BLACKROCK GLOBAL FUNDS

Registered office: 2-4, rue Eugène Ruppert, L-2453 Luxembourg, Grand Duchy of Luxembourg
R.C.S. Luxembourg B.6317

6 November 2015

Dear Shareholder

The board of directors (the “Directors”) of BlackRock Global Funds (the “Company”) is writing to you to advise you of the following changes that it proposes to make to the Company and its sub-funds (the “Funds”). All changes set out in this letter take effect on 18 December 2015 (the “Effective Date”), unless specifically stated and this letter forms notice to shareholders of that fact. Terms defined in the Company’s prospectus (the “Prospectus”) bear the same meaning herein.

For the avoidance of doubt, please note that the European Focus Fund, the North American Equity Income Fund and the World Real Estate Securities Fund referred to in this letter are not authorised by the Hong Kong Securities and Futures Commission (“SFC”) for sale to the public in Hong Kong.

The SFC’s authorisation is not a recommendation or endorsement of the Company or the Funds nor does it guarantee the commercial merits of the Company or the Funds or their performance. It does not mean the Company or the Funds are suitable for all investors nor is it an endorsement of their suitability for any particular investor or class of investors.

1. Changes to expected levels of leverage

The Funds may use derivatives to hedge market, interest rate and currency risks, and for the purposes of efficient portfolio management. Leverage is a Fund’s investment exposure gained through the use of derivatives. The expected level of leverage of each Fund is calculated using the sum of the notional values of all of the derivatives held by the relevant Fund, without netting. Please refer to the “Risk Management” and “Leverage” sections in the Prospectus for further details of the Company’s risk management policy and leverage calculation.

The expected level of leverage is not a limit and may vary over time. The expected level of leverage of certain Funds will be revised as described below. There will be no change to the investment objective, policy, overall risk profile or investment strategy of these Funds as a result of this change to the expected levels of leverage. The rationales for these changes are described below. These changes are of immediate effect.

FUND	CURRENT EXPECTED LEVEL OF LEVERAGE	EXPECTED LEVEL OF LEVERAGE IN PROPOSED PROSPECTUS	RATIONALE FOR CHANGE
Global Inflation Linked Bond Fund	145%	350%	The typical leverage for this Fund is normally higher than the currently quoted value as the Fund has increased its use of derivatives linked to short term interest rates.

FUND	CURRENT EXPECTED LEVEL OF LEVERAGE	EXPECTED LEVEL OF LEVERAGE IN PROPOSED PROSPECTUS	RATIONALE FOR CHANGE
Global High Yield Bond Fund	30%	60%	The typical leverage for this Fund is normally higher than the currently quoted value as the Fund has increased its use of foreign exchange derivatives.

2. Change to Risk Management Measure

In order to measure the global exposure of the Funds, the Management Company is required to select an appropriate risk management methodology. The selection should be based on the risk profile of the Funds, resulting from each Fund's investment policy (including its use of financial derivative instruments).

An advanced risk measurement methodology (the "Value at Risk", or "VaR" approach) is required where a fund engages in more complex investment strategies or has more than a negligible exposure to financial derivative instruments, and the "commitment" approach, which is the alternative methodology, is intended for funds that do not generally engage in such strategies. The Management Company has concluded that, although the VaR approach is currently used in respect of the Funds listed in Appendix A, the commitment approach is a more suitable methodology for these Funds, based on the investment strategy and risk profile of these Funds. The risk management methodology of the Funds listed in Appendix A will therefore change from the VaR approach to the commitment approach on the Effective Date.

Please note that this change relates exclusively to the risk management measure of the Funds and will not affect the way the Funds are currently managed or the overall risk profile of the Funds. The risk management measure of the Company's other Funds will not change.

3. Investments in the PRC via the Shanghai – Hong Kong Stock Connect ("Stock Connect")

Certain Funds are currently permitted to invest up to 10% of their total assets directly in the People's Republic of China ("PRC") via the Stock Connect (the "Stock Connect Funds"). The Stock Connect is a securities trading and clearing linked program developed by Hong Kong Exchanges and Clearing Limited, SSE and ChinaClear with an aim to achieve mutual stock market access between the PRC and Hong Kong.

