companies and providers (in respect of fund shares held for the account of managed funds and investing shareholders).

\* The target benchmark was changed from the DAXglobal® Agribusiness (Total Net Return) Index to the MSCI AC World (Net Total Return) Index on 31 October 2024. As a result, the returns shown above reflect a blend of both benchmarks over the relevant periods.

Performance figures are shown net of fees and charges, on a published NAV per share basis (mid-price), with gross revenue reinvested.
