Features of the Fund

UBS (Lux) Bond Fund (hereinafter called “the fund”) offers investors a range of different subfunds (“umbrella structure”) which invest in accordance with the investment policy described in the sales prospectus. The sales prospectus, which contains specific details on each subfund, will be updated on the inception of each new subfund.

The fund was established as an open-ended investment fund without legally independent status in the form of a collective investment fund (fonds commun de placement, FCP) pursuant to Part I of the Luxembourg law relating to undertakings for collective investment of 30 March 1988 and adapted in April 2005 to conform to Part I of the Luxembourg Law of 20 December 2002 on undertakings for collective investment (hereinafter “Law of 2002”). Since 1 July 2011 the Fund is subject to the law of 17 December 2010. It was originally established under the title SBC Bond Portfolio in compliance with the Management Regulations approved by the board of directors of UBS Bond Fund Management Company S.A. (formerly SBC Bond Portfolio Management Company S.A.) on 26 June 1991. The SBC Bond Portfolio was renamed as UBS (Lux) Bond Fund on 1 April 1999. The activities of UBS Bond Fund Management S.A. in its capacity as Management Company of the UBS (Lux) Bond Fund ended on 14 November 2010. On 15 November 2010 UBS Asset Management (Europe) S.A.* assumed the function of Management Company. The Management Regulations were initially lodged with the Trade and Companies Register of the District Court in Luxembourg on 1 July 1991 and amendments thereto were last published on 30 September 2022 in the “Recueil Electronique des Sociétés et Associations” (“RESA”).

The Fund’s Management Regulations may be amended, subject to compliance with applicable law. Any amendments thereto shall be notified by way of a notice of deposit in RESA, as well as by any other means described in the section entitled “Regular reports and publications”. The new Management Regulations shall enter into force on the date of signature by the Management Company and the Depositary. The consolidated version may be consulted at the Trade and Companies Register (Registre de Commerce et des Sociétés).

The fund has no legal personality as an investment fund. The entire net assets of each subfund are the undivided property of all investors who have equal rights in proportion to the number of units which they hold. These assets are separate from the assets of the Management Company. The securities and other assets of the fund are managed by Management Company as separate trust assets in the interests and for the account of the unitholders.

The management regulations give the Management Company the authority to establish different subfunds for the fund as well as different classes with specific characteristics within these subfunds. The sales prospectus will be updated each time a new subfund or an additional unit class is launched.

As at 30 September 2024, the following subfunds are active:

Additional characteristics:

Currencies

The unit classes may be denominated in AUD, BRL, CAD, CHF, CZK, DKK, EUR, GBP, HKD, JPY, NOK, PLN, RMB, RUB, SEK, SGD, USD, NZD or ZAR. For unit classes issued in the currency of account of the subfund, this currency will not be included in the unit class name. The currency of account features in the name of the relevant subfund.

“hedged”

For unit classes with “hedged” in their name and with reference currencies different to the subfund’s currency of account (“unit classes in foreign currencies”), the risk of fluctuations in the value of the reference currency is hedged against the subfund’s currency of account. This hedging shall be between 95% and 105% of the total net assets of the unit class in foreign currency. Changes in the market value of the portfolio, as well as subscriptions and redemptions of unit classes in foreign currencies, can result in the hedging temporarily surpassing the aforementioned range. The Management Company and the Portfolio Manager will take all necessary steps to bring the hedging back within the aforementioned limits.

The hedging described has no effect on possible currency risks resulting from investments denominated in a currency other than the subfund’s currency of account.

“BRL hedged”

The Brazilian real (currency code pursuant to ISO 4217: BRL) may be subject to exchange control regulations and repatriation limits set by the Brazilian government. Prior to investing in BRL classes, investors should also bear in mind that the availability and tradability of BRL classes, and the conditions under which they may be available or traded, depend to a large extent on the political and regulatory developments in Brazil. The risk of fluctuations is hedged as described above under “hedged”. Potential investors should be aware of the risks of reinvestment, which could arise if the BRL class has to be liquidated early due to political and/or regulatory circumstances.