The Stock Connect commenced trading on 17 November 2014. Under the Stock Connect programme the Stock Exchange of Hong Kong and Shanghai Stock Exchange established mutual order-routing systems to enable investors in their respective markets to trade designated shares listed in the other's market subject to rules and regulations issued from time to time and cross boundary investment quotas.

From the Effective Date, the investment limit of assets in the PRC via the Stock Connect and RQFII Quota for the Asian Growth Leaders Fund will be raised from 10% to 30%, and its investment objective and policy will be amended accordingly.

In addition, further Funds have been added to the list of Stock Connect Funds which means that, from the Effective Date, each of these Funds will be permitted to invest up to 10% of their total assets in the PRC via the Stock Connect. The additional Stock Connect Funds are listed in Appendix B.

For specific risks and other details associated with investing in the Stock Connect and RQFII Quota, please refer to the Prospectus. Investments via the Stock Connect or RQFII Quota are not expected to materially affect the overall risk profile of these Funds or change their expected levels of leverage.

4. Changes to range of custodian fees

Custodian fees are charged in respect of each Fund to remunerate the Custodian for safekeeping and transaction costs applicable to each Fund. The Custodian fees vary depending on the location of the market and are therefore disclosed in the Prospectus as a range.

The Prospectus has been revised to reflect the latest fee schedule in respect of the Custodian's fees as follows. These changes are already in effect.

	Existing Prospectus disclosure	Revised Prospectus disclosure
Annual custody safeguarding fees (per annum)	From 0.005% to 0.441%	From 0.0024% to 0.45%
Transaction fees (per transaction)	From USD 8.8 to USD196	From USD 5.5 to USD 124

5. Changes to Performance Benchmarks

On 30 September 2015 the performance benchmark for the World Mining Fund and World Energy Fund changed as follows:

Fund	Previous Benchmark	New Benchmark
BGF World Energy Fund	MSCI World Energy Index	MSCI World Energy 10/40 Net Total Return Index
BGF World Mining Fund*	Euromoney Global Mining Index	Euromoney Global Mining Constrained Weights Net Total Return Index

* The Fund's performance benchmark index is also now calculated on a "total return" rather than "capital only" basis.

The rationale for the above changes is that the new benchmarks reflect the UCITS concentration limits to which the portfolios are managed and are therefore more appropriate and fair comparisons for the Funds. The new benchmarks have been applied to the performance history of the Funds back to inception and the previous benchmarks no longer apply except as risk benchmarks until the Effective Date when the risk measure for both Funds will change to the commitment approach and accordingly the risk benchmarks will no longer apply.

Impact on Shareholders

Shareholders who do not agree with the changes explained in sections 2 and 3 of this letter may redeem their Shares free of any redemption charges at any time prior to the Effective Date, in accordance with the provisions of the Prospectus, however, in certain countries local paying agents, correspondent banks or distributors may charge transaction fees. Redemption proceeds will be paid to Shareholders on the third Business Day after the relevant Dealing Day, provided that the relevant documents (as described in the Prospectus) have been received.

General Information

Updated versions of the Prospectus, Key Investor Information Documents (not relevant for Hong Kong shareholders), Information for Residents of Hong Kong and Product Key Facts Statements of the relevant Funds will be available to shareholders in due course. Copies of the Company's Articles of Incorporation, annual and semi-annual reports are also available free of charge upon request from your local representative or for Hong Kong shareholders on +852 3903-2688 or at the office of the Hong Kong Representative at the address stated below.

The Directors accept responsibility for the contents of this letter. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure that this is the case) the information contained in this letter is in accordance with the facts and does not omit anything likely to affect the impact of such information.

If you would like any further information, please call +44(0)20 7743 3300. For Hong Kong shareholders please contact your Hong Kong Representative, BlackRock Asset Management North Asia Limited, at 16/F Cheung Kong Center, 2 Queen's Road, Central, Hong Kong or by telephone on +852 3903-2688.

Yours faithfully

Nicholas Hall
Chairman
