Important information pertaining to Customer Self Administrator(s) (CSA)

Nominated Customer Self Administrator(s) will have the full power to administer and operate DBS IDEAL on behalf of the organisation, including:

- Add or remove a Transaction maker and authoriser
- Modify any user access to accounts and services
- Suspending and re-activate a User's IDEAL access
- Unlocking Security Device
- Requesting for a new Security Device
- Managing company profile in IDEAL
- Manage company authorisation policy

Important notes

Given the wide powers conferred on the appointed Customer Self Administrator(s), Customer Self Administrator(s) should be persons within the organisation with sufficient executive power and authority to take on the role and the organisation is responsible for ensuring that it has appropriate and adequate internal controls procedures and security measures in place to prevent any fraud, abuse or unauthorised acts / omissions by Customer Self Administrators.

For security reasons, at least 2 Customer Self Administrators must be appointed and any action initiated by one Customer Self Administrator must be approved by at least one other Customer Self Administrator. Hence,

- a) Customer Self Administrator cannot act alone to add / modify any setup.
- b) Dual control is always required for any actions performed. It is mandatory to provide a valid mobile number and submit a Certified True Copy of identification document for all Customer Self Administrators together with this application.

You will need to submit the Mandate / Board Resolution for IDEAL Customer Self Administrator (CSA) when first time signing up for this service.

Dual Management Control is highly recommended if there are more than 1 'Transaction Maker' and 'Transaction Authoriser' in the organisation.

Risk Disclosure for Single Control

For authorisers who are approving transactions that they created themselves and that require only one authoriser, transaction challenge will only be sent via SMS to the registered mobile number.

Single Control

A procedure that needs only one person to complete a request, thus may incur higher risk compared with Dual Control.

Dual Control

A procedure that involves 2 or more people to complete a request - one person to create a request and another of higher authority to approve it in the system. This makes the system more secure as both persons would need to be in collusion to commit fraud.

Important information pertaining to Customer Self Administrator(s) (CSA)

Nominated Customer Self Administrator(s) will have the full power to administer and operate DBS IDEAL on behalf of the organisation, including:

- Add or remove a Transaction maker and authoriser
- Modify any user access to accounts and services
- Suspending and re-activate a User's IDEAL access
- Unlocking Security Device
- Requesting for a new Security Device
- Managing company profile in IDEAL
- Manage company authorisation policy

Important notes

Given the wide powers conferred on the appointed Customer Self Administrator(s), Customer Self Administrator(s) should be persons within the organisation with sufficient executive power and authority to take on the role and the organisation is responsible for ensuring that it has appropriate and adequate internal controls procedures and security measures in place to prevent any fraud, abuse or unauthorised acts / omissions by Customer Self Administrators.

For security reasons, at least 2 Customer Self Administrators must be appointed and any action initiated by one Customer Self Administrator must be approved by at least one other Customer Self Administrator. Hence,

- a) Customer Self Administrator cannot act alone to add / modify any setup.
- b) Dual control is always required for any actions performed. It is mandatory to provide a valid mobile number and submit a Certified True Copy of identification document for all Customer Self Administrators together with this application.

You will need to submit the Mandate / Board Resolution for IDEAL Customer Self Administrator (CSA) when first time signing up for this service.

The Bank recommends Dual Management Control for all transactions initiated via the system (except for transactions executed through FX Online). This segregation of duties is to ensure no single person could initiate and approve transactions that would result in fraudulent actions. Unless otherwise specified, dual authority would be the default setting (except for single user). ^①