This does not apply to the risk associated with reinvestment due to liquidation of a unit class and/or the subfund in accordance with the section “Liquidation and Merger of the Fund and its subfunds or unit classes” of the sales prospectus.

“RMB hedged”

Investors should note that the renminbi (ISO 4217 currency code: CNY), the official currency of the People’s Republic of China (the “PRC”), is traded on two markets, namely as onshore RMB (CNY) in mainland China and offshore RMB (CNH) outside mainland China.

Units in classes with “RMB hedged” in their name are units whose net asset value is calculated in offshore RMB (CNH).

Onshore RMB (CNY) is not a freely convertible currency and is subject to foreign exchange control policies and repatriation restrictions imposed by the PRC government. Offshore RMB (CNH), on the other hand, may be traded freely against other currencies, particularly EUR, CHF and USD. This means the exchange rate between offshore RMB (CNH) and other currencies is determined on the basis of supply and demand relating to the respective currency pair.

Convertibility between offshore RMB (CNH) and onshore RMB (CNY) is a regulated currency process subject to foreign exchange control policies and repatriation restrictions imposed by the PRC government in coordination with offshore supervisory and governmental agencies (e.g. the Hong Kong Monetary Authority).

Prior to investing in RMB classes, investors should bear in mind that the requirements relating to regulatory reporting and fund accounting of offshore RMB (CNH) are not clearly regulated. Furthermore, investors should be aware that offshore RMB (CNH) and onshore RMB (CNY) have different exchange rates against other currencies. The value of offshore RMB (CNH) can potentially differ significantly from that of onshore RMB (CNY) due to a number of factors including, without limitation, foreign exchange control policies and repatriation restrictions imposed by the PRC government at certain times, as well as other external market forces. Any devaluation of offshore RMB (CNH) could adversely affect the value of investors’ investments in the RMB classes. Investors should therefore take these factors into account when calculating the conversion of their investments and the ensuing returns from offshore RMB (CNH) into their target currency.

Prior to investing in RMB classes, investors should also bear in mind that the availability and tradability of RMB classes, and the conditions under which they may be available or traded, depend to a large extent on the political and regulatory developments in the PRC. Thus, no guarantee can be given that offshore RMB (CNH) or the RMB classes will be offered and/or traded in future, nor can there be any guarantee as to the conditions under which offshore RMB (CNH) and/or RMB classes may be made available or traded. In particular, since the currency of account of the relevant subfunds offering the RMB classes would be in a currency other than offshore RMB (CNH), the ability of the relevant subfund to make redemption payments in offshore RMB (CNH) would be subject to

the subfund's ability to convert its currency of account into offshore RMB (CNH), which may be restricted by the availability of offshore RMB (CNH) or other circumstances beyond the control of the Management Company. The risk of fluctuations is hedged as described above under "hedged".

Potential investors should be aware of the risks of reinvestment, which could arise if the RMB class has to be liquidated early due to political and/or regulatory circumstances. This does not apply to the risk associated with reinvestment due to liquidation of a unit class and/or the subfund in accordance with the section "Liquidation and Merger of the Fund and its subfunds or unit classes" of the sales prospectus.

"acc"

The income of unit classes with "-acc" in their name is not distributed unless the Management Company decides otherwise.

"dist"

The income of unit classes with "-dist" in their name is distributed unless the Management Company decides otherwise.

"qdist"

Units in classes with "-qdist" in their name may make quarterly distributions, gross of fees and expenses. Distributions may also be made out of the capital (this may include, inter alia, realised and unrealised net gains in net asset value) ("**capital**"). Distributions out of capital result in the reduction of an investor's original capital invested in the subfund. Furthermore, any distributions from the income and/or involving the capital result in an immediate reduction of the net asset value per unit of the subfund. Investors in certain countries may be subject to higher tax rates on distributed capital than on any capital gains from the sale of fund units. Some investors may therefore prefer to subscribe to accumulating (-acc) rather than distributing (-dist, -qdist) unit classes. Investors may be taxed at a later point in time on income and capital arising on accumulating (-acc) unit classes compared with distributing (-dist) unit classes. Investors should consult qualified experts for tax advice regarding their individual situation.

