First State Global Umbrella Fund PLC is regulated by the Central Bank of Ireland

As from the Effective Date, the Fund will be managed in accordance with the revised investment objective and policy as follows under its new name “First State Asia Strategic Bond Fund”:-

“Investment Objective:

Aims to achieve total return, consisting of both income and capital gains, through investment in a diversified portfolio of fixed income and similar transferable instruments issued primarily by government and corporate entities in Asia.

Investment Policy:

The Fund invests primarily (at least 70% of its Net Asset Value) in debt securities of governments or quasi-government organization issuers in Asia and/or issuers organised, headquartered or having their primary business operations in Asia. The Fund may also invest less than 30% of its Net Asset Value in treasury bonds of the United States Government. The Fund is not managed to a benchmark.

The Investment Manager will strategically allocate debt securities based on a combination of top-down and bottom-up analysis. The top-down analysis focuses on optimising the Fund’s exposure to a range of risk factors such as credit spread, duration, country and currency. In order to make decisions on the appropriate exposure to these factors, the Investment Manager undertakes an ongoing assessment of the drivers of returns, such as interest rates, the macro-economic outlook, inflation expectations, fiscal and external account balances, market sentiment and geo-political issues. The bottom-up analysis focuses on assessing an individual debt security’s default risk and value relative to similar debt securities in the market with information such as country/sector and company-specific analysis. Each investment is subject to analysis from the Investment Manager’s credit specialists who assess the creditworthiness of the issuer at the time of investment and monitor it continually for changes.

The Fund is not subject to any limitation on the portion of its Net Asset Value that may be invested in investment grade debt securities (rated as Baa3 or above by Moody’s Investor Services, Inc. or BBB- or above by Standard & Poor’s Corporation or other recognised rating agencies), below investment grade debt and convertible securities, or if unrated, of comparable quality as determined by the Investment Manager. The Fund’s investment in debt securities may include securities with loss-absorption features (e.g. including contingent convertible debt securities, senior non-preferred debt, instruments issued under the resolution regime for financial institutions and other capital instruments issued by banks or other financial institutions) which will be less than 30% of the Fund’s Net Asset Value.

In addition, the Fund will not invest more than 10% of its Net Asset Value in debt securities issued by and/or guaranteed by a single sovereign issuer which is below investment grade.

The Fund is not subject to any limitation on the portion of its Net Asset Value that may be invested in debt securities in any one or more emerging markets in Asia, or any sector. In respect of the Fund’s exposure to PRC, investment in onshore PRC debt securities and offshore debt securities denominated in RMB (including Dim Sum bonds) will be less than 30% of the Fund’s Net Asset Value.

The debt securities in which the Fund invests are mainly denominated in US dollars or Asian currencies.

Although the Fund has a regional investment universe, the securities selected for investment based on the Investment Manager's approach may at times result in a portfolio that is concentrated in certain countries.

The Fund may only use FDIs for purposes of hedging and efficient portfolio management. The Fund will not invest extensively or primarily in FDIs to achieve its investment objective. It is not intended that the Fund will avail of the opportunity to invest in FDIs for investment purposes.

For defensive purposes during periods of perceived uncertainty and volatility (e.g. market or major crisis), the Fund may also hold all or part of its assets in cash and/or US Treasuries."

C. COSTS

The costs and expenses that will be incurred in connection with the changes to the investment objective and policy of the Fund will be borne by the Investment Manager.