"mdist"

Units in classes with "-mdist" in their name may make monthly distributions, gross of fees and expenses. Distributions may also be made out of capital. Distributions out of capital result in the reduction of an investor's original capital invested in the subfund. Furthermore, any distributions from the income and/or involving the capital result in an immediate reduction of the net asset value per unit of the subfund. Investors in certain countries may be subject to higher tax rates on distributed capital than on any capital gains from the sale of fund units. Some investors may therefore prefer to subscribe to accumulating (-acc) rather than distributing (-dist, -mdist) unit classes. Investors may be taxed at a later point in time on income and capital arising on accumulating (-acc) unit classes compared with distributing (-dist) unit classes. Investors should consult qualified experts for tax advice regarding their individual situation. The maximum entry costs for units in classes with "-mdist" in their name is 6%.

"UKdist"

The aforementioned unit classes can be issued as those with "UKdist" in their name. In these cases, the Management Company intends to distribute a sum which corresponds to 100% of the reportable income within the meaning of the UK reporting fund rules when the unit classes are subject to these reporting fund rules. The Management Company does not intend to make taxable values for these unit classes available in other countries, as they are intended for investors whose investment in the unit class is liable to tax in the UK.

"2%","4%","6%","8%"

Units in classes with "2%" / "4%" / "6%" / "8%" in their name may make monthly (-mdist), quarterly (-qdist) or annual (-dist) distributions at the respective aforementioned annual percentage rates, gross of fees and expenses. The distribution amount is calculated based on the net asset value of the respective unit class at the end of the month (in the case of monthly distributions), financial quarter (in the case of quarterly distributions) or financial year (in the case of annual distributions). These unit classes are suitable for investors who wish for more stable distributions, unrelated to the past or expected returns or income of the respective subfund.

Distributions may thus also be made from the capital. Distributions out of capital result in the reduction of an investor's original capital invested in the subfund. Furthermore, any distributions from the income and/or involving the capital result in an immediate reduction of the net asset value per unit of the subfund. Investors in certain countries may be subject to higher tax rates on distributed capital than on any capital gains from the sale of fund units. Some investors may therefore choose to invest in the accumulating (-acc) instead of the distributing (-dist, -qdist, -mdist) unit classes. Investors may be taxed at a later point in time on income and capital arising on accumulating (-acc) unit classes compared with distributing (-dist, -qdist, -mdist) unit classes. Investors should consult qualified experts for tax advice regarding their individual situation.

"seeding"

Units with "seeding" in their name are only offered during a limited time period. Further subscriptions are prohibited after the end of this period, unless otherwise decided by the Management Company. However, units can still be redeemed in accordance with the conditions for unit redemptions. Unless otherwise decided by the Management Company, the smallest tradable unit, the initial issue price and the minimum subscription amount shall correspond to the characteristics of the unit classes listed above.

The fund is not subject to any restrictions with regard to the size of its net assets, the number of units, number of subfunds and number of unit classes as well as the duration of the fund and its subfunds.

The fund forms a legal entity. With respect to the unitholders, however, each subfund is regarded as being separate from the others. These assets are separate from the assets of the Management Company. The securities and other assets of the Fund are managed by the Management Company as separate trust assets in the interests and for the account of the unitholders.

As regards the association between unitholders, however, each subfund is considered to be independent of the others. The assets of a subfund are only liable for liabilities incurred by that subfund. As no division of liabilities is made between unit classes, there is a risk that, under certain conditions, currency hedging transactions for unit classes with “hedged” in their name may result in liabilities that affect the net asset value of other unit classes of the same subfund.

The acquisition of fund units implies acceptance of the management regulations by the unitholder.

The Management Regulations do not provide for a general meeting of the unitholders.

The fund’s financial year ends on the last day of March.

The annual and semi-annual reports are prepared based on the information from the sales prospectus in force at the closing date of the report.

The issue and redemption price of each subfund is announced in Luxembourg at the registered office of the Management Company and at the Depositary.

Furthermore, a Key Investor Information (KID) document is made available to investors before subscribing to units.

Information on whether a subfund of the fund is listed on the Luxembourg Stock Exchange can be obtained from the Administrative Agent or the Luxembourg Stock Exchange website (www.bourse.lu).

The national laws of the countries concerned shall apply to the issue and redemption of units of the fund.

Only the information contained in the sales prospectus and in one of the documents referred to therein shall be deemed to be valid.

The annual and semi-annual reports are available free of charge to unitholders at the registered office of the Management Company and the Depositary.

No subscription may be accepted on the basis of the financial reports. Subscriptions are accepted only on the basis of the current prospectus accompanied by the latest annual report and the latest semi-annual report if available.

The figures stated in this report are historical and not necessarily indicative of future performance.

Notes to the Financial Statements

Note 1 – Summary of significant accounting policies

The financial statements have been prepared in accordance with the generally accepted accounting principles for investment funds in Luxembourg. The significant accounting policies are summarised as follows:

a) Calculation of the net asset value

The net asset value and the issue and redemption price per unit of any subfund or of any unit class are expressed in the currency of account of the subfund or of the unit class concerned and are calculated every business day by dividing the overall net assets of the subfund attributable to each unit class by the number of units in circulation in the respective unit class of this subfund.

A “business day” is a normal bank business day in Luxembourg (i.e. a day when the banks are open during normal business hours), except for 24 and 31 December, individual, non-statutory days of rest in Luxembourg and days on which stock exchanges in the main countries in which the respective subfund invests are closed, or on which 50% or more of the investments of the subfund cannot be adequately valued.

The percentage of the net asset value attributable to each unit class of a subfund changes each time units are issued or redeemed. It is determined by the ratio of the units in circulation in each unit class to the total number of units in circulation in the subfund, taking into account the fees charged to that unit class. The net asset value attributable to the unit class concerned is increased or reduced by the amount received or paid out.

Due to fees and charges as well as the buy-sell spreads for the underlying investments, the actual costs of buying and selling assets and investments for a subfund may differ from the last available price or, if applicable, the net asset value used to calculate the net asset value per unit. These costs have a negative impact on the value of a subfund and are termed “dilution”. To reduce the effects of dilution, the Board of Directors may at its own discretion make a dilution adjustment to the net asset value per unit (swing pricing).

Units are issued and redeemed based on a single price: the net asset value per unit. To reduce the effects of dilution, the net asset value per unit is nevertheless adjusted on valuation days as described below; this takes place irrespective of whether the subfund is in a net subscription or net redemption position on the relevant valuation day. If no trading is taking place in a subfund or class of a subfund on a particular valuation day, the unadjusted net asset value per unit is applied. The Board of Directors has discretion to decide under which circumstances such a dilution adjustment should be made. The requirement to carry out a dilution adjustment generally depends on the scale of subscriptions or redemptions of units in the relevant subfund. The Board of Directors may apply a dilution adjustment if, in its view, the existing unitholders (in the case of subscriptions) or remaining unitholders (in the case of redemptions) could otherwise be put at a disadvantage. The dilution adjustment may take place if:

- (a) a subfund records a steady fall (i.e. a net outflow due to redemptions);
- (b) a subfund records a considerable volume of net subscriptions relative to its size;
- (c) a subfund shows a net subscription or net redemption position on a particular valuation day; or
- (d) In all other cases in which the Board of Directors believes a dilution adjustment is necessary in the interests of the unitholders.

When a valuation adjustment is made, a value is added to or deducted from the net asset value per unit depending on whether the subfund is in a net subscription or net redemption position; the extent of the valuation adjustment shall, in the opinion of the Board of Directors, adequately cover the fees and charges as well as the buy-sell spreads. In particular, the net asset value of the respective subfund will be adjusted (upwards or downwards) by an amount that (i) reflects the estimated tax expenses, (ii) the trading costs that may be incurred by the subfund, and (iii) the estimated bid-ask spread for the assets in which the subfund invests. As some equity markets and countries may show different fee structures on the buyer and seller side, the adjustment for net inflows and outflows may vary. Generally speaking, adjustments shall be limited to a maximum of 2% of the relevant applicable net asset value per unit. Under exceptional circumstances (e.g. high market volatility and/or illiquidity, extraordinary market conditions, market disruptions etc.), the Board of Directors may decide to apply temporarily a dilution adjustment of more than 2% of the relevant applicable net asset value per unit in relation to each subfund and/or valuation date, provided that the Board of Directors is able to justify that this is representative of prevailing market conditions and is in the unitholders' best interest. This dilution adjustment shall be calculated according to the procedure specified by the Board of Directors. Unitholders shall be informed through the normal channels whenever temporary measures are introduced and once the temporary measures have ended.

The net asset value of each class of the subfund is calculated separately. However, dilution adjustments affect the net asset value of each class to the same degree in percentage terms.

For all subfunds the Swing Pricing methodology is applied.

If there were Swing Pricing adjustments to the net asset value at the end of the period, this can be seen from the most important figures of the net asset value information of the subfunds. The issue and redemption price per unit represents the adjusted net asset value.

This adjustment is in favour of the subfund and mentioned in the statement of operations as “Other income”.

b) Valuation principles

- liquid assets (whether in the form of cash and bank deposits, bills of exchange, cheques, promissory notes, expense advances, cash dividends and declared or accrued interest still receivable) are valued at face value, unless this value is unlikely to be fully paid or received, in which case their value is determined by deducting an amount deemed appropriate to arrive at their real value.

- Securities, derivatives and other assets listed on a stock exchange are valued at the most recent market prices available. If these securities, derivatives or other assets are listed on several stock exchanges, the most recently available price on the stock exchange that represents the major market for this asset shall apply.
In the case of securities, derivatives and other assets not commonly traded on a stock exchange and for which a secondary market among securities traders exists with pricing in line with the market, the Management Company may value these securities, derivatives and other investments based on these prices. Securities, derivatives and other investments not listed on a stock exchange, but traded on another regulated market that operates regularly and is recognised and open to the public, are valued at the most recently available price on this market.
- Securities and other investments not listed on a stock exchange or traded on another regulated market, and for which no appropriate price can be obtained, are valued by the Management Company according to other principles chosen by it in good faith on the basis of probable market prices.
- Derivatives not listed on a stock exchange (OTC derivatives) are valued on the basis of independent pricing sources. If only one independent pricing source is available for a derivative, the plausibility of the valuation obtained will be verified using calculation models that are recognised by the Management Company and the auditors, based on the market value of that derivative's underlying.
- Units of other undertakings for collective investment in transferable securities (UCITS) and/or undertakings for collective investment (UCIs) are valued at their last known asset value.
- Money market instruments not traded on a stock exchange or on another regulated market open to the public will be valued on the basis of the relevant curves. Curve-based valuations are calculated from interest rates and credit spreads. The following principles are applied in this process: The interest rate nearest the residual maturity is interpolated for each money market instrument. Thus calculated, the interest rate is converted into a market price by adding a credit spread that reflects the creditworthiness of the underlying borrower. This credit spread is adjusted if there is a significant change in the borrower's credit rating.
- Securities, money market instruments, derivatives and other assets denominated in a currency other than the relevant subfund's currency of account, and not hedged by foreign exchange transactions, are valued using the average exchange rate (between the bid and ask prices) known in Luxembourg or, if none is available, using the rate on the most representative market for that currency.
- Term and fiduciary deposits are valued at their nominal value plus accumulated interest.
- The value of swaps is calculated by an external service provider and a second independent valuation is provided by another external service provider. Such calculations are based on the net present value of all cash flows (both inflows and outflows). In some specific cases, internal calculations (based on models and market data made available by Bloomberg) and/or broker statement valuations may be used. The valuation method depends on the security in question and is chosen pursuant to the applicable UBS valuation policy.

The Management Company is authorised to apply other generally recognised and verifiable valuation criteria in good faith to arrive at an appropriate valuation of the net assets if, due to extraordinary circumstances, a valuation in accordance with the foregoing provisions proves unfeasible or inaccurate.

In extraordinary circumstances, additional valuations may be made throughout the day. Such new valuations shall apply for subsequent issues and redemptions of units.

c) Valuation of forward foreign exchange contracts

The unrealized gain (loss) of outstanding forward foreign exchange contracts is valued on the basis of the forward exchange rates prevailing at valuation date.

d) Valuation of financial futures contracts

Financial futures contracts are valued based on the latest available published price applicable on the valuation date. Realized gains and losses and the changes in unrealized gains and losses are recorded in the statement of operations. The realized gains and losses are calculated in accordance with the FIFO method, i.e. the first contracts acquired are regarded as the first to be sold.

e) Net realized profit (loss) on the sales of securities

The realized profits or losses on the sales of securities are calculated on the basis of the average cost of the securities sold.

f) Conversion of foreign currencies

Bank accounts, other net assets and the valuation of the investments in securities denominated in currencies other than the reference currency of the different subfunds are converted at the mid closing spot rates on the valuation date. Income and expenses denominated in currencies other than the currency of the different subfunds are converted at the mid closing spot rates at payment date. Profit or loss on foreign exchange is included in the statement of operations.

The cost of the securities denominated in currencies other than the reference currency of the different subfunds is converted at the mid closing spot rate on the day of acquisition.

g) Accounting of securities' portfolio transactions

The securities' portfolio transactions are accounted for the bank business day following the transaction date.

h) Swaps

The fund may enter into interest rate swap contracts, forward rate agreements on interest rates swaptions and credit default swaps, if they are executed with first-class financial institutions that specialize in transactions of this kind.

Changes in unrealized profits and losses are reflected in the statement of operations under "Unrealized appreciation (depreciation) on swaps".

Gains or losses on swaps incurred when closed-out or matured are recorded as "Realized gain (loss) on swaps" in the statement of operations.

i) Combined financial statements

The combined financial statements are expressed in EUR. The various items of the combined statement of net assets, the combined statement of operations and the combined statement of changes in net assets at 30 September 2024 of the investment company are equal to the sum of the corresponding items in the financial statements of each subfund converted into EUR at the following exchange rates.

The following exchange rates were used for the conversion of the combined financial statements as of 30 September 2024:

Exchange rates

| | | | |
|-------|---|-----|----------|
| EUR 1 | = | AUD | 1.608721 |
| EUR 1 | = | CHF | 0.941444 |
| EUR 1 | = | USD | 1.116050 |

j) "Mortgage-backed securities"

The fund, in accordance with its investment policies, may invest in mortgage-backed securities. A mortgage-backed security is a participation in a pool of residential mortgages which is consolidated into the form of securities. The principal and interest payments on the underlying mortgages are passed through to the holders of the mortgage-backed security of which the principle reduces the cost basis of the security. The payment of principal and interest may be guaranteed by quasi-governmental agencies of the United States. A gain or loss is calculated on each paydown associated with each payment of principal. This gain or loss has been included in Net realized gain or loss on sales of securities in the statement of operations. In addition, prepayments of the underlying mortgages may shorten the life of the security, thereby affecting the fund's expected yield.

For "Mortgage-backed securities", if the factor to be applied to the nominal of the security is greater than one at the valuation date, then the nominal shown in the financial statements is adjusted to reflect this factor. In the other cases the nominal shown reflects the effect of a factor equal to one.

k) Receivable on securities sales, Payable on securities purchases

The position "Receivable on securities sales" can also include receivables from foreign currency transactions. The position "Payable on securities purchases" can also include payables from foreign currency transactions.

Receivables and payables from foreign exchange transactions are netted.

l) Income recognition

Dividends, net of withholding taxes, are recognized as income on the date upon which the relevant securities are first listed as "ex-dividend". Interest income is accrued on a daily basis.

m) To Be Announced ("TBA") Mortgage Backed Securities

TBA positions refer to general trading practice on the mortgage-backed securities market where a security from a mortgage pool (Ginnie Mae, Fannie Mae or Freddie Mac) is acquired at a fixed price on a future date. The precise composition of the security is not known at the time of the purchase,

but its main characteristics have already been defined. The price is also set at this point, although the Nominal value has not yet been definitively established.

Out of the aforementioned maximum Flat fee the following is included:

1. In accordance with the following provisions, a maximum flat fee based on the net asset value of the Fund is paid from the Fund's assets for the management, administration, portfolio management and distribution of the Fund (if applicable), as well as for all Depositary tasks, such as the safekeeping and supervision of the Fund's assets, the processing of payment transactions and all other tasks listed in the "Depositary and Main Paying Agent" of the sales prospectus. This fee is charged to the Fund's assets pro rata temporis upon every calculation of the net asset value, and is paid on a monthly basis (maximum flat management fee). The maximum flat fee for unit classes with "hedged" in their name may contain fees for hedging currency risk. The relevant maximum flat management fee will not be charged until the corresponding unit classes have been launched. An overview of the maximum flat management fees can be found under "The subfunds and their special investment policies" of the sales prospectus.

This fee is shown in the Statement of Operations as "Flat fee".

2. The maximum flat management fee does not include the following fees and additional expenses, which are also taken from the Fund assets:
- a) All other Fund asset management expenses for the sale and purchase of assets (bid-ask spread, market-based brokerage fees, commissions, fees, etc.); As a rule, these expenses are calculated upon the purchase or sale of the respective assets. In derogation hereto, these additional expenses, which arise through the sale and purchase of assets in connection with the settlement of the issue and redemption of units, are covered by the application of the Swing pricing principle pursuant to the section titled "Net asset value, issue, redemption and conversion price" of the sales prospectus;
 - b) Fees of the supervisory authority for the establishment, modification, liquidation and merger of the Fund, as well as all charges payable to the supervisory authorities and any stock exchanges on which the subfunds are listed;
 - c) Auditor's fees for the annual audit and for authorisations in connection with creations, alterations, liquidations and mergers within the Fund, as well as any other fees paid to the audit firm for services provided in relation to the administration of the Fund and as permitted by law;
 - d) Fees for legal consultants, tax consultants and notaries in connection with the creation, registration in distribution countries, alteration, liquidation and merger of the Fund, as well as for the general safeguarding of the interests of the Fund and its investors, insofar as this is not expressly prohibited by law;
 - e) Costs for publishing the Fund's net asset value and all costs for notices to investors, including translation costs;
 - f) Costs for the Fund's legal documents (prospectuses, KIDs, annual and semi-annual reports, and other documents legally required in the countries of domiciliation and distribution);
 - g) Costs for the Fund's registration with any foreign supervisory authorities (if applicable), including fees payable to the foreign supervisory authorities, as well as translation costs and fees for the foreign representative or paying agent;
 - h) Expenses incurred through use of voting or creditors' rights by the Fund, including fees for external advisers;
 - i) Costs and fees related to any intellectual property registered in the Fund's name, or to the Fund's rights of usufruct;
 - j) all expenses arising in connection with any extraordinary measures taken by the Management Company, Portfolio Manager or Depositary to protect the interests of the investors;
 - k) If the Management Company participates in classaction suits in the interests of investors, it may charge expenses arising in connection with third parties (e.g. legal and Depositary costs) to the Fund's assets. Furthermore, the Management Company may bill for all administrative costs, provided these are verifiable, and disclosed and accounted for in the Fund's published total expense ratio (TER).

These commissions and fees are shown in the Statement of Operations as "Other commissions and fees".

3. The Management Company may pay trailer fees for the distribution of the Fund.

For unit class "I-B", a fee is charged to cover the costs of fund administration (comprising the costs of the Management Company, the administrative agent and the Depositary). The costs for asset management and distribution are charged outside of the Fund under a separate contract concluded directly between the investor and UBS Asset Management Switzerland AG or one of its authorised representatives.

Costs relating to the services performed for unit classes I-X, K-X and U-X for asset management, fund administration (comprising the costs of the Management Company, the administrative agent and the Depositary) and distribution are covered by the compensation to which UBS Asset Management Switzerland AG is entitled under a separate contract with the investor.

Costs relating to the asset management services to be provided for unit classes "K-B" are covered by the compensation to which UBS Asset Management Switzerland AG or one of its authorised distributors is entitled under a separate agreement with the investor.

All costs that can be attributed to individual subfunds will be charged to these subfunds.

Costs that can be allocated to individual unit classes will be charged to those unit classes. Costs pertaining to some or all subfunds/unit classes will be charged to those subfunds/unit classes in proportion to their respective net asset values.

With regard to subfunds that may invest in other UCIs or UCITS under the terms of their investment policies, fees may be incurred both at the level of the subfund as well as at the level of the relevant target fund. The management fees (excluding performance fees) of the target fund in which the assets of the subfund are invested may amount to a maximum of 3%, taking into account any trailer fees.

Should a subfund invest in units of funds that are managed directly or by delegation by the Management Company itself or by another company linked to the Management Company through common management or control or through a substantial direct or indirect holding, no issue or redemption charges may be charged to the investing subfund in connection with these target fund units.

Details of the Fund's ongoing costs (or ongoing charges) can be found in the KIDs.

Note 3 – Taxe d'abonnement

The Fund is subject to Luxembourg law. In accordance with current legislation in the Grand Duchy of Luxembourg, the Fund is not subject to any Luxembourg withholding, income, capital gains or wealth taxes. From the total net assets of each subfund,

however, a tax of 0.05% p.a. ("taxe d'abonnement") payable to the Grand Duchy of Luxembourg is due at the end of every quarter (reduced tax d'abonnement amounting to 0.01% p.a. for unit classes F, I-A1, I-A2, I-A3, I-A4, I-B, I-X and U-X).

This tax is calculated on the total net assets of each subfund at the end of every quarter. In the event that the competent tax authority changes an investor's tax status, all units in classes F, I-A1, I-A2, I-A3, I-A4, I-B, I-X and U-X may be taxed at the rate of 0.05%.

The taxable values provided are based on the most recently available data at the time they were calculated.

Unitholders are not required, under current tax law, to pay any income, gift, inheritance or other tax in Luxembourg, unless they are domiciled or resident or maintain their usual place of abode in Luxembourg, or were previously resident in Luxembourg and hold more than 10% of the units in the Fund.

The aforementioned represents a summary of the fiscal impact and makes no claim to be exhaustive. It is the responsibility of purchasers of units to seek information on the laws and regulations governing the purchase, possession and sale of units in connection with their place of residence and their nationality.

Note 4 – Income distribution

In accordance with Article 10 of the Management Regulations, once the annual accounts are closed the Management Company will decide whether and to what extent distributions are to be paid out by each subfund. The payment of distributions must not result in the net assets of the fund falling below the minimum amount for fund assets laid down by law of 2010. If distributions are made, payment will be effected within four months of the end of the financial year.

The details of the distributions are unaudited.

The Board of Directors is authorized to pay interim dividends and to suspend the payment of distributions.

An income equalisation amount will be calculated so that the distribution corresponds to the actual income entitlement.

Note 5 – Soft commission arrangements

During the period from 1 April 2024 until 30 September 2024, no "soft commission arrangements" were entered into on behalf of UBS (Lux) Bond Fund and "soft commission arrangements" amount to nil.

Note 6 – Commitments on Financial Futures and Swaps

The TER for classes of units which were active less than a 12 month period are annualised.

Transaction costs, interest costs, securities lending costs and any other costs incurred in connection with currency hedging are not included in the TER.

Note 8 – Subsequent event

There were no events after the period-end that require adjustment to or disclosure in the Financial Statements.

Note 9 – Applicable law, place of performance and authoritative language

The Luxembourg District Court is the place of performance for all legal disputes between the unitholders, the Management Company and the Depositary. Luxembourg law applies. However, in matters concerning the claims of investors from other countries, the Management Company and/or the Depositary can elect to make themselves and the fund subject to the jurisdiction of the countries in which the fund units were bought and sold.

The English version of these financial statements is the authoritative version. However, in the case of units sold to investors from the other countries in which fund units can be bought and sold, the Management Company and the Depositary may recognize approved translations (i.e. approved by the Management Company and the Depositary) into the languages concerned as binding upon themselves and the fund.

Note 10 – Securities Lending

The Fund may lend portions of its securities portfolio to third parties. In general, lendings may only be effected via recognized clearing houses such as Clearstream International or Euroclear, or through the intermediary of prime financial institutions that specialise in such activities and in the modus specified by them. Collateral is received in relation to securities lent. Collateral is composed of high quality securities in an amount typically at least equal to the market value of the securities loaned.

UBS Europe SE, Luxembourg Branch acts as securities lending agent.
